TULIPS Perfectly Hardy :- Easy to Grow

READY FOR DELIVERY IN SEPTEMBER AND OCTOBER
SINGLE EARLY TULIPS--"FULL OF LIFE"

Single Early Tulips—Duc Von Thol.

Beautifully colored flowers, early and strong bloomers.

Red and yellow, 3c. each; 27c. per doz.; \$1.94 per 100.
Crimson, 3c. each; 27c. per doz.; \$1.94 per 100.
Gold striped, 3c. each; 27c. per doz.; \$1.94 per 100.
White, 4c. each; 32c. per doz.; \$2.29 per 100.
Orange, 3c. each; 29c. per doz.; \$2.15 per 100.
Violet, 3c. each; 27c. per doz.; \$1.94 per 100.

Parrot Tulips.

Singularly beautiful flowers of wonderfully brilliant shades of scarlet, crimson, yellow and green, curiously intermixed and variegated. The edges of the petals are feathered. In masses or in shrubby borders they are very striking and effective. Perfectly hardy. The following varieties 3c. each; 24c. per doz.; \$1.64 per 100:

Crimson Brilliant, rich deep crimson.
Perfecta, variegated, yellow striped red.
Lutea Major, bright yellow, large.
Mixed.

Best Results for early Spring flowering can be obtained by planting in the open ground in the fall months

Good Results can likewise be secured by growing them in the house or conservatory for mid-winter blooming.

Complete cultural directions furnished free with every order.

Single and dozen prices include postage. The 100 rates are by express at purchaser's expense. Not less than six of any one variety supplied at dozen rates, and not less than 25 at 100 rates.

White Falcan. Beautiful clear white, of fine form striking appearance, and with long strong stems. Selected Bulbs 6c. each; 57c. per doz.; \$2.94 per 100.

Claermont A charming variety of blush-white color, very full and large. Extensively grown for

bedding. Selected Bulbs 3c. each; 27c. per doz.; \$1.94 per 100.

Queen of the Netherlands. A magnificent Tulip, large size of a rich light pink color, center of petals generally of a lighter shade. Selected Bulbs, 3c. each; 27c. per doz.; \$1.94 per 100.

Proserpine. New large handsome flower of glowing brilliant rose. Finely tinted, Grand in every way. Selected Bulbs 6c. each; 57c. per doz.; \$2.94 per 100.

Prince of Austria. Bright red; fine bold flowers, dwarf; excellent for out-door plantings. Selected Bulbs 6c. each; 57c. per doz.; \$2.94 per 100.

BEST DOUBLE LATE

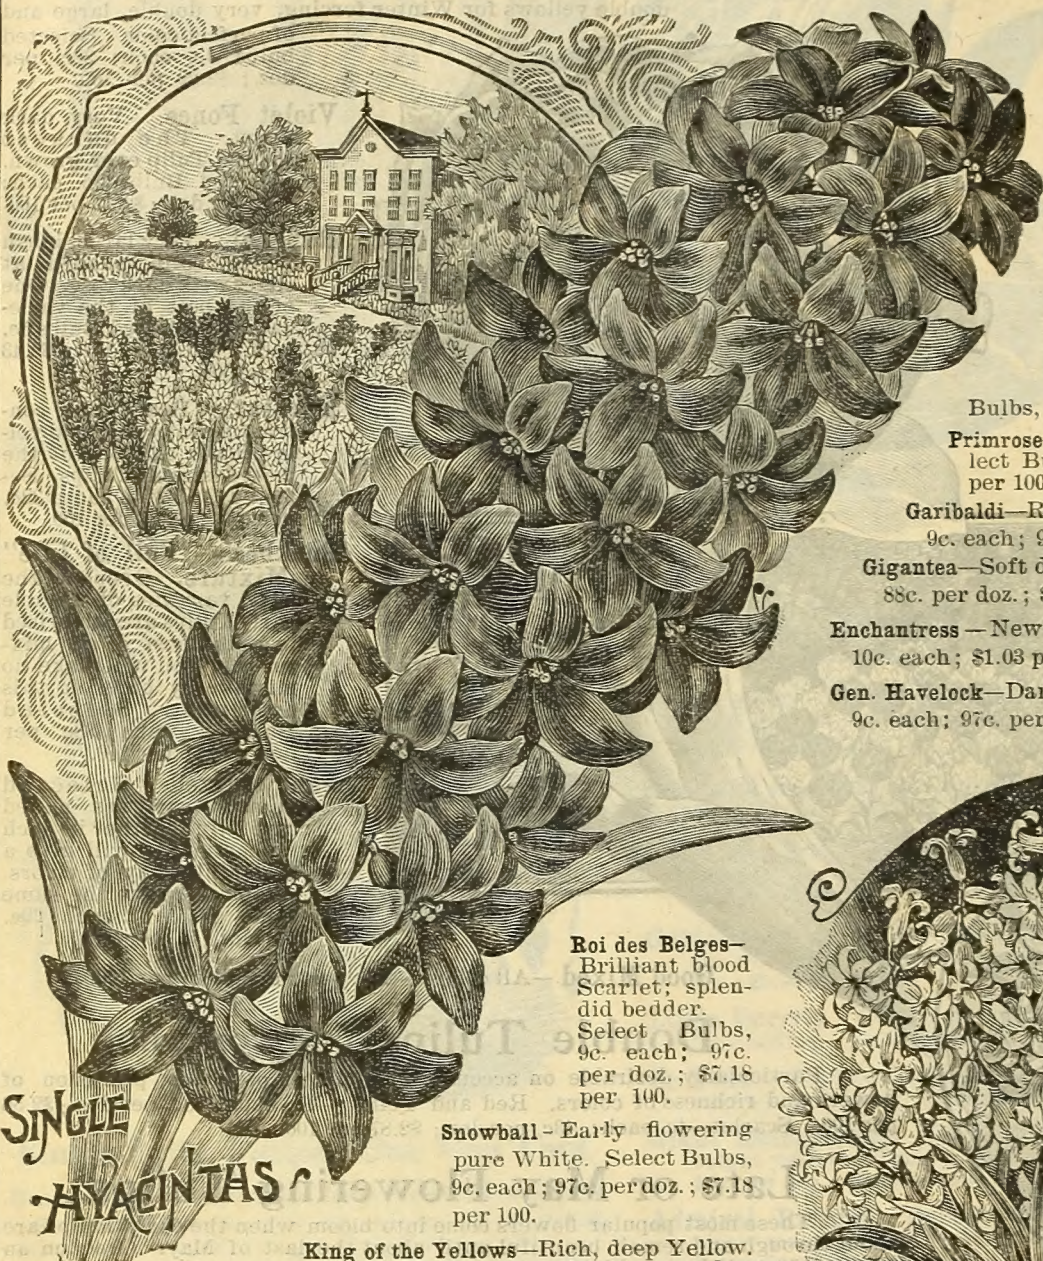

Choicest Double Mixed. Comprising over 35 of the most popular sorts in finest mixture. 4c. each; 38c. per doz.; \$2.56 per 100.

SINGLE HYACINTHS

BUCKBEE'S "FULL OF LIFE" VARIETIES

Fine Form : Large Size : Very Fragrant : Strong Stems : Exquisitely Beautiful

We consider the Single Hyacinths more useful and valuable than the double varieties. They are better for forcing, more vigorous in growth, and produce stronger spikes of bloom, which are generally of better substance and are at least as beautiful as those of the double sorts. Single and dozen prices include postage. The 100 rates are by express at purchaser's expense. Not less than six of any one variety supplied at dozen rates, and not less than 25 at 100 rates.

Roi des Belges—Brilliant blood Scarlet; splendid bedder. Select Bulbs, 9c. each; 97c. per doz.; \$7.18 per 100.

Snowball—Early flowering pure White. Select Bulbs, 9c. each; 97c. per doz.; \$7.18 per 100.

King of the Yellows—Rich, deep Yellow. Select Bulbs, 8c. each; 88c. per doz.; \$6.84 per 100.

Buckbee's "Full of Life" Mixture—All the newest and best varieties. Great care has been used in making up this very superior assortment to use nothing but the finest colors and free flowering sorts. Select Bulbs, 8c. each; 88c. per doz.; \$6.84 per 100.

Superfine Mixed—All the varieties on this page and many others are included in this lot. Select Bulbs, 5c. each; 54c. per doz.; \$3.72 per 100.

Mixed—All colors; very fine. Select Bulbs, 5c. each; 49c. per doz.; \$3.19 per 100.

ROMANS

These flowers while smaller than the Dutch Hyacinths are produced in greater abundance. Very beautiful and of exquisite perfume.

Light Pink—7c. each; 69c. per doz.; \$3.97 per 100.

Rose—7c. each; 69c. per doz.; \$3.97 per 100.

White—7c. each; 69c. per doz.; \$3.97 per 100.

Moreno—Beautiful Waxy-Pink. Select Bulbs, 10c. each; \$1.03 per doz.; \$7.86 per 100.

Etna—New. A brilliant Scarlet-Rose with Carmine stripe. Select Bulbs, 10c. each; \$1.03 per doz.; \$7.86 per 100.

Lord Balfour—Color, Claret-Purple. Select Bulbs, 9c. each; 97c. per doz.; \$7.18 per 100.

Voltaire—Color, Blush, shaded darker. Select Bulbs, 8c. each; 88c. per doz.; \$6.84 per 100.

La Grandesse—Purest snow White. Select Bulbs, 10c. each; \$1.03 per doz.; \$7.86 per 100.

Schotel—Pale Porcelain Blue. Select Bulbs, 8c. each; 88c. per doz.; \$6.84 per 100.

Primrose Perfection—New. Pure Yellow. Select Bulbs, 10c. each; \$1.03 per doz.; \$7.86 per 100.

Garibaldi—Rich glossy Crimson. Select Bulbs, 9c. each; 97c. per doz.; \$7.18 per 100.

Gigantea—Soft delicate Rose. Select Bulbs, 8c. each; 88c. per doz.; \$6.84 per 100.

Enchantress—New. Pure "Baby Blue." Select Bulbs, 10c. each; \$1.03 per doz.; \$7.86 per 100.

Gen. Havelock—Dark, glossy Indigo Blue. Select Bulbs, 9c. each; 97c. per doz.; \$7.18 per 100.

Select Roman Hyacinths.

CHOICE DOUBLE HYACINTHS

"FULL OF LIFE" SURE TO PLEASE

PERFECTLY HARDY -:- VERY DOUBLE -:- PRETTY AND FRAGRANT

Our double hyacinths are the best obtainable, and can be depended upon to produce double flowers in a proportion unequaled in inferior grades.

Single and dozen prices include postage. The 100 rates are by express at purchaser's expense. Not less than six of any one variety supplied at dozen rates, and not less than twenty-five at 100 rates.

Good Mixed—All colors; very fine. Selected Bulbs—5c. each; 49c. per doz.; \$3.19 per 100.

BUCKBEE'S "FULL OF LIFE" Narcissus, Daffodils and Jonquils

READY FOR SHIPMENT IN SEPTEMBER AND OCTOBER

Single and dozen prices include postage. The 100 rates are by express at purchaser's expense. Not less than six of any one variety supplied at dozen rates, and not less than twenty-five at 100 rates.

Complete cultural directions furnished free with every order.

NARCISSUS OR DAFFODILS.

Among Spring flowering bulbous plants the Narcissus family—which includes Daffodils and Jonquils—is one of the most important and of world-wide popularity.

They may be grown in garden beds, among hardy plants in herbaceous borders, or "naturalized," that is, grown as if wild in outlying portions of the lawn or grounds, on terraced slopes, stream side banks and along semi-shaded paths.

DOUBLE.

Double Von Sion—The well-known popular, Double Yellow Daffodil used for forcing. Imported Holland stock—True Extra Selected Bulbs—4c. each; 48c. doz.; \$2.89 per 100.

Alba Plena—Double Snow White exquisitely scented. Late flowering. Extra Selected Bulbs—3c. each; 29c. per doz.; \$1.98 per 100.

Double White—A great array of shades. Everything from pale white to blush and cream. 3c. each; 29c. per doz.; \$1.98 per 100.

Double Yellow—The best sorts ranging in color from pale yellow to canary and orange. 4c. each; 39c. per doz.; \$2.44 per 100.

Buckbee's "Full of Life" Mixed—All the best double varieties. Many of which are so scarce and expensive that they are offered in no other way. 4c. each; 46c. per doz.; \$3.10 per 100.

Double Finest Mixed—Made up from the finest of the large double sorts. 3c. each; 33c. per doz.; \$2.32 per 100.

Double Choicest Mixed—Not quite equal to the above, still they are very fine. 3c. each; 31c. per doz.; \$2.29 per 100.

SINGLE.

Poeticus or Pheasants Eye—Excellent for outside work. Single pure white, orange cup—Hardy. 3c. each; 24c. per doz.; \$1.73 per 100.

Poeticus Ornatus—Four weeks earlier than above. 3c. each; 29c. per doz.; \$2.11 per 100.

Ajax Princeps—Very superior Forcing variety. Yellow trumpet, blush white perianth. Selected Bulbs 3c. each; 32c. per doz.; \$2.07 per 100.

Single Yellow—Rich array of colors which are sure to please. 3c. each; 24c. per doz.; \$1.73 per 100.

Single White—All the whites including the delicate blush color. 3c. each; 22c. per doz.; \$1.64 per 100.

Buckbee's "Full of Life" Mixture—The best assortment of Single Narcissus ever offered. All the best sorts and colors. Selected Bulbs 4c. each; 46c. per doz.; \$3.10 per 100.

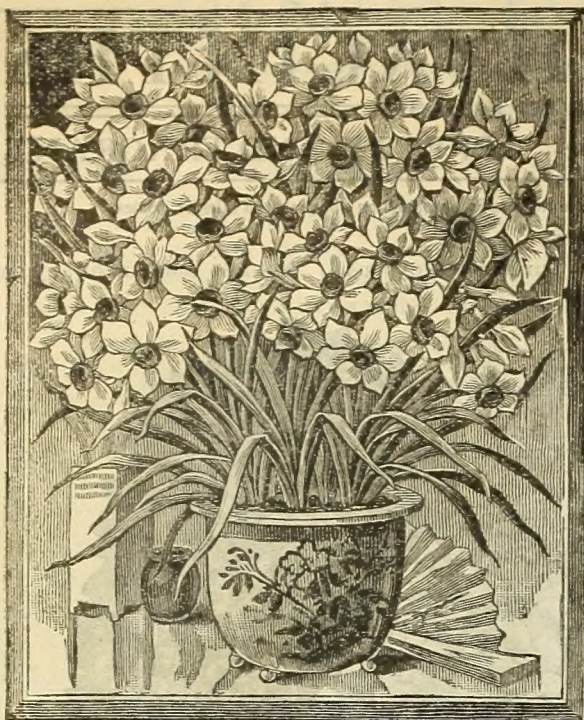

Single Finest Mixed—The best assortment ever offered. All the colors and varieties. 3c. each; 22c. per doz.; \$1.67 per 100.

Single Choicest Mixed—The grade usually offered. Extra quality. 3c. each; 21c. per doz.; \$1.59 per 100.

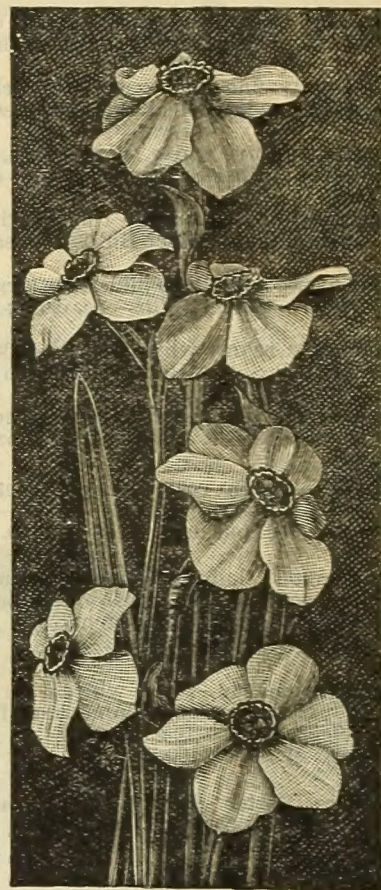

Polyanthus—Very fragrant. Borne in clusters on long stems. Choicest mixed colors. 4c. each; 30c. per doz.; \$2.50 per 100.

Paper White—This large flowering type is such an improvement over the ordinary "Paper White" that we have discontinued offering the latter. Extra Selected Bulbs 3c. each; 32c. per doz.; \$2.07 per 100.

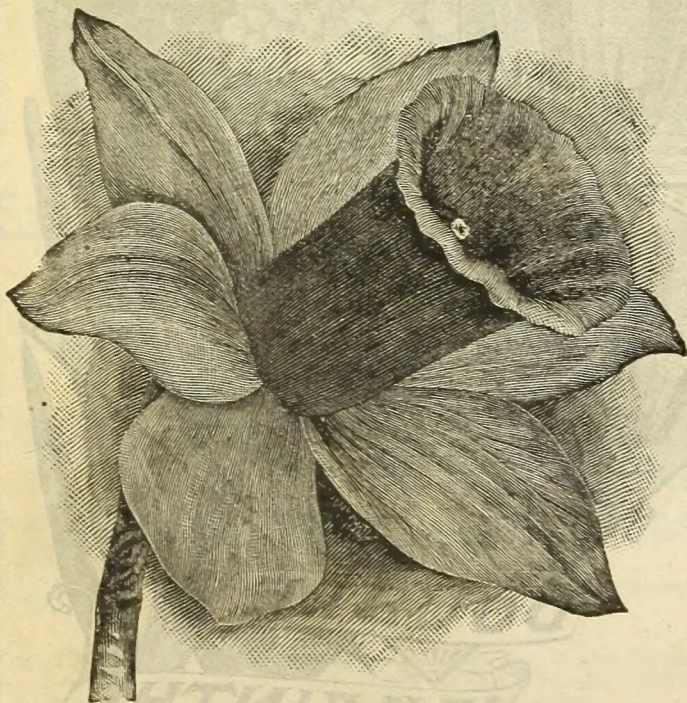

JONQUILS—Highly prized for their graceful, fragrant blossoms. Our bulbs are sure to produce a profusion of large yellow flowers of great beauty. Single Sweet Scented—17c. per doz.; 83c. per 100. Double Sweet Scented—24c. per doz.; \$1.49 per 100.

POLYANTHUS NARCISSUS.

POETICUS NARCISSUS.

DOUBLE VON SION NARCISSUS.

Bermuda Easter Lily.

THE TRUE "FULL OF LIFE" Bermuda Easter Lily

(LILIUM HARRISII)

The Grandest Winter-Flowering Plant in Cultivation

Is of the Easiest Culture, Blooming in Wonderful Abundance

The flowers are delightfully fragrant, pure waxy white, of great substance, and if cut as soon as they are open, or partially open, they can be kept with stems in water, for two weeks.

A short time only is required to bring it into bloom. Bulbs potted in August can be had in flower in November, if desired.

A succession of bloom can be kept up from November to May by bringing in a few pots of bulbs from cold frames at intervals throughout the winter.

The quantity of bloom produced is marvelous; the average production of bulbs 5 to 7 inches in circumference, even when forced, is from 4 to 6 flowers, and of bulbs 7 to 9 inches, 8 to 12 flowers.

Blooming plants in pots form typical Easter offerings and presents for decoration of the window, table, house or church. Nothing is more appropriately beautiful and highly appreciated. Thousands upon thousands are sold in the large cities every winter for this purpose.

Chinese Sacred Lily.

Prices of the True "Full of Life"

Bermuda Easter Lily Bulbs:

Monstrous Size Bulbs—

27c. each; 4 for \$1.00.

Extra Selected Bulbs—

23c. each; 5 for \$1.00.

Good First Size Bulbs—

15c. each; 4 for 50c.

Chinese Sacred Lily

The flower is white with a yellow-tinted cup. The bulbs are large with from three to six various sized offsets, and nearly every offset bears a flower stalk. Usually grown in a bowl of water. We can furnish them till the last of March, when the supply is usually exhausted, and we do not have more until fall.

Bulbs 15c. each, postpaid.

Japanese Easter Lilies

Beautiful flower. True type. About two weeks later than the Bermuda.

Mammoth Bulbs—18c. each; 3 for 50c. Fine Select Bulbs—18c. each; 2 for 25c.

Lilium Candidum

The peerless white Lily, queen of the garden. Also called Annunciation or Madonna Lily. Although old and common, this is still one of the finest single clear white flowers in cultivation, and no garden however small should be without at least one plant of this beautiful variety. It should be planted in the fall. 20c. each; 3 for 50c.

Lilium Auratum—Gold Banded Lily

READY IN NOVEMBER

The glorious gold banded Lily of Japan, and one of the grandest plants in cultivation. Its immense, ivory-white flowers are thickly studded with yellow and crimson spots, while in the center of each petal is a golden band, fading at its edges into the white. Such choice bulbs as we offer if well cared for will give from five to ten magnificent flowers the first year, and under good cultivation will, after becoming well established, give from ten to fifty. We are sometimes unable to deliver this variety early enough in the fall for outdoor planting, but in that case the bulbs can be successfully put out in the spring.

Monstrous Size Bulbs—30c. each; 4 for \$1.00. Extra Select Bulbs—23c. each; 5 for \$1.00.

Large Bulbs—18c. each; 3 for 50c.

Complete cultural directions furnished free with every order. Single and dozen prices include postage. The 100 rates are by express at purchaser's expense. Not less than six of any one variety supplied at dozen rates, and not less than 25 at 100 rates.

Lilium Auratum.

Buckbee's "Full of Life" Bulbs

Ready for Shipment in September and October

SPANISH IRIS

The flowers are of enormous size, and of indescribable and charming hues and colors. See cut which gives only a faint idea of the beauty of this flower.

British Queen—Very beautiful pure White flowers, deliciously scented.

Louise—Beautiful soft shade of Light Blue.

Belle Chinoise—the best Golden Yellow ever grown.

Reconnaissance—Bronze color.

Above four varieties—Selected Bulbs, 3c. each; 26c. per doz.; \$1.52 per 100.

Pure White, Yellow,
Blue, Bronze.

2c. each; 21c. per doz.; \$1.39 per 100.

Buckbee's "Full of Life" Mixed—Embracing many of the new and peculiar shades and markings. Over 25 different and distinct varieties. Select Bulbs—18c. per doz.; \$1.32 per 100.

Choicest Mixed—A good assortment and well worth the price—15c. per doz.; 98c. per 100.

RANUNCULUS

Strikingly beautiful flowers, well adapted to pot culture in the house. The individual blossoms are about two inches in diameter, and perfectly double. The plants are not hardy and some pains must be taken to insure success when planted out in beds, but they will amply repay all care bestowed upon them.

Like Anemones, they do best planted in very rich soil, and should have a northerly site protected from the sharp wind and too much sun. The beds should have good drainage, and the soil be light and warm.

Persian—15c. per doz.; 65c. per 100.

French—15c. per doz.; 65c. per 100.

Turban—15c. per doz.; 75c. per 100.

Buckbee's "Full of Life" Mixed—20c. per doz.; \$1.08 per 100.

Choicest Mixed—15c. per doz.; 85c. per 100.

Iris.

CROCUS

Everybody knows and admires the Crocus which is one of the earliest and daintiest of the spring flowers. Our Bulbs are of good size and can be depended upon to give good satisfaction every time.

Adonis—Best Light Blue.

Black Knight—Rich, dark, velvety purple.

Above two—Selected Bulbs, 3c. each; 22c. per doz.; \$1.43 per 100.

King of Orange—Large dark Orange. Selected Bulbs, 3c. each; 27c. per doz.; \$1.74 per 100.

Golden Yellow—Light Golden yellow.

May—The one pure White that always comes true. *Ranunculus.*

Albion—Beautiful Striped variety.

Above three—Selected Bulbs, 3c. each; 22c. per doz.; \$1.43 per 100.

Grandiflora Light Blue,

Grandiflora Purple,

Grandiflora Orange,

Grandiflora Yellow,

Grandiflora White,

Grandiflora Striped,

Grandiflora Cloth of Gold,

Grandiflora Cloth of Silver.

Above 8 varieties—14c. per doz.; 58c. per 100; \$4.97 per 1,000.

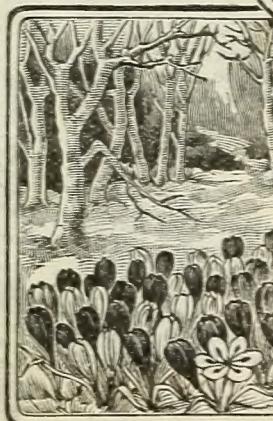

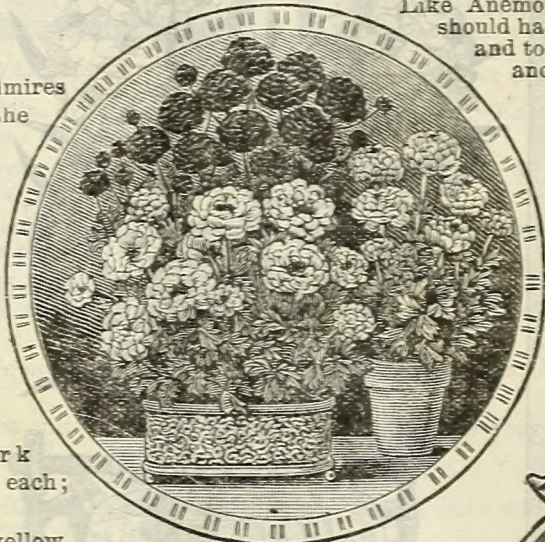

Buckbee's "Full of Life" Mixture—Composed entirely of named varieties, many of which are so rare that they cannot be listed separately owing to scarcity of stock. Selected Bulbs, 22c. per doz.; \$1.43 per 100.

Superfine Mixed—This mixture is indeed well named and is superior to most mixtures offered. Selected Bulbs, 14c. per doz.; 58c. per 100; \$4.97 per 1,000.

Choicest Mixed (not less than 100 sold)—Owing to the extremely low price we cannot afford to put up packages containing less than 100 Bulbs. Price per 100, 49c.; per 1,000, \$3.97.

Single and dozen prices include postage. The 100 and 1,000 rates are by express at purchaser's expense. Not less than six of any one variety supplied at dozen rates, and not less than 25 at 100 rates.

Complete cultural directions furnished free with every order.

THE FIRST FLOWERS
of SPRING.

CROCUS.

SCILLA.

SCILLAS—The Blue Bell

Most beautiful hardy spring Bulbs, producing in profusion masses of exquisite rich Blue flowers almost before the snow has disappeared.

Nutans—2c. each; 21c. per doz.; \$1.62 per 100.
Siberica—3c. each; 32c. per doz.; \$2.07 per 100.
Alba—2c. each; 21c. per doz.; \$1.62 per 100.

SNOWDROP

In the early spring months there is nothing more beautiful than a sheet of the snowy, graceful blossoms of the Snowdrop. Beds and effects of surpassing beauty may be arranged with Snowdrops in the center, edged with bright Blue Scilla, Siberica or Chionodoxia, or by intermingling them.

Giant Flowering Single—3c. each; 15c. doz.; \$1.53 per 100.
Giant Flowering Double—3c. each; 20c. doz.; \$1.89 per 100.
Giant Elwesii—3c. each; 15c. doz.; \$1.53 per 100.

CHIONODOXA

OFTEN CALLED

Glory of the Snow

These are among the most exquisite of spring-flowering Bulbs, and should be grown in quantities. They produce flower spikes bearing 10 to 15 lovely Scilla-like flowers.

They are perfectly hardy, and may be planted as an edging to a bed, or in masses, naturalized in the lawn they are charming; they flower with the Snowdrops and last a long time in perfection. They will thrive well in any good garden soil, and are admirable for pot culture, for winter blooming in the house, and for forcing for cut flowers.

Remember that our Chionodoxa Bulbs are large cultivated Bulbs that will throw up several spikes bearing several flowers on each, not the collected "seconds" that can be sold at a lower price.

Chionodoxa Lucillae—Bright Blue with large clear White center (large cultivated Bulbs)—18c. per doz.; \$1.21 per 100.

Chionodoxa Sardensis—Intense deep Blue (large cultivated Bulbs)—22c. per doz.; \$1.24 per 100.

Chionodoxa Gigantea—Unusually large flowers of lovely Lilac-blue, with conspicuous White center (large cultivated Bulbs)—22c. doz.; \$1.36 per 100.

FREESIAS

Freeseas are the most popular and charming Bulbs for pot culture, flowering in the winter and spring in the conservatory, or window garden; 6 or 8 Bulbs should be planted in a 4-inch pot.

Giant White Snowstorm—4c. each; 47c. doz.; \$2.86 per 100.

Refracta Alba—Extra large Bulbs—3c. each; 22c. doz.; \$1.47 per 100.

Buckbee's "Full of Life" Mixed—20c. doz.; \$1.34 per 100.

Anemone.

Buckbee's "Full of Life" Hardy Perennial Plants and Shrubs

GOLDEN GLOW

The Old Fashioned Hardy Garden Flowers. The favorites of old-time garden are again popular and deservedly so. No feature of the garden can be more satisfactory than a good assortment of these hardy plants producing from early Spring to late in the Fall a continuous succession of charming flowers which are much more interesting than the usual greenhouse varieties and are equally valuable for garden ornamentation and cutting purposes. Many people seem to think that in order to get satisfactory results they must have large clumps of these, but experience has taught us that this in most cases is a mistake. In fact a vigorous plant of proper size will in nearly every case give quicker and better returns than the best so called "Large" or "Field" clumps. The cultivation of these is of the simplest and they can be grown on any good garden soil with good results. In order, however, to produce the most luxuriant flowers it is well to enrich the ground with any good fertilizer such as well decomposed cow or sheep manure. A covering of such manure applied in the Fall will both enrich the soil and give protection during Winter.

Achillea. (The Pearl). One of the very best white flowered plants for the border. The flowers are borne in the greatest profusion the entire summer on strong erect stems, pure white in color; somewhat resembling Pompon Chrysanthemums. As a summer cut bloom, it is invaluable.

Select Plants postpaid—15c. each; not prepaid, by Express—\$1.20 per doz.

Delphinium or Larkspur. (Formosum). These old fashioned flowers are being used with telling effect in our parks and public grounds. They are about the only blue hardy flower of any note, and have a long season of bloom. Blooms from June until frost, and grows three to four feet high. Very dark blue in color.

Select Plants postpaid, 15c. each; not prepaid, by express, \$1.15 per doz.

Baby's Breath. (Gypsophila Paniculata). A beautiful old fashioned plant possessing a grace not found in any other perennial. It forms a beautiful mass of pure white flowers of a charming gauze-like appearance and is exquisite for cutting. Plants two to three feet in height and about the same in diameter.

Prices postpaid—15c. each. Not prepaid, by Express—\$1.20 per doz.

Canterbury Bells. (Campanula Medium). An old time favorite. Our stock has been grown from the very finest strains.

Prices postpaid—10c. each. Not prepaid, by Express—\$1.00 per doz.

Coreopsis. (Lanceolata Grandiflora). One of the most popular hardy plants. The flowers are of a rich golden yellow and invaluable for cutting; continues in bloom the entire Summer and Fall, does well everywhere.

Prices postpaid—10c. each. Not prepaid, by Express—\$1.00 per doz.

Fox Glove. (Digitalis). Another good old fashioned but dignified and stately perennial. The strong flower stalks—often four to six feet high always give an appearance of strength wherever planted and during their period of flowering put other plants almost in the shade.

Prices postpaid—15c. each. Not prepaid, by Express, \$1.15 per doz.

Gaillardia Grandiflora. One of the showiest and most effective hardy plants; about two feet high, and continuous bloomers from June till cut down by the frost. The flowers are of gorgeous coloring; the center is of dark red-brown with petals marked with rings of brilliant crimson, orange and vermillion, and often a combination of all in one flower. Excellent for cutting.

Prices postpaid—10c. each. Not prepaid, by Express—\$1.00 per doz.

Golden Glow. (Rudbeckia). It is a question whether any other hard perennial has ever met with greater popularity than this. It is a strong robust grower, of five to six feet, and produces masses of double golden yellow cactus dahlia-like flowers from July to September.

Prices postpaid—10c. each. Not prepaid, by Express—75c. per doz.

Hardy English Violet. This Violet is entirely hardy of a deep violet-purple color and most deliciously fragrant, and perfectly double. It surpasses the well known "Marie Louise" Violet in richness of color, being many shades darker, and far excels it in its delightful odor which is one of its greatest merits. Will grow and bloom in any garden and in any situation. Nothing is more appropriate for cemetery plots than the Hardy Double English Violet.

Prices postpaid—10c. each. Not prepaid, by Express—\$1.00 per doz.

>DIELYTRA OR NEW BLEEDING HEART<

Bleeding Heart. (Dielytra, or Dicentra). An old fashioned favorite; its long and graceful heart-shaped pink flowers are always attractive; is perfectly at home in any part of the garden, but is specially valuable for planting in the shade.

Prices postpaid—15c. each. Not prepaid, by Express—\$1.15 per doz.

FOX GLOVE

Buckbee's "FULL OF LIFE" Hardy Perennial Plants and Shrubs

Hardy Perennial Phlox.

HARDY PHLOX

No class of Hardy Perennials is of more importance than the Phloxes which succeed almost under any conditions and flower from the end of June until late in the Fall; and while they will continue in good condition and flower freely for many years without attention, still they are much improved by liberal cultivation. Although there are quite a number of different varieties and colors, we have confined ourselves to six of the newest and rarest sorts, which are without doubt the choicest and most distinct assortment that has ever been offered.

Selma. Medium tall variety. Dark-stemmed, light salmon color with violet eye. Very attractive and sure to please. Select plants, prices postpaid—15c. each; not prepaid, by express—\$1.25 per doz.

Coquelicot. Beautiful orange red and scarlet variety with distinct violet eye. Large free bloomer with strong stems. Select plants, prices postpaid—15c. each; not prepaid, by express—\$1.25 per doz.

Pantheon. The peerless pink. Extra large, flat flowers of salmon pink. This is a sort that never fails to give the best of satisfaction. Select plants, prices postpaid—15c. each; not prepaid, by express—\$1.25 per doz.

Chateaubriand. Pure white with crimson, carmine eye, shading to violet purple. Long strong stems, very erect. Select plants, prices postpaid—15c. each; not prepaid, by express—\$1.25 per doz.

F. G. Von Lassburg. The purest white in cultivation. Long stems bearing immense flowers, the individual florets of which are larger than any other white. Select plants, prices postpaid—15c. each; not prepaid, by express—\$1.25 per doz.

Inspector Peiker. Purplish mauve washed in white. Very unique and distinct color. A very satisfactory variety. Select plants, prices postpaid—15c. each; not prepaid, by express—\$1.25 per dozen.

HOLLYHOCK

Few hardy plants combine as many good qualities as the Hollyhock. The flowers form perfect rosettes of the most lovely shades of color. It requires a rich, deep soil, well drained, and will repay in quantity and elegance of bloom any extra care. A slight protection during the Winter will be beneficial.

Bright Double Red.

Double Yellow.

Double Pink.

Double White.

Prices, postpaid—10c. each; not prepaid, by express—\$1.00 per doz.

Paeony.

PAEONIAS

The "Pineys" that grew in Grandmother's garden. The old-fashioned "Pineys" of our Grandmother's garden, while still popular because of their early flowering, have been eclipsed by the wonderful sorts introduced in recent years, and we find that the following varieties are admirably suited for all purposes.

Venus. An elegant double-white of the purest color. Of immense size and queenly in its splendor. Select plants, price postpaid—25c. each.

Zada. A delicate soft pink of exquisite shade and great beauty. A free bloomer of excellent merit. Select plants, price postpaid—25c. each.

Chieftain. The finest red variety—being a deep rich red of rare beauty. The favorite color of our Grandmothers, and very beautiful. Nothing can take its place. Select plants, price postpaid—25c. each.

SPECIAL OFFER of the above set of Three Hardy Paeonias, prepaid by mail, only 50c.

HARDY GARDEN PINKS

Old favorites bearing their sweet clove-scented flowers in the greatest profusion during the Summer months. Finely selected varieties postpaid—10c. each; not prepaid, by express, \$1.00 per doz.

PERENNIAL POPPY

Nothing can equal these Poppies during their period of flowering for a gorgeous display of a rich brilliant coloring, and the freedom with which they bloom render them conspicuous in any position. Select plants, price postpaid—15c. each; not prepaid, by express—\$1.20 per doz.

HOLT'S MAMMOTH SAGE

This is one of the finest of the scarlet Sages, growing in a compact bush about two feet high and two feet in diameter. Select plants, price postpaid—10c. each; not prepaid, by express—75c. per doz.

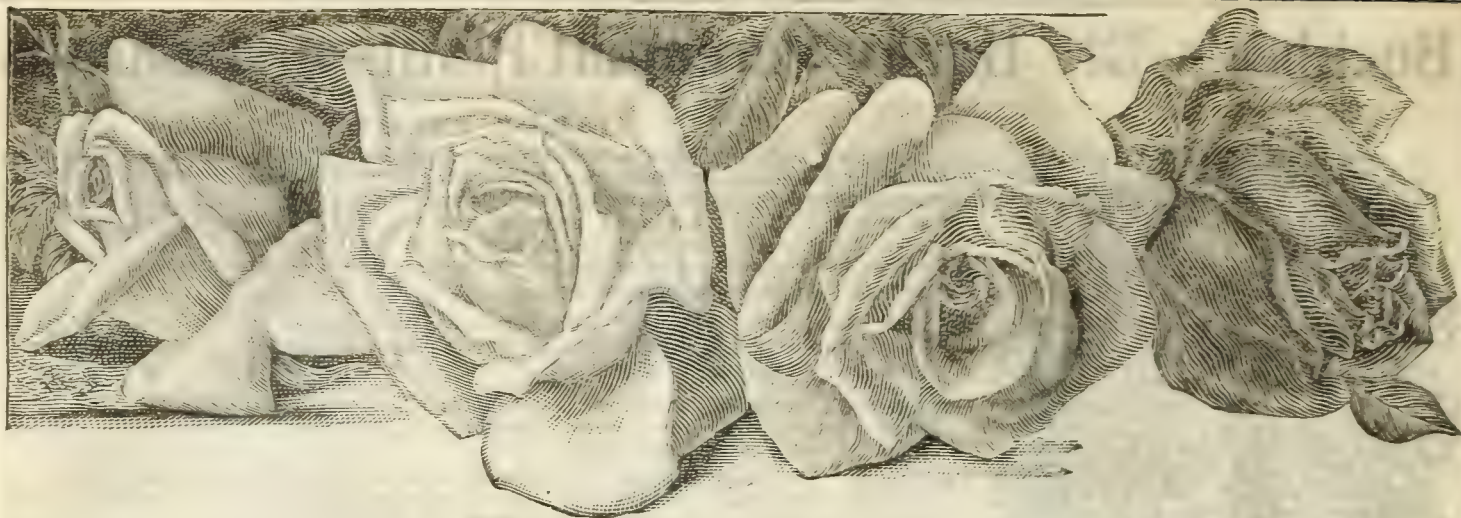

SHASTA DAISY

Mixture of new named varieties

These new Hybrids of Shasta Daisy give us different forms of flowers and much larger blooms, and are just as hardy and strong growing as the original type. Flowers range in shape from fully double to single; and in color, from pure white to pale lemon yellow—some solid color, some prettily variegated with yellow discs. The plants are extremely productive of bloom, which continues throughout a long season and is supported on long, firm stems—making as spectacular a field show and as profitable a cut flower supply as any hardy perennial grown. Select plants, prices postpaid, 10c. each; not prepaid, by express, \$1.00 per doz.

Hardy Garden Pinks.

CLIO

MARECHAL NEIL

CAPITAIN CHRISTY

AMERICAN BEAUTY

Buckbee's "Full of Life" Hardy Hybrid Perpetual Roses

FOR FALL PLANTING

Alfred Colomb—Justly celebrated as one of the very finest; extra large round flowers, very double and full. Color is clear cherry red passing to bright crimson.

American Beauty—It is a vigorous grower and free bloomer. In color the flowers are of a rich shaded crimson, and are great keepers. Very large and double; exceedingly sweet.

Anna de Deisbach—The color is the most lovely brilliant carmine; long pointed buds and large, finely formed flowers, very full, double, and delightfully sweet.

Capitaine Christy—Fresh delicate pink, with deeper shading in center of flower; beautiful.

Clio—The flower is of flesh color with a rosy pink center; large and globular; very hardy.

Coquette des Alpes—A lovely pure white Rose; very full and free in flower; delicious fragrance.

Duke of Edinburgh—One of the finest dark red Roses known; very fragrant.

General Jacqueminot—The best known hybrid perpetual in existence. Buds of a bright and shining crimson, very rich and velvety, exceedingly brilliant and handsome.

SPECIAL PRICE: Fine Plants postpaid, 20c.; 3 for 50c. Large 2-year old Roses, by express, at buyer's expense, 35c. each: 3 for \$1.00.

PERPETUAL MOSS ROSES

Blanche Moreau—The flowers, which are borne in clusters, are very large, full, sweet and of perfect form. Pure waxy white in color and are daintily framed in exquisite green moss.

Henry Martin—Rich glossy pink, richly shaded with the most beautiful tint of crimson toward the center.

SPECIAL PRICE: Fine Plants postpaid, 20c. each; 3 for 50c. Large 2-year-old Roses, by express at buyer's expense, 35c. each: 3 for \$1.00.

ORIENTAL RAMBLER ROSES

SPECIAL OFFER—Fine Plants 15c. each, set of four postpaid 50c. Larger Plants 30c. each. The set of four cost but \$1.00, by express at purchaser's expense. Extra size plants 50c. each, or the set of four for only \$1.75. The larger and extra size plants shipped by express at buyer's expense.

BABY RAMBLER

THE NEW DWARF
CRIMSON RAMBLER

Fine young plants, postpaid, 25c. to 35c. each.
Two-year-old plants, by express, buyer's expense, 50c. each.

THE FINEST HARDY CLIMBING ROSES IN THE WORLD

These Roses are Hardy and will grow outside during the winter months if nicely mulched, well-covered and protected.

Empress of China—(The Apple Blossom Rose.) Attaining a height of 15 to 25 feet in a single season. Color soft dark red, changing to lighter red or pink.

Carmine Pillar—Single; carmine pink. Very fine and attractive.

Baltimore Belle—Pale blush variegated carmine. Hardy everywhere.

Tennessee Belle—Strong, vigorous, graceful grower. Bright, beautiful pink.

Greville, or Seven Sisters—Flowers varying in color from light pink to crimson. Hardy everywhere.

Mary Washington—Flowers large, pure white and very double.

Queen of the Prairie—Strong and rapid grower; bright red color.

Worth 50c.; My Price 10c. each; \$1.00 per dozen: Larger Plants by Express, at buyer's expense, 30c. each; \$3.00 per dozen.

NOTICE—All the Roses listed on this page are Hardy and will live outside during the winter months. But should be sufficiently protected according to the locality where they are planted.

Giant of Battles—Fine, large, double, rich, red Rose, very fragrant.

Glorie de l'Exposition Bruxelles—Large, perfectly double bright crimson, of velvety texture.

Glorie de Margottin—Rich dazzling red; one of the most brilliant of all Roses.

Mad. Alfred de Rougemont—Pure snow white flowers finely tinted with pale rosy blush; large, full and double, very fragrant.

Mad. Chas. Wood—Color bright, fiery scarlet; passing to fine rosy crimson, elegantly shaded with maroon.

Mad. Plantier—This ironclad variety is as hardy as an oak. It bears thousands of snowy white, fragrant Roses and is unequaled where a hardy white Rose is needed.

Magna Charta—Large, full flowers, very double; fine form and sweet; color clear rosy red, beautifully flushed with violet crimson; a profuse bloomer, extremely hardy.

Marie Bauman—One of the very best dark red Roses.

Paul Neyron—Deep, shining Rose, very fresh and beautiful, flowers of mammoth size. The buds always develop fine and it is a strong grower.

Prince Camille de Rohan—Rich, deep velvety crimson, passing to intense maroon, shaded black, flowers are large, handsome and freely produced.

Extremely Hardy. No Roses More Beautiful.

Deliciously Fragrant. Perfect of Form.

John Cranston—This rose combines the good qualities of the other Moss Roses, and is the most beautiful deep glowing crimson imaginable. The flowers are of large size and perfectly double, borne in the greatest profusion. An exceptionally grand variety.

Beautiful Crimson Rambler.

Pink Pearl Rambler.

New Diadem Rambler.

Golden Beauty Rambler.

BUCKBEE'S "Full of Life" EVERBLOOMING ROSES

—FOR HOUSE CULTURE—

Worth 20c.; Prices except where noted, 10c. each. Any 3 for 25c., postpaid.
Larger Plants 30c. each, by Express, at buyer's expense.

CHAMPION OF THE WORLD ROSE

THE TULIP ROSE

Bon Silene—Very vigorous; blooms the year round; beautifully formed buds of a rich carmine shade.

Bridesmaid—(Tea)—This exquisite new Rose is a sport from the old favorite, Catherine Mermet, and is similar except as to color, which is two shades darker. It is a valuable acquisition.

Champion of the World—This is the grandest of all new Roses. Plants which have bloomed all summer in the garden may be potted in the autumn and will bloom profusely all winter in any window. Color is deep, rosy pink, darker and richer than Hermosa—a shade of the delicate richness that is seldom seen. Though a perpetual bloomer it is very hardy and robust as an oak, and is the most healthy Rose extant. Price 15c. each, postpaid.

Chlotilde Soupert—Color fine pearly white, shaded with lovely soft pink in the center. It blooms freely when plants are small and continues in the greatest profusion.

Comtesse Duss—Flowers are exceedingly large, full, deep and double; color is a pure satiny white; a strong, vigorous grower and free bloomer.

Duchess de Brabant—Rosy pink, edged with silver; a constant and profuse bloomer.

Golden Gate—A glorious Rose. Full and double, extremely beautiful buds. Color is creamy white, exquisitely tinged with rich golden yellow and clear rose.

Helen Gould—Flowers large and handsome, buds long and finely pointed; color clear rich maroon or deep purplish red; centers sometimes streaked with silvery white.

Hermosa—An excellent rose; blooms in large clusters; large; very double and fragrant; color beautiful clear rose. Hardy. One of the best.

Isabella Sprunt—Bright canary yellow, very handsome grower, and a constant producer.

La France—One of the finest Roses known. Color a beautiful changeable silvery pink; very fragrant.

Mad. de Watteville—(The Tulip Rose)—The color is a remarkable shade of beautiful creamy yellow, richly colored with rosy blush. The flowers are large, very full and highly perfumed. Fine for all purposes. Very profuse bloomer. Price 15c. each, postpaid.

Niphetos—I consider this one of the very best and most satisfactory in the list. The color is a beautiful glistening snowy white; strong, vigorous grower and will produce bloom without end.

Perle des Jardins—The one Tea Rose which you cannot do without. The color is faultless whether the waxy petals show the rich cream tint of cool weather or take richer golden shades which a warmer sun gives them.

Princess de Sagan—This is a rose of great value and beauty; the color is rich velvety crimson, brilliantly beautiful; blooms quickly and abundantly.

Queen's Scarlet—A constant and profuse bloomer; color rich, velvety scarlet, very brilliant and striking; an excellent Rose for bedding or pot culture.

Safrano—It grows vigorously and produces a continuous crop of flowers the year round; quite hardy. The color is a pure apricot yellow, changing to orange and fawn, sometimes tinted with rose.

The Bride—Decidedly the best pure white Tea Rose. The buds are very large and double. Would grace any bride in her wedding robes. Unsurpassed for purity of color.

The Triumphant America Rose Collections

Any One of these Three Marvelous Collections Delivered Free by Mail, for only **25c.**

EXCELLENT SPECIMEN PALMS

BY EXPRESS, BUYER'S EXPENSE,
\$3.00 to \$5.00 each

Latania Bortouca—On account of its strong, healthy habit this Palm is more popular than any other. It is magnificent in appearance and quite beautiful for baskets, jardinieres, etc.

Fine, young plants 20c. each, postpaid.

Kentia Balmoreana—Exceedingly popular parlor Palm. Decidedly rugged under all kinds of treatment.

Fine, young plants 20c. each, postpaid.

Phoenix Canariensis—Beautiful, strong-growing Palm with glossy, dark green foliage. Sure to please and easily grown.

Fine, young plants 20c. each, postpaid.

Kentia Fosteriana—Without exception the most hardy Palm in its class. Quite graceful and scarcely has an equal for table decoration.

Fine, young plants 20c. each, postpaid.

Seaforthia Elegans—A magnificent plant for jardinieres or center of tropical bed. Most graceful. Leaves of rarely beautiful formation.

Fine, young plants 20c. each, postpaid.

Cocos Weddeliana—Most elegant and graceful of all the smaller Palms. Slender, erect stems; abundant, gracefully-arching leaves. Admirable for fern dishes.

Fine, young plants 25c. each, postpaid.

BUCKBEE'S "FULL OF LIFE" DECORATIVE PLANTS

AUROCACIA

INDIA RUBBER TREE. (Ficus Elastica.) The large, shining green leaves bear the dry air of a living room better than almost any other plant. No wonder, then, that everybody likes it. Plants 12 inches high 50c.; Larger Plants \$1.00 to \$2.00 each. Rubber Plants by Express only.

Auracaria Excelsis—Nothing more beautiful in the way of a house plant. Resembles a pine tree in appearance, but is of very fine texture.

Plants 12 inches high, \$1.50; Larger Plants \$2.00 to \$3.00. Sent by express only.

FERNS

Rare and Beautiful

when fully developed, increasing in rare beauty as they grow. It is wonderfully valuable for its beauty and for the ease of culture, hardiness and general adaptability to conditions. I can unhesitatingly recommend the Piersonii Fern to every one of my customers, for I know they will praise it as highly as I do when they have seen it develop in all its wondrous beauty. Let me send you one. I have made the price extremely low and my stock is fine.

Fine, young plants 15c. to 25c. each, postpaid.

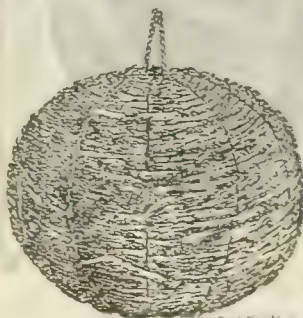

Larger plants, by express, not prepaid, 75c., \$1.00, \$1.50, \$2.00 each.

Nephrolepis Piersonii—(The Ostrich Plume Fern.) To fully appreciate the beauty and value of the Piersonii one must see it growing. The fronds grow broad and heavy and measure at least six inches across

RUBBER PLANT.

Admiral Togo Fern Ball

Fern Roots, about the size of a pencil, woven outside and around a ball of moss. These roots produce beautiful sprays of ferns from eyes, or buds, at nearly every inch of

their length. All you have to do to start them to growing is to soak them well with tepid water for half an hour and hang them up in a warm room. It usually takes about six weeks to start them. They need no earth, dish or pot. Simply soak them and hang them up.

Each 50c.; 12 for \$5.00.

Larger size, 75c. each; 12 for \$7.50. Postpaid.

Maiden Hair Fern

Always in demand for table and house decoration. It thrives nicely in almost every living room or parlor. Exceedingly graceful in appearance, and grows more beautiful year by year. Easily grown and highly satisfactory.

Fine, young plants 15c. to 25c. each. Postpaid.

Larger plants, by express, not prepaid, 50c., 75c. and \$1.00 each.

Boston Fern

A most beautiful fern for growing in pots, vases or baskets. It thrives under ordinary conditions, requiring very little attention. The fronds grow 2 to 3 feet long and arch over in the most graceful manner.

Fine, young plants 15c. to 25c. each. Postpaid.

Larger plants, by express, not prepaid, 50c., 75c., \$1.00, \$1.50 each.

Nephrolepis Whitmanii

One of the finest Ferns yet introduced. It is an improvement over Piersonii, being more compact and graceful.

Fine, young plants, 25c. and 35c. each. Postpaid.

Larger plants, by express, not prepaid, \$1.00, \$1.50, \$2.00 each.

Nephrolepis Scotti

The new dwarf Boston Fern. A compact dwarf form of the famous Boston Fern, very beautiful at every stage of its growth, growing into grand large specimens.

Fine, young plants 20c. and 30c. each. Postpaid.

Larger plants, by express, not prepaid, 75c., \$1.00, \$1.50 each.

Buckbee's Northern Grown Pedigreed

FULL OF LIFE STRAWBERRY PLANTS

EVERY PLANT A PERFECT SPECIMEN

We have a Large Stock of Extra Heavy Rooted Plants of all Varieties Quoted

WHEN I SHIP STRAWBERRY PLANTS—In this locality, Strawberry Plants are ready for shipment the latter part of September and in October. Be sure to state the exact date you want your plants shipped when ordering. Otherwise will use our best judgment. We are also booking orders for next Spring shipment, so if you do not care to start your bed until then order now and we will reserve very choice plants for you.

NOTICE—All varieties marked (S) are Staminate, Perfect Flowering and Bi-Sexual varieties.

All varieties marked (P) are Pistillate and destitute of Stamens.

Therefore, when planting varieties marked (P) it will be necessary to have every third row a Perfect Flowering or (S) variety to properly fertilize the bed; much finer fruit will be obtained by so doing.

For example—If your order calls for 200 Great Ruby (P) you should also have 100 Great Northern (S) to properly fertilize the bed. Plant the first two rows with Great Ruby (P) and the third row with Great Northern (S) and so on; or you can use any other (P) and (S) varieties in the same manner.

CULTURE—Strawberries require very rich soil and good cultivation while growing. When plants are received, dip the roots in water, taking care not to wet the leaves or crown. Set the plants out in rows 2 or 3 feet apart and 15 inches in the row, using care that the crown of plant is set above the earth; press the soil firmly about the roots so as to exclude all air. In December cover the whole bed with straw about one inch deep, and in March uncover crowns of plants.

NEW FRENCH EVERBEARING ST. JOSEPH (S) Medium Early

Fruit of good size, color rich, glossy red; berries are firm, very juicy and of a sweet sparkling flavor. The plant is hardy, an abundant and continuous bearer.

Price, Postpaid by Mail, Dozen 27c.; 100—83c.

By Express at Buyer's Expense, 100—59c.; 1000—\$4.97

THE GREAT RUBY (P) Very Early

Of fine shape, size and color. Wonderfully prolific, Magnificent size, Continuous Bearer, Rich Tempting Flavor.

Price, Postpaid by Mail, Dozen 37c.; 50 Plants 83c.; 100 Plants \$1.42.

By Express at Buyer's Expense, 100—\$1.09; 1000—\$8.24.

THE GREAT NORTHERN (S)

In this best early new Strawberry are combined the best qualities of many leading sorts. It is a strong, rank, healthy grower, with everlasting foliage and perfect blossoms. Very early to ripen, a great yielder. The berries are of uniform large size, of delicious sweet flavor. Its extreme earliness helps to give it its extra sweetness. Color a most beautiful glowing red.

Price, Postpaid by Mail, Dozen 33c.; 100—\$1.19

By Express at Buyer's Expense, 100—98c.; 1000—\$7.84

ROUGH RIDER (S) Main Crop

Enormously productive, hardy and free from disease. Berries very large, roundish but elongated—somewhat flattened and pointed. Color, rich dark red. The firmest and latest Strawberry in existence. Its blossoms are perfect.

Price, Postpaid by Mail, Dozen 27c.; 100—83c.

By Express at Buyer's Expense, 100—59c.; 1000—\$4.97.

BUCKBEE'S PEDIGREED STRAWBERRY PLANTS ARE KNOWN AND GROWN THE WORLD OVER

Buckbee's World's Fair Mixture.

—BUCKBEE'S "FULL OF LIFE"— BEAUTIFUL PANSIES

TESTED AND RELIABLE

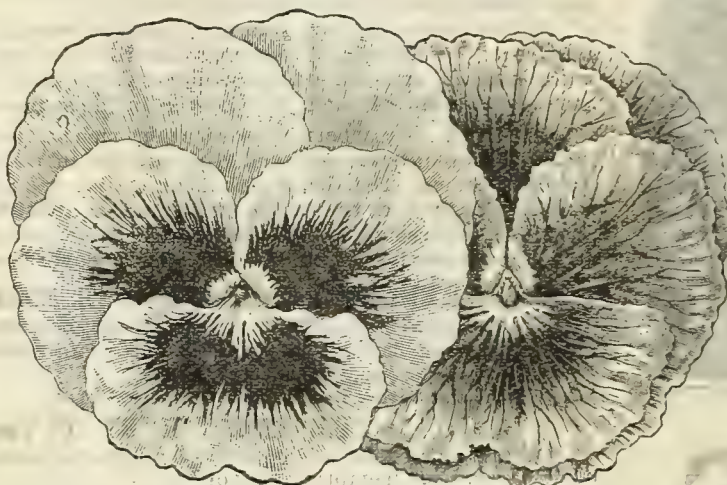

I know that everyone of the great host of Pansy lovers is deeply interested in the development and improvement of this gorgeous flower. After years of study and experiment I have succeeded in perfecting and have produced a strain of Pansies that are far superior to any other ever put on the market. You will observe the difference in the prices of the mixtures offered below which is accounted for by the fact that the finest strains of Pansies as a rule are shy seeders. For Spring flowering the seed should be sown in the Fall and protected during the Winter. Pansies do best in fresh soil enriched by thoroughly decomposed manure.

Buckbee's "Full of Life" Mixed Pansy Seed

I pay particular attention to the blending of the Pansy seed that makes up Buckbee's Famous FULL OF LIFE Mixtures. Nothing is too good to be placed in these mixed packets. Each year finds them gaining in popularity. No (cull) seeds ever go into these mixtures, and I can conscientiously recommend them to my friends knowing full well that every purchaser will be more than satisfied.

Buckbee's Mammoth Sunrise Mixture. This is my finest mixture of Pansies; the flowers are of the largest size, most perfect shape, and comprise a blend of well balanced colorings that would meet the approval of the most critical enthusiast. Liberal Pkt. only 10c.; 3 Pkts. 25c.

Buckbee's Sweet Scented Mixture. This is certainly a most desirable novelty in the Pansy family; the flowers have the delicate perfume of the violet, the Pansy size, and also the rich colorings and markings of the Pansy. Liberal Pkt. 8c.; 3 Pkt. 20c.

Beethoven. and Rainbow.

Buckbee's World's Fair Prize Mixed. This mixture was awarded Grand Prize Medal at the World's Fair. It is an exceedingly fine mixture; producing flowers of rare beauty both in colorings and markings. Liberal Pkt. 8c.; 3 Pkts. 20c.; ½ oz. 60c.; oz. \$1.00.

Buckbee's Everblooming Mixture. This mixture comprises a large number of colorings, and is intended to supply the want of a first class mixture at a moderate price. Pkt. 4c.; 3 Pkts. 10c.; ½ oz. 40c.; oz. 75c.

Giant Trimardeau Mixture. Of very large size and containing a great many fancy colors, of strong robust growth, and well adapted to the trying conditions of our climate. Pkt. 8c.; 3 Pkts. 20c.; ½ oz. 60c.; oz. \$1.00.

Buckbee's "Full of Life" Pansies in Separate Colors

Buckbee's New Giant White. Mammoth flowering variety of pure White color; always comes true and makes a pleasing contrast to the other colors usually sold. Pkt. 10c.

Handel. A very lovely combination of Violet and White. Pkt. 7c.

Beethoven. Creamy White ground, blotched with Black. Pkt. 7c.

Black Knight. Rich velvety shade of Black. Pkt. 5c.

Blue King. Rich Sky-blue, very beautiful. Pkt. 5c.

Cardinal. Nearest approach to a pure Red Pansy. Pkt. 5c.

Emperor William. Brilliant Ultra-marine Blue with three Purple violet blotches. Pkt. 5c.

Faust. (King of the Blacks.) Almost Black. Pkt. 7c.

Golden Crest. Gorgeous and striking Yellow variety. Pkt. 5c.

Lohengrin. A rich Golden Yellow. Price—Pkt. 7c.

Lord Beaconsfield. Deep Purple Violet, shading to White on the upper petals; very effective. Pkt. 7c.

Mahogany Colored. Rich and velvety. Pkt. 7c.

Peacock. A striking variety of large size, with side petals gorgeous as a peacock, while the lower petals are of a deep Claret margined with Terra-cotta Rose. Pkt. 7c.

Rainbow. Beautifully blotched. Startling varieties. Pkt. 5c.

Strauss. Deep velvety Black, of large size and great beauty. Pkt. 7c.

Snow Queen. Very large; grand pure White. Pkt. 5c.

Wagner. Most superb, abounding in the richest colorings. Pkt. 7c.

Weber. Magnificent White variety. Pkt. 7c.

Buckbee's Mammoth Sunrise Mixture.

Our Pansy Seeds are Acknowledged the Best in This Country.

Buckbee's "Full of Life" Flower Seeds

—OF BEAUTIFUL PERENNIAL PLANTS—

PERFECTLY HARDY : EXQUISITE COLORS : FRAGRANT BEAUTY

The more progressive lovers of flowers in the last few years have shown a tendency to go more into the planting of seeds that don't have to be sown every season, but which when once in the ground will come up year after year and give an abundance of beautiful flowers which will bloom from early Spring till late in the Fall. And it is with this end in view that I have compiled the following list of **HARDY PERENNIALS**, assuring those who have hitherto been content with the ordinary run of **ANNUALS** (which only last for one season) that they will be well repaid for the time, labor and the small outlay invested.

The seeds of most Hardy Perennials may be sown at any time from January till October. Early sowing should be made indoors in boxes or they may be sown out of doors in April after the frost has gone and transplanted where intended to flower in early Fall or following Spring. Many varieties succeed best sown in Autumn when they should be sown in cold-frame, transferring them to their permanent places the following Spring. In the Southern states the seed is sown in the open ground and a slight protection is sometimes necessary in very severe weather.

Many of the failures in Flower Culture are due to improper treatment of seeds and young plants. The soil should be well prepared and the surface made as fine and smooth as possible. Do not plant any seeds when the ground is wet but water thoroughly the day before sowing. When sown in shallow boxes in the house see that the drainage is perfect by boring holes in bottom of box and filling same about an inch with broken crocks, coal cinders, or any rough material that will furnish drainage.

ALYSSUM SAXATILE.

HOLLYHOCK

SWEET WILLIAM

Alyssum—Saxatile (Gold Dust). Mass of beautiful bright orange blossoms during Spring and Summer. Per Pkt. 4c.

Arabis Alpina. One of the earliest Spring Plants showing the prettiest of pure White flowers as soon as the snow disappears. Pkt. 7c.

Candytuft—Iberis Sempervirens. A profuse early Spring White blooming hardy perennial; much used for cemeteries, rockeries, etc. Pkt. 4c.

Canterbury Bells. A popular old fashioned garden plant producing handsome bell-shaped flowers in endless variety. Double Mixed Pkt. (100 seeds) 4c; Single Mixed Pkt. 3c.

Carnations. One of the indispensable features both for greenhouse culture in Winter and for the garden in Summer. Extra Choicest Double Mixed Pkt. (100 seeds) 10c.

MARGUERITE—Deservedly the most popular Carnations with the amateur as they begin flowering in a few weeks from time of planting. Pkt. (100 seeds, Finest Mixed) 5c.

Centrosema (Butterfly Pea.) A hardy perennial vine of rare beauty; flowers from a rosy violet to reddish purple; white marking through center. Pkt. 8c.

Christmas Rose. A most valuable hardy plant; often found blooming freely in December regardless of ice and snow. Pkt. 8c.

Chrysanthemum. Hardy perennial varieties. Quite easily raised from seed, and free bloomers. Pkt. 10c.

Columbine—Aquilegia. The beautiful Rocky Mountain Columbine; large flowers, elegant foliage and other good qualities. Pkt. 10c.

Coreopsis. One of the finest hardy plants with large golden yellow flowers; easily grown from seed. Pkt. 8c.

Fox-Glove—Digitalis. Handsome and stately plants; easily grown—will succeed under almost any conditions. Wealth of long beautifully spotted flowers. Pkt. 4c.

Gaillardia. One of the hardiest, showiest and most effective of perennials. Thrives almost anywhere, and takes care of itself; continuous bloomer; fine for cutting. Splendid Mixed Varieties—Pkt. 8c.

Golden Rod. The National flower. Well known golden yellow favorite. Pkt. 4c.

Ribiscus (Marshmallow.) Extremely showy and ornamental having large-sized beautifully colored flowers. Pkt. 4c.

Hollyhocks. The indispensable well known flower. Very imposing and majestic in growth; for forming background it has no equal. Double White; Double Lemon; Double Black; Double Magenta; Double Pink; each Pkt. 8c. Double Mixed—Very choice, embracing over twenty different varieties—Pkt. (50 seeds) 5c.

Larkspur—Delphinium. Beautiful, showy, stately growing hardy perennials, bearing splendid spikes of flowers in great profusion. Finest and Choicest Mixed—Pkt. 4c.

Paeony. Well known plants which should be in every garden. Choicest Selected Seed—Pkt. 4c.

Platycodon (Chinese Bell Flower.) One of the best hardy perennials. Easily grown from seed. Mixed Colors—Pkt. 8c.

Poppy—The large hardy Oriental Poppy. Charming, Spring flowering, hardy plant. Mixed—Pkt. 10c.

Snaptagon (Antirrhinum.) One of the most valuable flowers for cutting or show in the garden. Best Dwarf Mixed, Pkt. 8c; Giant Tall Mixed, Pkt. 8c.

Sweet Rocket. Old-fashioned garden plant bearing its blossoms in clusters. Mixed—Pkt. (150 seeds) 4c.

Sweet William. Single Mixed Finest Varieties—Pkt. 4c; Double Mixed Choicest Varieties—Pkt. 4c.

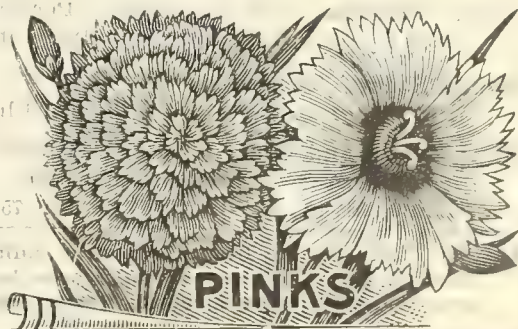

Wallflower. Early blooming perennial. Mixed, All Colors—Pkt. 4c; Double Finest Mixed—Pkt. 8c.

Pentstemon. Highly useful and attractive including a wide range of brilliant dazzling flowers of all colors. Pkt. 4c.

Phlox. Hardy herbaceous perennial. Seed saved from the choicest specimens. All Colors Mixed—Pkt. 8c.

Pinks—Dianthus. Hardy garden variety. Admirably adapted for beds and borders; delightful, refreshing, spicy odor. Should be in every garden. Rockford Favorite Mixed—Pkt. 5c.

Plumarius—Pheasant-eye Pink. A beautiful single hardy Pink, fancy fringed flowers with a dark center. Pkt. 4c.

PINKS

CHRISTMAS ROSE

BUCKBEE'S "FULL OF LIFE" ANNUAL FLOWER SEEDS for FALL SOWING

Buckbee's Famous Pedigreed Sweet Peas

Wondrously Beautiful
Ecstatically Fragrant
Prodigally Productive

Unrivalled Mixtures
Fine Novelties
New Named Varieties

Quite a number of Sweet Pea enthusiasts have sown these in the Fall in some of the Northern States with varied success, but it is quite a custom in the South to plant Sweet Peas in October, giving the plants slight protection during Winter. I take an especial pride in my Sweet Pea Stock and the results I have obtained have been astounding. I lead the world in Sweet Peas, and were you to pay three times what we ask the quality could not be improved.

Ruby Mixture. I challenge any seed-grower in the world to place on the market a Sweet Pea Mixture that will equal my pedigreed Ruby Mixture.
Liberal pkt. 10c., oz. 20c., $\frac{1}{4}$ lb. 50c.

SWEET PEAS

Columbia. The best novelty color. White ground, suffused purple, pencilled pink.
Pkt. 4c., oz. 7c., $\frac{1}{4}$ lb. 18c., 1 lb. 60c.

Extra Early Blanche Ferry. The best true pink produced to date.
Pkt. 3c., oz. 6c., 2 oz. 10c., $\frac{1}{4}$ lb. 15c., 1 lb. 45c.

Mont Blanc. The very best white. New.
Liberal pkt. 5c., oz. 10c., 2 oz. 15c., $\frac{1}{4}$ lb. 25c., $\frac{1}{2}$ lb. 40c., 1 lb. 75c.

Navy Blue. The best true blue.
Pkt. 4c., oz. 7c., 2 oz. 12c., $\frac{1}{4}$ lb. 18c., 1 lb. 60c.

Othello. Nearly black. The best dark Sweet Pea grown.
Pkt. 4c., oz. 7c., 2 oz. 12c., $\frac{1}{4}$ lb. 18c., 1 lb. 60c.

Queen Victoria. The best yellow. Perfect.
Pkt. 4c., oz. 7c., 2 oz. 12c., $\frac{1}{4}$ lb. 18c., 1 lb. 60c.

Rough Rider. The best scarlet. Rich.
Pkt. 4c., oz. 7c., 2 oz. 12c., $\frac{1}{4}$ lb. 18c., 1 lb. 60c.

Red, White and Blue. Special Mixture. The most superior mixture ever offered to the public.
Large pkt. 4c., oz. 8c., $\frac{1}{4}$ lb. 20c., 1 lb. 75c.

Listen. Miss Miriam Drehl, Leesburg, Indiana, writes us on April 21, 1908. "My Father and I have had large dealings with you, and I have found no flower seeds like Buckbees."

Abronia—Often called "Pheasant's Eye." A handsome graceful plant with beautiful feathery foliage. Pkt. 3c.

Ageratum. A profuse and constant bloomer with tassel-shaped flowers that are decidedly novel and highly attractive. Pkt. 3c.

Agrostemma—Often called "Crown of the Field," "Rose of Heaven," "Flos Jovis." Very useful for cutting for bouquets and pretty in beds and borders. Pkt. 3c.

Alyssum. One of the earliest flowers to bloom in the Spring. Forms clusters of small white flowers and spreads itself from 12 to twenty inches in diameter. Pkt. 3c.

Amaranthus—"Joseph's Coat." Beautiful foliage plants of striking colors. Pkt. 4c.

Aster—Buckbee's Superb Mixed. The choicest, most superb and most widely varied strains of Asters ever offered. Pkt. 5c., $\frac{1}{4}$ oz. 20c., oz. 60c.

Aster—Buckbee's Fine Mixed. This is a splendid collection of the leading types of this beautiful flower. Pkt. 3c., $\frac{1}{4}$ oz. 17c., oz. 55c.

Aster—New Giant American Mixed. Different in many respects from all other Asters. Decidedly beautiful for cut flowers. Very double and large. Pkt. 10c.

Aster—Semple's Mixed. This magnificent Aster may be briefly described as being quite different in several respects from any Aster known. The branching habit is accompanied with great vigor of growth and profusion of bloom. Flowers very large, very double, and colors are clear and handsome. Pkt. 8c.; $\frac{1}{8}$ oz. 22c.

Aster—Buckbee's Improved Victoria. Magnificent class. Flowers massive and showy, and undoubtedly the most handsome Aster in cultivation. Choicest mixed—Pkt. 8c., $\frac{1}{8}$ oz. 30c., $\frac{1}{4}$ oz. 50c.

Aster—New Giant Comet. One of the handsomest of the tall growing sorts. The flowers with their long twisted petals strikingly resemble Japanese Chrysanthemums. Price—Choicest Mixed—Pkt. 8c., $\frac{1}{8}$ oz. 30c., $\frac{1}{4}$ oz. 50c.

Calliopsis. This is one of our brightest, cheeriest Annuals and is easy to grow as a weed. Pkt. (200 seeds) 3c.

Candytuft. One of the best known Hardy Annuals; flowers in endless profusion. Pkt. (100 seeds) 4c.

Cosmos. Beautiful plants, producing thousands of charming flowers in white, pink and crimson shades. Pkt. (100 seeds) 5c.

Giant California Poppy—Eschscholtzia. One of the most hardy and easily grown of Annuals. Pkt (150 seeds) 4c.

Godetia. Beautiful Hardy Annuals, remarkable for delicacy of the fine large blossoms. Choicest Mixed—Pkt. (200 seeds) 3c.

Mignonette—Buckbee's Finest Rockford Mixed. This is the finest Mignonette Mixture ever blended by an expert florist. It possesses a world of beauty and indescribable sweetness. Pkt. (600 seeds) 10c., oz. 50c.

Phlox—Buckbee's Mammoth Prize Mixed. Flowers of great substance, beautiful form and uncommon size; grandest of all Phlox. Finest Mixed—Pkt. 5c., $\frac{1}{4}$ oz. 25c., oz. 75c.

Poppies. I have the finest strain of this charming flower, and it may safely be said that no other flower produces a more brilliant display of colors. Grandest Mixed—Pkt. 4c., $\frac{1}{4}$ oz. 30c., oz. 50c.

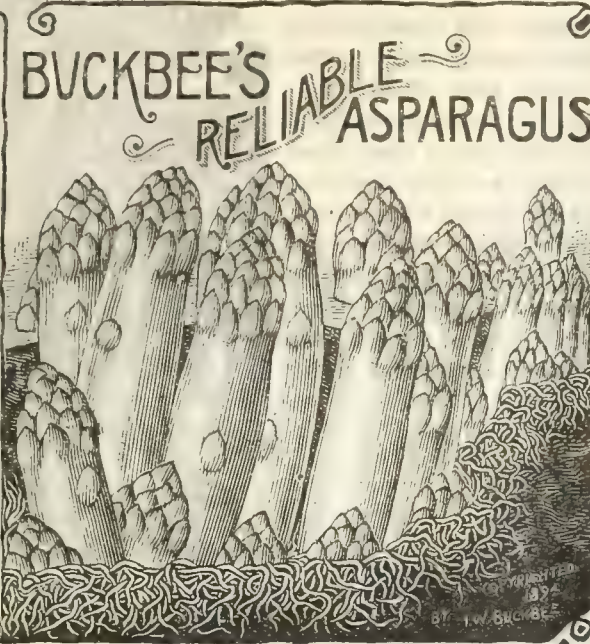

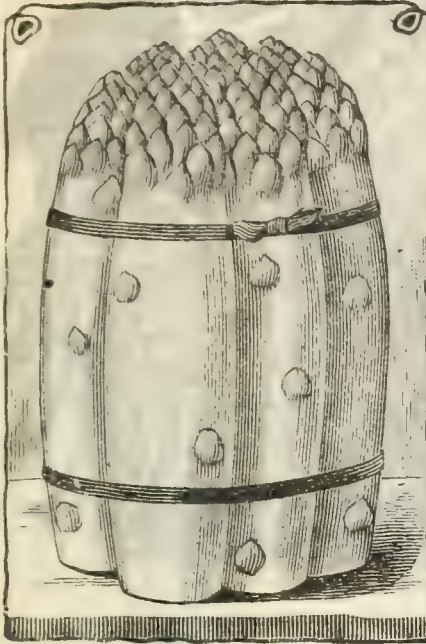

Scabiosa, or Mourning Bride. The stock we offer is a wonderful improvement over the old and common strains. Double Dwarf Mixed—Pkt. (75 seeds) 4c. Double Tall Mixed—Pkt. (75 seeds) 4c.

Stocks, or Cut and Come Again. These magnificent large double flowers are produced in great profusion, and are greatly prized for cut flowers on account of their fragrance and diversity of colors. Choicest Mixed—Pkt. (50 seeds) 5c.

Salvia, or Scarlet Sage. One of the grandest plants in cultivation. Easily grown and a constant delight to everyone. Pkt. (25 seeds) 5c.

BUCKBEE'S "FULL OF LIFE"

Vegetable Seeds for Fall Planting

THE American people in general and our Southern Gardeners, and Truckers in particular, should unquestionably pay more attention to the fall planting of vegetable crops. A great many vegetables can be planted and grown during the fall to advantage and profit. The late fall and early winter planting of Cabbage, Lettuce, Kale and Spinach is proving particularly desirable and profitable.

The List of Vegetable Seeds which we offer embraces the very best varieties in cultivation. We do not attempt to multiply the number of varieties, but simply to select the very best, and such as are particularly adapted to the different soils and climates. In selecting and growing our seeds, our constant aim is to supply the very best seeds that can be grown, at as reasonable prices as first-class seeds can be sold.

ASPARAGUS

MONEY IN IT, if you grow the Seeds and Roots produced on BUCKBEE'S Famous Rockford Seed Farms

Asparagus is the most delicious, healthful and desirable of the earliest spring vegetables, and would be grown in every garden, were it not for the mistaken idea that it is difficult to grow. The truth of the matter is that it can be grown very easily and cheaply, even by inexperienced people.

THE VARIETIES OFFERED BELOW ARE SUPREME IN THEIR POSSESSION OF THE ASPARAGUS WORLD ONE AND ALL WILL PLEASE

- Buckbee's Perfection**—Most valuable new variety ever offered to the public. Deliciously tender, extra large, early, uniform, prolific, crisp, white. Postpaid Pkt. 5c.; oz. 10c.; 2 oz. 16c.; $\frac{1}{4}$ lb. 30c.; $\frac{1}{2}$ lb. 55c.; lb. \$1.00.
- New Palmetto**—This New Asparagus, from South Carolina, is now quite extensively grown by Southern gardeners for New York and Philadelphia markets, where it sells at very high prices, owing to its mammoth size and regularity. Although of Southern origin, it is equally well adapted to North or South. Postpaid Pkt. 4c.; oz. 6c.; 2 oz. 10c.; $\frac{1}{4}$ lb. 14c.; $\frac{1}{2}$ lb. 26c.; lb. 45c.
- Donald's Elmira**—This new variety, called by some Vick's Mammoth, is attracting a great deal of attention throughout the country, originating with Mr. Donald, a leading market gardener of Elmira, N. Y. The stalks are exceptionally tender and succulent. Postpaid Pkt. 4c.; oz. 7c.; 2 oz. 12c.; $\frac{1}{4}$ lb. 18c.; $\frac{1}{2}$ lb. 34c.; lb. 60c.
- Columbian Mammoth White**—The most distinct and valuable Asparagus. The crown or bud of the young stalk is considerably smaller, further distinguishing the variety. Postpaid Pkt. 4c.; oz. 7c.; 2 oz. 12c.; $\frac{1}{4}$ lb. 18c.; $\frac{1}{2}$ lb. 34c.; lb. 60c.
- Barr's Mammoth**—This fine variety has brought in market thirty cents a bunch, when other Asparagus was selling for ten and fifteen cents. Postpaid Pkt. 3c.; oz. 5c.; 2 oz. 8c.; $\frac{1}{4}$ lb. 12c.; $\frac{1}{2}$ lb. 22c.; lb. 35c.
- Conover's Colossal**—A standard variety of large size and delicious quality. Certainly one of the best varieties grown. Postpaid Pkt. 2c.; oz. 5c.; 2 oz. 8c.; $\frac{1}{4}$ lb. 12c.; $\frac{1}{2}$ lb. 22c.; lb. 35c.

ASPARAGUS ROOTS

From the vast amount of correspondence we receive every year asking for information on "Asparagus Culture," it is quite evident a large proportion of would be customers are of the opinion that spring should be the proper season for setting out Asparagus Roots; but for the benefit of all interested, wish to correct this impression by stating, as a matter of fact, that October and November are two of the best months in the whole year for doing this work, and our records show that we send out more Asparagus Roots in these two months than we do during the entire spring.

EXTRA LARGE ROOTS

On many occasions we have received requests from our customers to furnish extra large sized Asparagus Roots. To meet this demand we have especially grown a few acres of these roots, which are particularly adapted for the home garden or those gardeners who desire immediate results. Our prices to one and all as long as our extra large sized 3 and 4-year-old roots last will be as follows: **Any of the 6 varieties listed on this page only \$1.50 per 100; \$12.50 per 1000; shipped by express or freight at buyer's expense.**

If for any reason roots are desired by mail, postage must be added at the rate of \$1.00 per 100 to prices quoted above.

A saving of two to three years is effected by planting roots. Those offered below are **Select, Strong, Two-Year-Old Roots**, and I am confident they will please you in every way. **Don't be misled in planting one-year-old or inferior Roots.** The following low prices are for Roots carefully packed and shipped by **express or freight at purchaser's expense**, with the exception of price per dozen, which is postpaid. (If for any reason roots are desired by mail, postage must be added at the rate of fifty cents per hundred to the following prices):

- Buckbee's Perfection**—Doz. 80c.; per 100, \$1.00; per 1000, \$7.50
Columbian Mammoth White—Doz. 20c.; per 100, 60c.; 1000, \$5.00
Donald's Elmira—Doz. 20c.; per 100, 60c.; per 1000, \$5.00
New Palmetto—Doz. 15c.; per 100, 50c.; per 1000, \$4.00
Conover's Colossal—Doz. 15c.; per 100, 50c.; per 1000, \$3.75
Barr's Mammoth—Doz. 15c.; per 100, 50c.; per 1000, \$4.00

FREE

With every order for Asparagus Roots, I send **SPECIAL CONFIDENTIAL DIRECTIONS**, if requested to do so, that will insure success to the most inexperienced. These Special Directions are the results of years of practical experience. They never fail if followed.

BUCKBEE'S "Full of Life" BEANS

All the Best Varieties for Fall Planting

Snap Beans are planted all through the summer for a succession, both for private garden and market. The large truckers throughout the South also plant very largely during August and September to come in just before cold weather. Planted at this time they frequently make a very profitable crop, as they can be shipped to Northern markets at a time when vegetables of this sort usually sell at very good prices. The varieties we offer have all been grown on our seed farms under our own personal supervision and inspection, have been thoroughly "rogued," are entirely free from Bean "Weevil" or "Bugs," are choice hand picked and right in every respect and "FULL OF LIFE."

Buckbee's New Stringless Green Pod.

Buckbee's Rust Proof Golden Wax.

Warranty

It has oftentimes been said that, "besides good seeds, good gardeners are necessary in producing a satisfactory crop." We all know how true this is. Seeds of the best quality sometimes fail through improper treatment by sowing the seed too deep or too shallow, in too wet or too dry soil. Some will germinate rapidly at a certain temperature, while others, if sown under the same conditions, are apt to decay. The young plants are liable to various accidents, cold or dry air may check their growth or destroy them. Insects above and below the ground may attack them and a great many other contingencies may arise to prevent the best seeds from giving satisfaction, and for all these reasons we cannot, of course, guarantee or be responsible for a crop, as success is dependent upon natural causes, which are beyond human control. Therefore we do not warrant in any way, express, or implied, the contents, or the description, quality, productiveness, or any other matter of any seeds, bulbs, or plants sold by us, and we will not be in any way responsible for the crop. If the purchaser does not accept these goods on above terms, no sale is made thereof, and he must return them at once, and money will be refunded. Subject to above conditions we make this sale, at the moderate prices at which we sell our goods.

BEANS—Dwarf or Bush Green Podded.

BUCKBEE'S "FULL OF LIFE" BEETS

THE VARIETIES THAT ARE THE MONEY MAKERS YEAR AFTER YEAR

The soil best adapted to Beets is a deep, light, rich sandy loam. For very early crops sow in hot beds and transplant, cutting off the outer leaves. It is best to sow in specially prepared soil which should be pressed firmly over the seed.

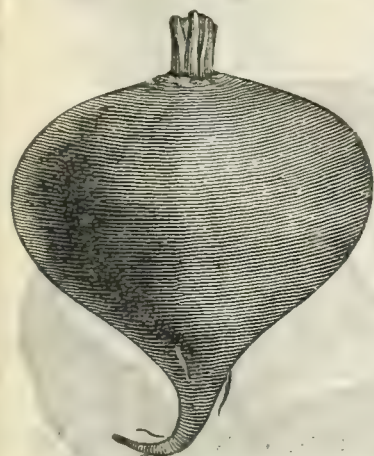

Buckbee's Extra Early Egyptian Blood Turnip. The best variety for forcing and excellent for first early crop out of doors. Leaf, stems, and veins dark red. Leaf dark green, dotted with red. Roots very dark red; rounded on top but flat beneath with very small tap roots. Flesh dark red, zoned with lighter shades; hard, crisp, and tender at all times. Prices, postpaid—Pkt. 4c., oz. 7c., 2 oz. 12c., $\frac{1}{4}$ lb. 18c., $\frac{1}{2}$ lb. 30c., lb. 50c.

Buckbee's Sunset. This grand novelty awarded prize medal. The Director of the Maine Experimental College at Orno, writes: "I consider Buckbee's Sunset the most promising new variety." Extended experience has shown this variety of my own introduction to be one of the very best sorts; not only for market gardeners but for the home garden. Tops small, upright growing, so that the rows may be close together; leaf, stems, and veins dark red; blade green; the stock which I offer will produce a crop more uniform in shape, color and quality than any other. Prices, postpaid—Pkt. 5c., oz. 8c., 2 oz. 15c., $\frac{1}{4}$ lb. 25c., $\frac{1}{2}$ lb. 40c., lb. 75c.

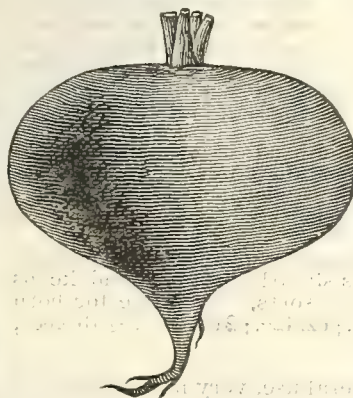

BUCKBEE'S SUNSET.

The Bismarck. Combines more good qualities than any other variety (Buckbee's Sunset excepted). Rich, red flesh, tender and early. Is rich, sugary and entirely free from fiber. Prices, postpaid—

NEW EARLY ECLIPSE.

Pkt. 4c., oz. 7c., 2 oz. 12c., $\frac{1}{4}$ lb. 20c., $\frac{1}{2}$ lb. 35c., lb. 60c.

THE BISMARCK.

Crosby's Egyptian. The earliest Beet in the market, and one of the best for early planting out of doors. A rapid grower; sweet, tender and smooth. Prices, postpaid—Pkt. 4c., oz. 7c., 2 oz. 12c., $\frac{1}{4}$ lb. 18c., $\frac{1}{2}$ lb. 30c., lb. 50c.

Buckbee's Improved Long Dark Smooth Blood. Tops large, neck small. Leaf stems and veins red; leaf green; roots large. Dark red flesh; tender and sweet, and remaining so even when kept till Spring. Prices, postpaid—Pkt. 3c., oz. 6c., 2 oz. 10c., $\frac{1}{4}$ lb. 15c., $\frac{1}{2}$ lb. 25c., lb. 40c.

New Early Eclipse. Top small, dark purplish-green. Flesh dark red, zoned with lighter red; sweet, crisp and tender. Prices, postpaid—Pkt. 3c., oz. 6c., 2 oz. 10c., $\frac{1}{4}$ lb. 15c., $\frac{1}{2}$ lb. 25c., lb. 40c.

COLLARDS—True Georgia or Southern

True Georgia or Southern. This is peculiarly a Southern vegetable and is highly prized as greens throughout the entire South. It is a sure crop, yields well, and aside from its value as a salad makes excellent stock feed. Collards may be sown both early and late, transplanting when a few weeks old to a foot apart in the row, and give frequent cultivation. For a late crop sow in July and August. One ounce will produce 3,000 plants. Prices, postpaid—Pkt. 3c., oz. 8c., 2 oz. 15c., $\frac{1}{4}$ lb. 25c., $\frac{1}{2}$ lb. 40c., lb. 75c.

COLLARDS.

ENDIVE—WINTER LETTUCE.

BUCKBEE'S "Full of Life" ENDIVE OR WINTER LETTUCE

ENDIVE may be grown at any season of the year, and makes a most excellent salad or garnishing for use during the late Summer and Fall; sow in July and August in drills 18 inches apart, and when large enough thin out to one foot apart. When nearly grown tie up the outer leaves to blanch the heart. In dry seasons give plenty of water.

Large Green Curled. Is the hardiest variety; very fine, dark green leaves which blanch to a beautiful white; tender and crisp. Prices, postpaid—Pkt. 3c., oz. 8c., 2 oz. 15c., $\frac{1}{4}$ lb. 28c., $\frac{1}{2}$ lb. 50c., lb. 90c.

New Moss Curled. One of the best Autumn, Winter and Spring salads. Forms large, dense clusters of fine divided green leaves, which when properly blanched are exceedingly crisp and tender. Prices, postpaid—Pkt. 3c., oz. 8c., 2 oz. 15c., $\frac{1}{4}$ lb. 28c., $\frac{1}{2}$ lb. 50c., lb. 90c.

Buckbee's "Full of Life" CABBAGE

FOR FALL PLANTING

Buckbee's New Race Horse.

All Head Early. A little earlier than Henderson's Early Summer but about one-third larger and more compact. One of the best second earlies for both market and home use. Prices postpaid—Pkt. 4c.; oz. 12c.; 2 oz. 23c.; $\frac{1}{4}$ lb. 45c.; $\frac{1}{2}$ lb. 85c.; 1 lb. \$1.60.

True Early Jersey Wakefield. Forms fine solid heads of good size, conical in shape with very few outer leaves and of splendid quality. Our strain is remarkably pure and always gives satisfaction. Prices postpaid—Pkt. 5c.; oz. 18c.; 2 oz. 35c.; $\frac{1}{4}$ lb. 60c.; $\frac{1}{2}$ lb. \$1.10; 1 lb. \$2.00.

Henderson's Early Summer. An early large heading variety and deservedly popular with the market gardeners. Heads slightly flattened and keeps longer without bursting than most of the early sorts. Valuable for both family and market. Prices postpaid—Pkt. 3c.; oz. 12c.; 2 oz. 23c.; $\frac{1}{4}$ lb. 40c.; $\frac{1}{2}$ lb. 75c.; 1 lb. \$1.40.

Early Winningstadt. One of the best for general use, very hardy and sure header. It seems to suffer less from the Cabbage-worms than any other sort and withstands wet and drought to a remarkable degree. Prices postpaid—Pkt. 3c.; oz. 12c.; 2 oz. 23c.; $\frac{1}{4}$ lb. 45c.; $\frac{1}{2}$ lb. 85c.; 1 lb. \$1.60.

All Seasons. A splendid second early variety and as its name implies is equally good for Fall and winter as well as for Summer use. Heads solid and of best quality. Noted for its ability to stand hot and dry weather. Prices postpaid—Pkt. 3c.; oz. 12c.; 2 oz. 23c.; $\frac{1}{4}$ lb. 40c.; $\frac{1}{2}$ lb. 75c.; 1 lb. \$1.40.

Buckbee's Rockford Market. The best second early ever introduced. It heads firmly at an early stage in its growth so that the finest Cabbage though small can be obtained long before it has obtained its natural size. Its uniformity in shape and large yield per acre renders it particularly valuable to market gardeners and truckers while its compact form and excellent quality place it at the top of the best second early varieties. Prices postpaid—Pkt. 5c.; oz. 20c.; 2 oz. 35c.; $\frac{1}{4}$ lb. 65c.; $\frac{1}{2}$ lb. \$1.25; 1 lb. \$2.00.

This has been one of my leading SPECIALTIES for many years and all my Cabbage Seeds are grown from choicest selected stocks under my own personal supervision and inspection. My stocks have reached such a high point of merit that it is a household word everywhere that "Buckbee's Cabbage Seed" is the most reliable and produces more good, marketable heads per acre than any offered, and from the number of unsolicited testimonials I am constantly receiving gives me every reason to believe that the time I personally spend in my Cabbage fields is truly appreciated by many thousands of my customers.

For Fall and early Spring planting in the Southern States Cabbage can be sown from the middle of September (but not before) to the first of January. November and December sowings should be made in cold-frames or hot-beds to give slight protection during the Winter. Cabbage requires good rich soil heavily manured and must have frequent and deep cultivation.

Buckbee's New Race Horse. The earliest and hardest heading Cabbage in cultivation. Ready to use in sixty days from time of planting. Thousands of our customers—principally gardeners—depend absolutely upon this grand acquisition for their entire extra early crops. Heads are of good size weighing from eight to thirteen pounds; have but few outside leaves and therefore may be planted very close together. Prices postpaid—Pkt. 5c.; oz. 20c.; 2 oz. 35c.; $\frac{1}{4}$ lb. 65c.; $\frac{1}{2}$ lb. \$1.25; 1 lb. \$2.00.

Buckbee's Extra Early Large New Queen. Our sales records for 1905 have again unquestionably demonstrated the popularity and superiority of this—the finest, earliest, largest flat headed Cabbage ever grown. Unexcelled in flavor, unequalled in quality. Wonderfully compact with few outer leaves so that a great number of fine SOLID Heads can be produced on an acre. Is by far the best early variety for markets that demand a large, solid flat Cabbage. Prices postpaid—Pkt. 10c.; oz. 30c.; 2 oz. 50c.; $\frac{1}{4}$ lb. 90c.; $\frac{1}{2}$ lb. \$1.60; 1 lb. \$3.00.

Buckbee's Extra Early New Queen Cabbage.

Solid South. A magnificent Cabbage similar to Early Summer but is earlier, larger, and more uniform; has fewer outside leaves and is less liable to run to seed when sown in the Fall. Prices postpaid—Pkt. 3c.; oz. 12c.; 2 oz. 20c.; $\frac{1}{4}$ lb. 35c.; $\frac{1}{2}$ lb. 65c.; 1 lb. \$1.25.

READ THESE FEW WORDS ABOUT RELIABLE SEEDS

From good seeds only can good crops be grown; nothing should induce you to risk planting so-called "Cheap Seeds." We always aim to give value received in Fresh, High-Grade, Tested, Reliable, Full of Life Seeds.

It has oftentimes been said that, "besides good seeds, good gardeners are necessary in producing a satisfactory crop." We all know how true this is. Seeds of the best quality sometimes fail through improper treatment by sowing the seed too deep or too shallow, in too wet or too dry soil. Some will germinate rapidly at a certain temperature, while others, if sown under the same conditions, are apt to decay. The young plants are liable to various accidents, cold or dry air may check their growth or destroy them. Insects above and below the ground may attack them and a great many other contingencies may arise to prevent the best seeds from giving satisfaction, and for all these reasons we cannot, of course, guarantee or be responsible for a crop, as success is dependent upon natural causes, which are beyond human control. Therefore we do not warrant in any way, express, or implied, the contents, or the description, quality, productiveness, or any other matter of any seeds, bulbs, or plants sold by us, and we will not be in any way responsible for the crop. If the purchaser does not accept these goods on above terms, no sale is made thereof, and he must return them at once, and money will be refunded. Subject to above conditions we make this sale, at the moderate prices at which we sell our goods.

Buckbee's Rockford Market.

Buckbee's "Full of Life" Cauliflower

The Cauliflower although one of the most delicious vegetables is but little grown except by professional gardeners because of the erroneous notion it is so difficult to grow that only skilled gardeners can produce it. Anyone will be reasonably successful with this most desirable vegetable if he will observe the cultural directions given on every package I send out. Cauliflowers always sell at very high prices, and to the successful grower there is a very large margin of profit. In many sections of the South this crop has been grown very successfully and profitably. If set out in August so as to grow and head up during the cool weather good results can be obtained, or Fall seeding in September or October, except in very severe winters, should turn out satisfactory.

Buckbee's New Extra Early Chief Cauliflower

Buckbee's Extra Early Chief. Stands unquestionably at the head of the list as the best variety for either market or family purposes, and by far the earliest, surest header and the most profitable grown. The plants are compact with few narrow upright leaves and are well suited for close planting. The heads are pure snow-white, very close, extremely solid, and deep, and of the most superior quality. Prices postpaid, Pkt. 15c.; $\frac{1}{4}$ oz. 80c.; 1 oz. \$3.00; 2 oz. \$5.50; $\frac{1}{4}$ lb \$10.00.

Henderson's Early Snowball. Certainly a splendid standard variety and great favorite throughout the country. Admirably adapted for forcing or wintering over for early crop, and the most popular for these purposes. Prices postpaid, Pkt. 10c.; $\frac{1}{2}$ oz. \$1.25; 1 oz. \$2.00; 2 oz. \$3.80; $\frac{1}{4}$ lb. \$7.50.

Buckbee's Early Favorite. Very early, exceedingly hardy, easily grown, and will stand heat and drought exceptionally well. Probably the best variety for the inexperienced grower as it will head under conditions in which some sorts would fail. Prices postpaid, Pkt. 5c.; $\frac{1}{2}$ oz. 40c.; 1 oz. 70c.; 2 oz. \$1.30; $\frac{1}{4}$ lb. \$2.50.

Buckbee's "Full of Life" Kale

Commonly Known as Borecole or German Greens

In the North the seed may be sown in September and treated like Spinach or they may be treated like late Cabbage and will continue growing until very late in the season, and in the South seed can be planted from the middle of August till late in October, and they will live or grow throughout the Winter without protection.

Turnip-Rooted Kale. A thoroughly distinct new Winter variety which will be hailed as a most desirable acquisition to our Winter and Spring vegetables. In addition to its value for salad the roots are most desirable as a table vegetable for use during the Winter and early Spring. The root is carrot-shaped and when cooked is superior in flavor to either Turnips or Rutabagas; withstands any amount of cold without protection and will yield a fine crop of salad fully as early as either Turnips or Kale. In the South plant from the middle of August to middle of September in well prepared land and treat as you would Turnips. Prices postpaid, Pkt. 7c.; 1 oz. 18c.; 2 oz. 30c.; $\frac{1}{4}$ lb. 45c.; $\frac{1}{2}$ lb. 80c.; 1 lb. \$1.50

Dwarf Green Curled Scotch, or German Greens. One of the most popular shipping sorts and largely used in the great trucking districts of the South. This plant is low and compact with large bright dark green leaves curled, cut and crimped so that the whole plant resembles a bunch of moss. Prices postpaid, Pkt. 3c.; 1 oz. 6c.; 2 oz. 10c.; $\frac{1}{4}$ lb. 18c.; $\frac{1}{2}$ lb. 30c.; 1 lb. 55c.

Tall Green Curled Scotch. Very hardy and not injured by moderate frost. About thirty inches tall with an abundance of densely curled dark green leaves. It stands the winters in the Middle and Southern states without any protection. Prices postpaid, Pkt. 3c.; 1 oz. 6c.; 2 oz. 10c.; $\frac{1}{4}$ lb. 18c.; $\frac{1}{2}$ lb. 35c.; 1 lb. 60c.

Siberian. The old standard Winter variety. The plant is low and spreading and very hardy, with leaves of bright green color and beautifully curled and delicate in flavor. Prices postpaid, Pkt. 3c.; 1 oz. 6c.; 2 oz. 10c.; $\frac{1}{4}$ lb. 18c.; $\frac{1}{2}$ lb. 30c.; 1 lb. 55c.

Dwarf Green Curled Scotch, or German Greens

BUCKBEE'S "Full of Life" LETTUCE

FOR FALL SOWING

Lettuce can be sown during any of the fall months, commencing with August, and is really one of the best and most satisfactory fall and winter crops that can be grown. Lettuce in the South will head up out-of-doors for shipment during the late fall and early winter, and has hitherto paid large profits to growers who have been giving it attention. It can also be very profitably grown in coldframes and hotbeds for shipment during the winter. Truckers, gardeners and private growers should pay much more attention to this crop. The kinds most largely grown are our improved strains of the Big Boston and Buckbee's Earliest Forcing, both splendid Lettuces, the growing of which has brought truckers very large profits in recent years.

BUCKBEE'S IMPROVED BIG BOSTON

BUCKBEE'S IMPROVED BIG BOSTON. As a Lettuce for growing in hotbeds or coldframes for market or shipping this has unquestionably taken front rank as a winter and early spring variety. It is by far the most popular sort in the South where it is grown very extensively and in some sections almost exclusively as a Winter Lettuce. Plants large, very hardy and vigorous and when well grown are quite tender. Prices, postpaid—Pkt. 3c., oz. 8c., 2 oz. 15c., $\frac{1}{4}$ lb. 39c., $\frac{1}{2}$ lb. 75c., lb. \$1.30.

Improved Hanson—A great heat-resisting sort. Deliciously sweet, crisp and tender. Pkt. 4c., oz. 8c., 2 oz. 15c., $\frac{1}{4}$ lb. 25c., $\frac{1}{2}$ lb. 40c., lb. 75c.

California Cream Butter. Largely grown by shippers to Northern markets. Of distinct shape, heading up like a cabbage, and almost as solid. Color light green, almost white; the flavor rich, buttery and very tender. Pkt. 4c., oz. 8c., 2 oz. 15c., $\frac{1}{4}$ lb. 38c., $\frac{1}{2}$ lb. 74c., lb. \$1.20.

Deacon. A fine forcing Lettuce. Makes large, dense heads, with thick leaves of superior flavor. It forms a solid heart, blanching to a rich yellow color; crisp and tender. Pkt. 4c., oz. 8c., 2 oz. 15c., $\frac{1}{4}$ lb. 38c., $\frac{1}{2}$ lb. 74c., lb. \$1.20.

Buckbee's Superb. A splendid early Lettuce, forming fine, hard heads of the best quality. One of the earliest heading sorts, and very popular, both for home use and market. Pkt. 5c., oz. 10c., 2 oz. 16c., $\frac{1}{4}$ lb. 30c., $\frac{1}{2}$ lb. 55c., lb. \$1.00.

Black-Seeded Tennisball. An excellent forcing Lettuce. Forms close, hard heads; tender, crisp, and a fine table variety. Pkt. 3c., oz. 7c., 2 oz. 12c., $\frac{1}{4}$ lb. 35c., $\frac{1}{2}$ lb. 74c., lb. \$1.20.

BUCKBEE'S EARLIEST FORCING. For greenhouse forcing this variety undoubtedly stands at the head of the list, being of quick growth and exceedingly tender. It is very attractive, of excellent quality, little liable to rot and retains its freshness a long time after being cut. It will stand shipping long distances, and for these reasons is in constant demand both by dealers and shippers. Prices, postpaid—Pkt. 5c., oz. 10c., 2 oz. 16c., $\frac{1}{4}$ lb. 30c., $\frac{1}{2}$ lb. 55c., lb. \$1.00.

Buckbee's Ice Drumhead. Grows rapidly. Extremely early with heads nearly as solid as cabbage. Pkt. 5c., oz. 10c., 2 oz. 16c., $\frac{1}{4}$ lb. 25c., $\frac{1}{2}$ lb. 40c., lb. 75c.

New Iceberg. One of the very best cabbage varieties. The heads are so compact and solid that they seldom go to seed. Its crispness is retained in the hottest and driest weather. Pkt. 4c., oz. 8c., 2 oz. 15c., $\frac{1}{4}$ lb. 25c., $\frac{1}{2}$ lb. 40c., lb. 75c.

Wonderful—GRAND NEW HEAD LETTUCE. Plants of extra large growth, producing heads of immense size. We have reports from our customers of plants measuring fifteen inches in diameter, with heads as large as small cabbages, and closely folded. Pkt. 5c., oz. 10c., 2 oz. 16c., $\frac{1}{4}$ lb. 30c., $\frac{1}{2}$ lb. 55c., lb. \$1.00.

Grand Rapids (Trianon Cos or Paris-White Cos). Has no equal for quality, but must be sown early in a hotbed for best results. Prices postpaid—Pkt. 5c., oz. 15c., 2 oz. 25c., $\frac{1}{4}$ lb. 38c., $\frac{1}{2}$ lb. 72c., lb. \$1.20.

BUCKBEE'S EARLIEST FORCING

See what this Market Gardener writes. There are thousands of others just as well pleased.

MR. J. W. WILLIAMS, Stanton, Haywood Co., Tenn., in sending his order Feb. 22d, 1908, says: For the last ten years we have been planting your Seed, and have been saying for several years that I would write to you about them. They are splendid. We ate roasting ears from Buckbee's Early Sunrise Sweet Corn in six weeks and six days from the day it was planted, and have never seen or heard of anything better. Your Banana Musk Melons were fine; some were 29 $\frac{1}{2}$ inches long and 19 inches around, and sold like hot-cakes; could sell them green for pickles. The Monte Cristo Water Melon—well we could not do without them. New Dixies were good but not to be compared with your Monte Cristos. Your White Dent Corn averaged ten barrels per acre, all fine large ears. The Beans were O. K. Buckbee's Western Giant Musk Melons were fine, weighing 25 to 30 lbs. Tomatoes and other samples did well.

Buckbee's "Full of Life" ONION SEEDS

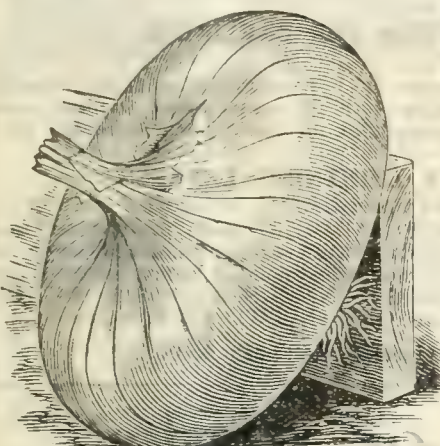

ONIONS FROM SEED AND ONION SETS. This page is devoted to the culture and description of Onion Seed and Onion Sets as they pertain to the Southern planter more so than to the Northern grower, who on account of climatic conditions must give his attention to Onion raising in the early Spring of the year.

LARGE ONIONS FROM SEED

Sow in seed-beds in August and September and when the sets are the size of a goose-quill transplant to rows twelve inches apart and four to six inches between the sets. Of course, the seed can be sown in drills and thinned out, but you will have larger Onions and a far better yield if transplanted. There is no crop in which a liberal use of manure is more essential than in this and it should be of the best quality, and where a sufficient quantity of this is unavailable a thousand pounds of high grade commercial fertilizer can be used to the acre with profit. A dressing of Nitrate of Soda when the plants begin to bulb is of great benefit.

Extra Early White Pearl. The quickest grower of the white sorts. Makes large pearly white Onions, tender, mild and of fine flavor. Prices, postpaid—Pkt. 4c., oz. 12c., 2 oz. 21c., $\frac{1}{4}$ lb. 40c., $\frac{1}{2}$ lb. 75c., lb. \$1.40.

Mammoth Silver King. An enormous sized Onion and is now one of the most popular varieties in existence. The skin is of a beautiful silvery white; flesh is snowy white and of particularly mild and pleasant flavor, and so sweet and tender that it can be eaten like an apple. My own growth Choicest Northern-grown, High Grade Pedigree Stock Seed. Prices, postpaid—Pkt. 5c., oz. 15c., 2 oz. 28c., $\frac{1}{4}$ lb. 50c., $\frac{1}{2}$ lb. 90c., lb. \$1.75.

MAMMOTH SILVER KING.

NEW GENUINE PRIZETAKER

Extra Early New Queen. A silver skinned variety of quick growth and remarkable keeping qualities and of especial value for pickling. Prices, postpaid—Pkt. 4c., oz. 12c., 2 oz. 21c., $\frac{1}{4}$ lb. 40c., $\frac{1}{2}$ lb. 75c., lb. \$1.40.

New Creole, or Louisiana Onion. This is an Onion peculiar to the South. It is of a reddish yellowish brown color, a great yielder and one of the best keeping sorts known. On account of the difficulty of keeping Onions in the South the Creole variety will doubtless prove more profitable to the Onion grower than any other sort. It is mild in character and splendid flavor. Prices, postpaid—Pkt. 5c., oz. 20c., 2 oz. 35c., $\frac{1}{4}$ lb. 60c., $\frac{1}{2}$ lb. \$1.10, lb. \$2.00.

New Genuine Prizetaker. The very largest, handsomest, finest flavored of all Onions and always grows to a uniform shape which is a perfect globe. Skin is yellowish brown; flesh white, mild and tender. If started early in hot-beds it will produce a mammoth Onion the first season. Prices, postpaid—Pkt. 5c., oz. 15c., 2 oz. 28c., $\frac{1}{4}$ lb. 50c., $\frac{1}{2}$ lb. 90c., lb. \$1.75.

Bermuda Onion—Genuine Teneriffe. Thousands of acres of these are grown throughout the South and they have proved a most profitable crop. They grow to an immense size and produce a most beautiful white flat Onion of mild flavor, and are particularly desirable on account of their quick growth. An excellent shipping variety and usually bring high prices early in the season. Prices, postpaid—Red, Pkt. 4c., oz. 20c., 2 oz. 35c., $\frac{1}{4}$ lb. 60c., $\frac{1}{2}$ lb. \$1.10, lb. \$2.00; White, Pkt. 4c., oz. 20c., 2 oz. 35c., $\frac{1}{4}$ lb. 60c., $\frac{1}{2}$ lb. \$1.10, lb. \$2.00.

Buckbee's "Full of Life" ONION SETS

NOTICE. In order to get my Catalogue out on time, I have to go to press with some of the pages (this Onion Set page is one of them) before most varieties of Sets are harvested.

SPECIAL BULK PRICES. All varieties on Onion Sets are sold by weight. Buckbee's Improved Top and Egyptian, or Perennial Tree weigh 28 lbs per bushel; all other varieties weigh 32 lbs. per bushel. **Write for Special Prices.** If you will write today and send me an exact list of the number of bushels of Onion Sets that you desire to purchase, naming the varieties and quantity of each, I will be pleased to quote you by early mail my lowest spot cash price on your requirements.

ONION SETS. All varieties may be set out in the Fall. Plant every four inches in rows one foot apart and about half an inch deep, but do not cover the sets entirely except Potato Onions, which should be planted nine inches apart in rows fifteen inches apart and covered about one inch. Fall planting should be more generally practiced as it has proved both successful and profitable.

Egyptian, or Perennial Onion Sets. This variety never forms a large bulb. Specially adapted for producing Green Onions for Spring or Fall use. Prices postpaid—Pt. 15c., Qt. 25c. By express or freight at Buyer's expense— $\frac{1}{8}$ bu. 40c., $\frac{1}{4}$ bu. 75c.

White Multiplier. One of the most popular varieties and in some markets sells in preference to all others. Prices, postpaid—Pt. 20c., qt. 35c. By Express or freight at Buyer's expense— $\frac{1}{8}$ bu. 75c., $\frac{1}{4}$ bu. \$1.25.

Buckbee's New White Potato Sets. Of pure silvery white color, producing twenty bulbs in a cluster from a single bulb. Prices, postpaid—Pt. 22c., qt. 40c. By express or freight at Buyer's expense— $\frac{1}{8}$ bu. 75c., $\frac{1}{4}$ bu. \$1.35.

New Yellow Potato Sets. Identical to the above except color which is of a rich, straw yellow. Prices postpaid—Pt. 20c., qt. 35c. By express or freight at Buyer's expense— $\frac{1}{8}$ bu. 75c., $\frac{1}{4}$ bu. \$1.25.

Bottom Onion Sets. These are the product of seed and are used for "Green Onions" or to produce large Onions, which they do much quicker than can be grown from seed. Our Sets are very choice, small and dry.

Choice White Bottom—Postpaid, pt. 12c., qt. 20c. Not Prepaid, qt. 12c., $\frac{1}{8}$ bu. 40c.
Choice Red Bottom— " pt. 12c., qt. 20c. " qt. 12c., $\frac{1}{8}$ bu. 40c.
Choice Yellow Bottom— " pt. 12c., qt. 20c. " qt. 12c., $\frac{1}{8}$ bu. 40c.

Egyptian, or Perennial Tree Onion Sets.

BUCKBEE'S LIGHTNING EXPRESS

EARLIEST PEA IN THE WORLD

**READY FOR PICKING IN 40 DAYS.
10,000 BUSHELS SOLD ANNUALLY**

Where earliness, productiveness, large-sized pods and sweetness of flavor are desired, this is the variety to grow; it may be truly called

THE BLOODED STOCK OF ALL

finest Early Peas, and stands at the head for the above fine qualities; in a favorable season ready for market in 40 days. The entire crop can be taken off in two pickings.

To the market gardener, earliness is of the greatest importance, as even a few days frequently make a great difference in price, often a depreciation of from \$2.00 to \$4.00 per barrel: the inexperienced find this out when too late, therefore the earliest is what is required, and

**BUCKBEE'S LIGHTNING EXPRESS IS THAT VARIETY
SOW THEM, YOU WILL MAKE NO MISTAKE**

Was introduced by us in '87 and sold that year 2000 bushels, and each year the demand for them has steadily increased; they have been the first Peas shipped North from the great Pea growing districts of Florida, Louisiana and Mississippi and

Prices Prepaid—Packet 8c.; half-pint 15c.; pint 25c.; quart 40c.

**DO NOT FORGET THE ENTIRE STOCK
THAT I CONTROL OF THIS WORLD BEATING VARIETY**

NOTE—Every Packet of Peas contains 2 Ounces or more

North Carolina since '88, which will readily be attested by growers of those sections, and all through the United States and Canada, where hundreds of acres of them are annually grown, they have attained the same

REPUTATION FOR EARLINESS

and productiveness. Their growth ranges from 2 to 2½ feet in accordance with the season; they are entirely free from runners, and never require sticking; it is an easy variety to pick, as almost a handful can be grasped at one time. Please observe that the true stock of

BUCKBEE'S LIGHTNING EXPRESS

can be had through our house only.

THEY ARE MUCH HARDIER, more productive, and withstand greater changes in the weather than any other variety. They are not only the largest podded Early, but they are ENTIRELY FREE FROM RUNNERS, AND THE ENTIRE CROP CAN BE TAKEN OFF IN TWO PICKINGS.

Not Prepaid—Quart 20c.; peck \$1.40; bush. \$5.00.

Buckbee's Earliest of All, or Alaska THE "FULL OF LIFE" STRAIN

By careful selection and growing I have developed a stock of this smooth, blue Pea, which in evenness of growth of vine and early maturity of pods is unequalled by any other extra early Pea. Vines two and two and one-half feet high, are unbranched, bearing four to seven long pods, which are filled with medium-sized dark green Peas of excellent flavor. Ripe Peas small, bluish green. Ripens the crop all at once, and is an invaluable variety for market gardeners and canners. A very excellent sort. Don't fail to try it. Prepaid—Pkt. 6c.; ½-pt. 10c.; pt. 16c.; qt. 30c. Not Prepaid—Qt. 15c.; peck \$1.05; bu. \$4.00.

EARLY PEAS

These can be planted to advantage during July and August, or further south early in September, to come in as late crop, and when they succeed well they always sell at high prices in our markets. Also very desirable for late vegetables for the home garden. The varieties named below are best for fall planting.

MARROWFAT PEAS

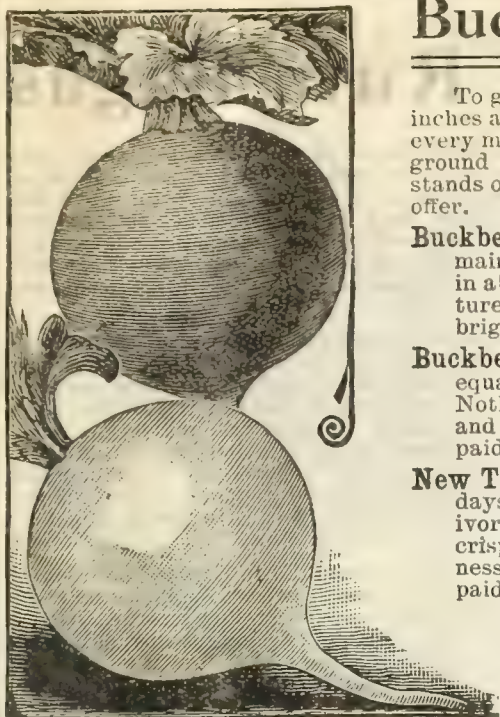

The Marrowfat Peas are hardier than the extra-earlies, and, planted in November, December and January, will come up and withstand the cold weather in the early spring, making their growth and yielding their crop to follow directly after extra-early Peas. As is well known, the Marrowfats are very much more prolific than any other smooth peas, and they make a most satisfactory and profitable market sort. We recommend to our customers to plant these in December and January, for home use, market and shipping.

Large White Marrowfat—Very prolific, largely used for market. Prices Prepaid—Pkt. 5c., ½-pt. 8c., pt. 15c., qt. 28c. Not prepaid—Qt. 12c., peck 65c., bu. \$2.25.

Blackeye Marrowfat—Closely resembles the above, but is considered more prolific. Prices prepaid—Pkt. 5c., ½-pt. 8c., pt. 15c., qt. 28c. Not prepaid—Qt. 12c., peck 65c., bu. \$2.25.

SEE WHAT THIS GROWER SAYS:

Mrs. A. A. BOUDREAUX, DE RIDDER, CALCASIEU CO., LA., writes March 29th. 1908: "I planted the Lightning Express (Peas) on the 18th day of February, and two days later I planted the Earliest Of All, or Alaska, and today, the 29th of March, we ate a good mess of fine Peas from our garden. The Lightning Express are the most vigorous planted side by side in rich ground. We have been taking the most of our seed from you since we have moved on the farm, and are very well satisfied in all respects, and will remember H. W. Buckbee for "Full of Life" Seeds."

Buckbee's "Full of Life" Radish Seed

FOR FALL PLANTING

To grow good Radishes the Seed should be sown on a rich sandy soil in drills twelve inches apart and thin out if necessary to prevent crowding. Radish is sown in the South every month in the year, in Winter time under glass, in hotbeds or cold frames and in open ground from March to November. My Seed is saved from select and transplanted roots, stands on its merits and I am certain there is none sold which is better than the varieties I offer.

Buckbee's Rapid Forcing. The Earliest of all Red Radishes. Quick growth is one of the main essentials for a crisp and tender Radish. This remarkable variety generally matures in about 14 days which makes it one of the most valuable sorts for forcing or outdoor culture. Flesh pure white crisp and of very pleasing flavor; the skin is a most attractive bright scarlet. Prices Postpaid—Pkt. 5c.; oz. 8c.; 2 oz. 15c.; $\frac{1}{4}$ lb. 25c.; $\frac{1}{2}$ lb. 40c.; 1 lb. 75c.

Buckbee's Crystal Forcing—The Best and Quickest White Radish. Without an equal. Matures in 14 days. Pure snow white—fairly crystal—so clear and transparent. Nothing is more tempting and pleasing than a combination of Buckbee's Crystal Forcing and Buckbee's Rapid Forcing when arranged in market or for the table. Prices Postpaid—Pkt. 5c.; oz. 8c.; 2 oz. 15c.; $\frac{1}{4}$ lb. 25c.; $\frac{1}{2}$ lb. 40c.; 1 lb. 75c.

New Triumph—The Greatest Radish Novelty. Matures early, generally in about 14 days. A very desirable addition to our forcing sorts. The roots are of globular form, ivory white, beautifully marked with spots and dashes of bright scarlet. Flesh white, crisp, solid and of mild pleasing flavor. On account of its distinct beauty and attractiveness it has become quite a favorite with Market Gardeners and Truckers. Prices Postpaid—Pkt. 5c.; oz. 8c.; 2 oz. 15c.; $\frac{1}{4}$ lb. 25c.; $\frac{1}{2}$ lb. 40c.; 1 lb. 75c.

New Leafless. An extra early forcing variety lately introduced and remarkable for its small tops. Roots globe-shaped and of a deep, rich red color; flesh white, crisp and tender. Prices Postpaid—Pkt. 5c.; oz. 10c.; 2 oz. 18c.; $\frac{1}{4}$ lb. 35c.; $\frac{1}{2}$ lb. 60c.; 1 lb. \$1.00.

New White Dresden. A German variety I grow very extensively on Rockford Seed Farms where it has proved a revelation to every one. Planted under ordinary conditions it is ready for table use in about thirty days. Perfectly round and smooth; skin pure white. Flesh crisp, white, juicy and of the finest flavor. Prices Postpaid—Pkt. 5c.; oz. 8c.; 2 oz. 15c.; $\frac{1}{4}$ lb. 25c.; $\frac{1}{2}$ lb. 40c.; 1 lb. 75c.

Buckbee's Rockford Market—The Best Long Early Radish. For years I have given special attention to this grand variety on Rockford Seed Farms and not only there but wherever it has been tried it has given unbounded satisfaction. The roots are very uniform in shape, smooth, being intermediate between the half-long and extra long sorts. Bright red in color and tipped white at the ends. Prices Postpaid—Pkt. 5c.; oz. 10c.; 2 oz. 15c.; $\frac{1}{4}$ lb. 25c.; $\frac{1}{2}$ lb. 40c.; 1 lb. 75c.

Earliest Scarlet Turnip—The Famous Standard Variety. One of the earliest, tenderest and sweetest Radishes in cultivation. Flesh white. Prices Postpaid—Pkt. 3c.; oz. 6c.; 2 oz. 10c.; $\frac{1}{4}$ lb. 15c.; $\frac{1}{2}$ lb. 25c.; 1 lb. 45c.

Earliest White Turnip. A favorite standard variety. Similar to above except in color which is pure white. Prices Postpaid—Pkt. 3c.; oz. 6c.; 2 oz. 10c.; $\frac{1}{4}$ lb. 15c.; $\frac{1}{2}$ lb. 25c.; 1 lb. 45c.

Rockford Beauty—Handsome and Best. Originated on Rockford Seed Farms, very early, deep scarlet color with dainty white tip. Flesh crystal white, tender and crisp. Prices Postpaid—Pkt. 5c.; oz. 8c.; 2 oz. 15c.; $\frac{1}{4}$ lb. 25c.; $\frac{1}{2}$ lb. 40c.; 1 lb. 75c.

Scarlet Turnip White Tipped. A beautiful variety; deep scarlet with white tip; exceptionally early, and is becoming very popular as a market sort. Prices Postpaid—Pkt. 3c.; oz. 6c.; 2 oz. 10c.; $\frac{1}{4}$ lb. 15c.; $\frac{1}{2}$ lb. 25c.; 1 lb. 40c.

Buckbee's Royal Gem. A new extra early round variety, maturing in 19 to 21 days; crisp, tender, delicious. Prices Postpaid—Pkt. 6c.; oz. 15c.; 2 oz. 25c.; $\frac{1}{4}$ lb. 40c.; $\frac{1}{2}$ lb. 60c.; 1 lb. \$1.00.

Buckbee's Long Crimson. The world beating early long Radish. The flesh is white and crisp, and roots very uniform in shape, smooth and unsurpassed in quality. Prices Postpaid—Pkt. 6c.; oz. 15c.; 2 oz. 25c.; $\frac{1}{4}$ lb. 40c.; $\frac{1}{2}$ lb. 60c.; 1 lb. \$1.00.

New Icicle Radish. Long and smooth white roots, crisp and tender. Prices Postpaid—Pkt. 4c.; oz. 7c.; 2 oz. 12c.; $\frac{1}{4}$ lb. 20c.; $\frac{1}{2}$ lb. 35c.; 1 lb. 60c.

Golden Summer Turnip. Rapid grower, tender and brittle, and has a beautiful golden colored skin. Prices Postpaid—Pkt. 3c.; oz. 6c.; 2 oz. 10c.; $\frac{1}{4}$ lb. 15c.; $\frac{1}{2}$ lb. 25c.; 1 lb. 40c.

Gray Summer Turnip. Round turnip shaped, and regular in form. The skin on the upper part is mottled with greenish-brown. Flesh mild, of greenish-white color, and moderately solid. Prices Postpaid—Pkt. 3c.; oz. 6c.; 2 oz. 10c.; $\frac{1}{4}$ lb. 15c.; $\frac{1}{2}$ lb. 25c.; 1 lb. 40c.

White Summer Strasburg. Roots are four to five inches long and about two inches thick; flesh exceedingly crisp and tender. Prices Postpaid—Pkt. 3c.; oz. 6c.; 2 oz. 10c.; $\frac{1}{4}$ lb. 15c.; $\frac{1}{2}$ lb. 25c.; 1 lb. 40c.

Mammoth Celestial Winter. Root long, beautiful, white flesh. Very tender, crisp, juicy and mild. Prices Postpaid—Pkt. 5c.; oz. 8c.; 2 oz. 15c.; $\frac{1}{4}$ lb. 25c.; $\frac{1}{2}$ lb. 40c.; 1 lb. 75c.

Chinese Rose, or Scarlet Winter. Roots cylindrical. Skin very smooth and of bright rose color; flesh firm, crisp, tender and quite pungent. Prices Postpaid—Pkt. 3c.; oz. 6c.; 2 oz. 10c.; $\frac{1}{4}$ lb. 15c.; $\frac{1}{2}$ lb. 25c.; 1 lb. 40c.

California Mammoth White Winter. Pure white, about one foot long and two to three inches through, tapering regularly to the tip. Prices Postpaid—Pkt. 3c.; oz. 6c.; 2 oz. 10c.; $\frac{1}{4}$ lb. 15c.; $\frac{1}{2}$ lb. 25c.; 1 lb. 40c.

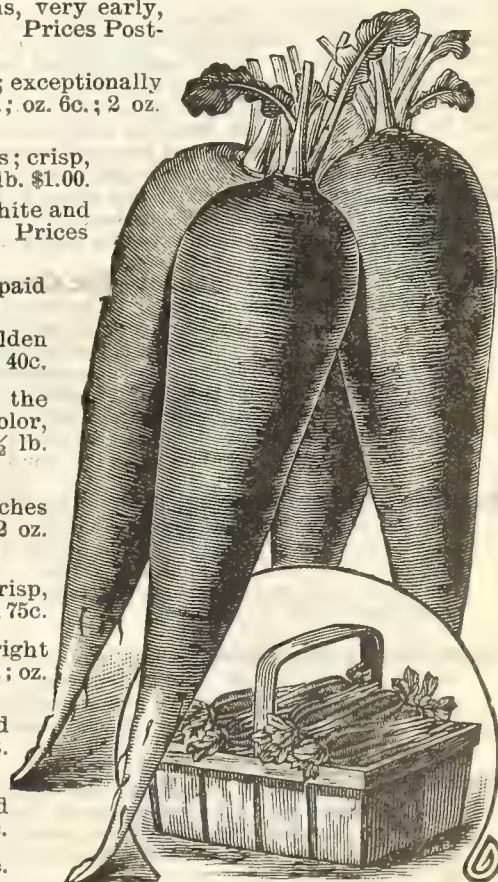

Round Black Spanish Winter. Skin black; flesh white; highly flavored; good keeper. Prices Postpaid—Pkt. 3c.; oz. 6c.; 2 oz. 10c.; $\frac{1}{4}$ lb. 15c.; $\frac{1}{2}$ lb. 25c.; 1 lb. 40c.

Long Black Spanish Winter. Roots oblong, black, large and of firm texture. Prices Postpaid—Pkt. 3c.; oz. 6c.; 2 oz. 10c.; $\frac{1}{4}$ lb. 15c.; $\frac{1}{2}$ lb. 25c.; 1 lb. 40c.

Buckbee's Rockford Marke

Buckbee's "Full of Life" Ruta Bagas

The culture of Ruta Bagas is similar to that of Turnips except that the seed should be sown about 3 weeks earlier. The ground should be kept as clear of weeds as possible with the hoe or cultivator and when the roots are matured and before hard freezing weather sets in, pull them, cut off the tops and store in a root cellar or pit. Ruta Bagas are sometimes sown broadcast and left to take their chances with the weeds and bugs, but this method is only successful on new clearing where there are no weed seeds.

Buckbee's Giant. This is a Prize Winner everywhere. This magnificent variety which I first offered in 1890 is unquestionably the most profitable of all Ruta Bagas as well as the hardest, heaviest and best shaped and by far the most productive, a yield of 1000 bushels per acre and one under good cultivation, being of frequent occurrence. Roots are somewhat oval in shape, slightly oblong with relatively small neck and tops. Color is purplish—crimson above ground and yellow below; flesh very solid, fine grained and of the best flavor. Prices postpaid—Packet 5c.; oz. 8c.; 2 oz. 12c.; $\frac{1}{4}$ lb. 20c.; $\frac{1}{2}$ lb. 35c.; 1 lb. 60c.

New Monarch or Elephant. It is very popular in England and is certainly a grand variety; claimed by some growers to yield larger roots and more to an acre than any other sort. Produces large, oval or tankered-shaped roots with relatively small necks and tops; skin dark purple above ground, yellow beneath; flesh rich yellow, fine grained, and of best quality. Is easy to harvest. Prices postpaid—Packet 3c.; oz. 6c.; 2 oz. 9c.; $\frac{1}{4}$ lb. 12c.; $\frac{1}{2}$ lb. 20c.; 1 lb. 35c.

Improved Purple Top Yellow. This magnificent Swede is the result of judicious selection, very hardy, productive and nutritious; flesh yellow of solid texture, sweet and well flavored; shape slightly oblong; a heavy cropper and a good keeper. Prices postpaid—Packet 3c.; oz. 6c.; 2 oz. 9c.; $\frac{1}{4}$ lb. 12c.; $\frac{1}{2}$ lb. 20c.; 1 lb. 35c.

Buckbee's Mammoth White Russian. This variety is an excellent keeper and very desirable either for table or stock. Will stand the hardest Winters and produces a very heavy weight per acre. Flesh white and solid, sweet and rich. Prices postpaid—Packet 4c.; oz. 7c.; 2 oz. 12c.; $\frac{1}{4}$ lb. 18c.; $\frac{1}{2}$ lb. 30c.; 1 lb. 50c.

Buckbee's "Full of Life" Mangels

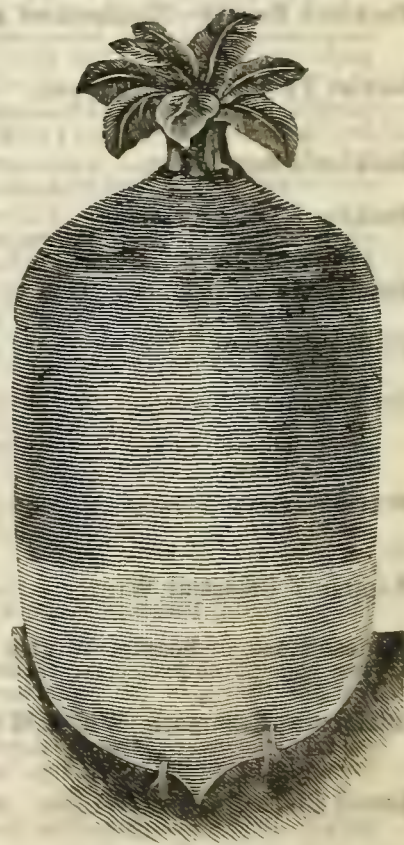

My thoroughbred Mangel Seed is the acknowledged leader throughout the land for mammoth yield. Desirable Shape, uniform large size, long keeping and good quality. The value of mangels for stock feeding cannot be overestimated. The results from their use are wonderful, as is shown in the improved health and condition of animals, the increased yield of milk in cows and the great saving of hay. They can be raised at a trifling cost. For Fall and Winter use Mangels should be sown in June or July and the roots may be kept by storing in a cellar and keeping covered with sand or sandy soil to prevent wilting, or they may be kept out doors in pits such as are used for apples or potatoes. The best results are obtained if planted on a deep, rich, sandy loam which should be well prepared and thoroughly enriched. Seed should be sown in drills 3 feet apart, and cultivated when young and thin out the plants to one foot apart in the row.

Buckbee's Mastodon Mangel—The Greatest Mangel of the Century. Is enormously and wonderfully productive. The roots are very large uniformly straight and well formed. I took many hundreds of specimens from my fields weighing over 60 lbs. each, and many reaching the sensational weight of 75 lbs. and over. The flesh is red, of very fine texture and quality, containing less water and more sugar than any other Mangel, except it be the New Imperial Sugar, making it more nutritious and milk producing. Prominent Mangel authorities consider Buckbee's Mastodon by far the most valuable and profitable of all stock feeding beets. Prices postpaid—Oz. 8c.; $\frac{1}{4}$ lb. 20c.; $\frac{1}{2}$ lb. 35c.; 1 lb. 60c.; 5 lbs. for 1 acre \$2.50.

Buckbee's Mammoth Long Red. This grand Mangel is of my own introduction and has created a great sensation wherever grown on account of its extraordinary size, single roots weighing from 30 to 40 lbs. being of frequent occurrence. The quality is of the highest order and is a splendid keeper. The crop is always uniform and the color is a beautiful dark red. Prices postpaid—Oz. 5c.; $\frac{1}{4}$ lb. 15c.; $\frac{1}{2}$ lb. 25c.; 1 lb. 40c.; 5 lbs. for 1 acre \$1.75.

Champion Yellow Globe. This is one of the best varieties grown for stock feeding; very productive, and an excellent keeper. Flesh white and fine flavor. The roots grow almost entirely above ground making them admirably adapted to shallow ground and very easy to harvest. Prices postpaid—Oz. 5c.; $\frac{1}{4}$ lb. 10c.; $\frac{1}{2}$ lb. 16c.; 1 lb. 28c.; 5 lbs. for 1 acre \$1.30.

New Golden Monarch Mangel. An entirely new and distinct Mangel, and altogether a magnificent root, as it grows more than half above ground and is easily harvested. The flesh is quite firm and sweet, greatly relished by all kinds of stock and is an excellent keeper. Prices postpaid—Oz. 5c.; $\frac{1}{4}$ lb. 12c.; $\frac{1}{2}$ lb. 20c.; 1 lb. 35c.; 5 lbs. for 1 acre \$1.60.

Buckbee's Mastodon Mangel.

Buckbee's "Full of Life" TURNIPS

*Buckbee's Improved Red or Purple
Top White Globe.*

FOR many years we have enjoyed a trade in Turnip and Ruta Baga Seed in the South that it has been a wonderment to those who have visited our establishments to learn how we ever built up such a large and satisfactory business; but we make a specialty of growing these with particular reference to their adaptability and suitability to Southern soil and climate. It makes a big difference in crop results where the seeds you intend to sow were grown, but you can make no mistake whatever in starting right in and buying your seeds from Buckbee's, who will supply you with seeds that will give the BEST RESULTS.

For feeding stock in Fall and Winter there is nothing superior to Turnip and Ruta Bagas, as they are much relished by all kinds of stock besides keeping them in good condition. In the field Turnips are generally sown broadcast, though larger crops are obtained by sowing in drills sixteen inches apart and half an inch deep, but in either case be sure to have the ground rich and well prepared. In the Middle and Western States sow for Fall and Main Crop from middle of July to last of August, and in the South they may be sown eight months in the year. One ounce of seed for 250 feet of drill, two to three lbs. for an acre.

Buckbee's Improved Red or Purple Top White Globe Every one who uses Turnips, no matter in what quantity should by all means grow this splendid variety. It is globular shaped and about the same size as the Large White Globe, of a most beautiful appearance, unexcelled in quality, fine grained and well flavored. You can get nothing better for table or market, and is greatly relished by stock. Prices postpaid, pkt. 5c., oz. 8c., 2 oz. 15c., $\frac{1}{4}$ lb. 20c., $\frac{1}{2}$ lb. 35c., 1 lb. 60c.

Buckbee's Red, or Purple Top Strap Leaved. There is probably a larger amount of seed of this variety sown every year than any other Turnip, as it is early and a great favorite for table use. The flesh is white, fine grained and tender; leaves short and narrow, and upright in growth. Prices postpaid, pkt. 4c., oz. 6c., 2 oz. 10c., $\frac{1}{4}$ lb. 15c., $\frac{1}{2}$ lb. 25c., 1 lb. 40c.

New White Strap Leaf. Identical with the above in valuable qualities, differing only in color which is a beautiful ivory white. Prices postpaid, pkt. 3c., oz. 6c., 2 oz. 10c., $\frac{1}{4}$ lb. 15c., $\frac{1}{2}$ lb. 25c., 1 lb. 40c.

New White Egg. This is certainly one of the very choicest and finest Turnips in cultivation. A quick growing, egg-shaped, perfectly smooth, pure white variety; grows half out of the ground. The flesh is very sweet, firm and mild, never having the rank strong taste of some of the early sorts. Prices postpaid, pkt. 4c., oz. 6c., 2 oz. 10c., $\frac{1}{4}$ lb. 18c., $\frac{1}{2}$ lb. 30c., 1 lb. 50c.

Southern Seven Top. Cultivated extensively and with profit in the South for the tops, which are used for greens. Is very hardy and will grow all winter, but does not produce a good root, and is only recommended for the tops. Prices postpaid, pkt. 4c., oz. 6c., 2 oz. 10c., $\frac{1}{4}$ lb. 18c., $\frac{1}{2}$ lb. 30c., 1 lb. 50c.

Buckbee's Extra Early Cardinal, sometimes called SCARLET CASHMYR. Greatest Turnip novelty ever offered. Very early variety, of magnificent shape, handsome appearance, and wonderful keeping qualities. Outside skin brilliant cardinal color, tender and crisp. Prices postpaid, pkt. 5c., oz. 8c., 2 oz. 15c., $\frac{1}{4}$ lb. 20c., $\frac{1}{2}$ lb. 35c., 1 lb. 60c.

Large White Globe. This is one of the most productive sorts; is of perfect globe shape, skin white and smooth, very good quality for table use, and is a variety that is usually grown for feeding stock. Prices postpaid, pkt. 3c., oz. 6c., 2 oz. 10c., $\frac{1}{4}$ lb. 15c., $\frac{1}{2}$ lb. 25c., 1 lb. 40c.

Large Amber Globe. One of the best varieties for a field crop for stock; flesh yellow, fine grained and sweet; hardy; a good keeper and good cropper. Very popular in the South. Prices postpaid, pkt. 3c., oz. 6c., 2 oz. 10c., $\frac{1}{4}$ lb. 15c., $\frac{1}{2}$ lb. 25c., 1 lb. 40c.

Extra Early Purple Top Milan. This variety is remarkably early. The top is very small, and grows very erect and compact. The roots are clear white, very smooth, symmetrical and beautiful; the flesh white, tender and sweet, and nothing more could be desired in the way of an extra early garden Turnip. Prices postpaid, pkt. 4c., oz. 6c., 2 oz. 10c., $\frac{1}{4}$ lb. 18c., $\frac{1}{2}$ lb. 30c., 1 lb. 50c.

Cow Horn, sometimes called LONG WHITE. It is pure white with a little shade of green on top, and grows half out of the ground and slightly crooked. Very delicate and mild flavored, and of rapid growth; fine for fall and early winter use. Prices postpaid, pkt. 3c., oz. 6c., 2 oz. 10c., $\frac{1}{4}$ lb. 18c., $\frac{1}{2}$ lb. 30c., 1 lb. 50c.

Early Six Weeks or Snowball. This excellent variety deserves a more prominent place in the Turnip family than it is usually accorded; is very popular in many sections; flesh white, firm, tender and sweet.

Prices postpaid, pkt. 3c., oz. 6c., 2 oz. 10c., $\frac{1}{4}$ lb. 18c., $\frac{1}{2}$ lb. 30c., 1 lb. 50c.

Buckbee's Extra Early Cameo. Another grand acquisition from the land of the Czar, identical with Buckbee's Cardinal in every way except color, which is a beautiful pearly white. By all means include it with your order. Prices postpaid, pkt. 5c., oz. 8c., 2 oz. 15c., $\frac{1}{4}$ lb. 20c., $\frac{1}{2}$ lb. 35c., 1 lb. 60c.

New Golden Globe. Most delicious and sweetest of all yellow fleshed Turnips; very attractive and beautiful sort. Prices postpaid, pkt. 4c., oz. 6c., 2 oz. 10c., $\frac{1}{4}$ lb. 15c., $\frac{1}{2}$ lb. 25c., 1 lb. 40c.

JOHN KERR, Fremont, Missouri, writes: "I was pleased with those turnips you sent me last year and also those fine Beets. I raised them 20 inches around. I want your Garden Seeds again this year."

Buckbee's Beefsteak Tomato.

BUCKBEE'S "FULL OF LIFE" SEEDS

UNRIVALED VARIETIES FOR FALL PLANTING IN ALL PARTS OF THE COUNTRY

CHINESE MUSTARD

MUSTARD

This is grown quite extensively in the Southern states. The green leaves are used as a salad, very fine cut and boiled like Spinach, and often boiled with meat as greens. The white or yellow seeded varieties are cultivated chiefly for medicinal purposes or pickles, while the others are best for general use.

Ostrich Plumed Mustard. This new variety originated in the South and is one of the most desirable in cultivation. The leaves are exquisitely crimped, ruffled and frilled and make an excellent table garnishing. Is of superior flavor and very popular wherever grown. Prices postpaid—Pkt. 3c., oz. 9c., 2 oz. 15c., $\frac{1}{4}$ lb. 18c., $\frac{1}{2}$ lb. 30c., lb. 50c.

Southern Giant Curled. This Mustard is very highly esteemed in the South, where the seed is sown in the Fall and the plants used very early in the Spring as a salad. Prices postpaid—Pkt. 4c., oz. 6c., 2 oz. 10c., $\frac{1}{4}$ lb. 18c., $\frac{1}{2}$ lb. 30c., lb. 50c.

White Seeded. Useful for salads and greens. Seeds pungent, nice for pickles. Seed light yellow. Prices postpaid—Pkt. 2c., oz. 5c., $\frac{1}{4}$ lb. 10c., $\frac{1}{2}$ lb. 15c., lb. 25c.

Black Seeded. Is sharper and more pungent than any other variety. Prices postpaid—Pkt. 2c., oz. 5c., $\frac{1}{4}$ lb. 10c., $\frac{1}{2}$ lb. 15c., lb. 25c.

OKRA

The pods of this plant are regarded as a household necessity in the Southern states, but are not so well known or so extensively grown as they should be in the North. The pods are used in soups or stewed and served like asparagus. Plant in hills about four feet apart, putting six to eight seeds in a hill, and after the plants are well started cut out all but two. The dwarf sorts can be planted much closer in hills two or three feet apart, or in drills two feet apart, thinning the plants to about one foot apart in the row. Gather the pods when quite green and about an inch and a half long.

White Velvet. This is a distinct and beautiful Okra. The pods are much longer than any other variety; perfectly smooth, and covered with a fine fiber resembling velvet. Prices postpaid—Pkt. 2c., oz. 5c., $\frac{1}{4}$ lb. 12c., $\frac{1}{2}$ lb. 20c., lb. 30c.

Long Green or Tall. Produces very long green pods, very slim and tender and is not excelled for either canning or table use. Prices postpaid—Pkt. 2c., oz. 5c., $\frac{1}{4}$ lb. 12c., $\frac{1}{2}$ lb. 20c., lb. 30c.

Lady Finger. An early sort. Pods green, medium size, rigid, very tender, and of excellent quality. Prices postpaid—Pkt. 3c., oz. 6c., 2 oz. 10c., $\frac{1}{4}$ lb. 18c., $\frac{1}{2}$ lb. 30c., lb. 50c.

Dwarf Green Prolific. This is a distinct variety, very dwarf in growth, but enormously productive; producing pods within an inch or two of the ground and clear to the top. Prices postpaid—Pkt. 2c., oz. 5c., $\frac{1}{4}$ lb. 12c., $\frac{1}{2}$ lb. 20c., lb. 30c.

Chinese Giant Pepper.

Round Summer Broad Leaf Spinach.

PARSNIP

Buckbee's New Sugar—Pkt. 5c., oz. 10c., 2 oz. 18c., $\frac{1}{4}$ lb. 35c., $\frac{1}{2}$ lb. 60c., lb. \$1.
New Maltese—Pkt. 4c., oz. 6c., 2 oz. 10c., $\frac{1}{4}$ lb. 15c., $\frac{1}{2}$ lb. 25c., lb. 40c.
Improved Hollow Crown, or Long White Sugar—Pkt. 3c., oz. 6c., 2 oz. 9c., $\frac{1}{4}$ lb. 12c., $\frac{1}{2}$ lb. 20c., lb. 35c.

PEPPER

	Pkt.	Oz.	2oz.	$\frac{1}{4}$ lb.		Pkt.	Oz.	2oz.	$\frac{1}{4}$ lb.

Golden Dawn—	3c.	12c.	22c.	40c.					

SPINACH

Spinach is very hardy, wholesome and palatable and makes a delicious dish of greens, retaining its bright green color after cooking. Should be planted in very rich ground, the richer the better; sow in drills one foot apart, and commence thinning out the plants when the leaves are one inch wide. All should be cut before hot weather or it will be tough and stringy.

Buckbee's New Long Standing. An improved round seed strain, of excellent merit, and one of the most vigorous and strong growing varieties. The leaves are smooth and very dark rich green. Prices postpaid—Pkt. 5c., oz. 8c., 2 oz. 12c., $\frac{1}{4}$ lb. 15c., $\frac{1}{2}$ lb. 25c., lb. 40c.

Bloodsdales, or Savoy Leaved. The earliest variety and one of the best to plant in Autumn for early Spring use. Plant of upright growth, with narrow pointed leaves which are curled like those of savoy cabbage. Prices postpaid—Pkt. 2c., oz. 4c., 2 oz. 7c., $\frac{1}{4}$ lb. 10c., $\frac{1}{2}$ lb. 18c., lb. 30c.

Improved Round Summer Broad Leaf. This variety is generally preferred in the North, but lately has become quite popular in many sections in the Southern states

where it is quite hardy, and stands exposure very well. Prices postpaid—Pkt. 2c., oz. 4c., 2 oz. 7c., $\frac{1}{4}$ lb. 10c., $\frac{1}{2}$ lb. 18c., lb. 30c.

Victoria. A new sort which is quick to mature and forms a very large exceedingly thick leaf. It remains in use much longer than most sorts. Prices postpaid—Pkt. 2c., oz. 4c., 2 oz. 7c., $\frac{1}{4}$ lb. 10c., $\frac{1}{2}$ lb. 18c., lb. 30c.

Other Varieties. I can also supply the following standard varieties which are too well known to require extended descriptions at the uniform price, postpaid—Pkt. 2c., oz. 4c., 2 oz. 7c., $\frac{1}{4}$ lb. 10c., $\frac{1}{2}$ lb. 18c., lb. 30c.—as follows: **Monstrous Viroflay, Improved Thick Leaved, Winter Prickly, Prickly Seeded, Broad Flanders.**

CORN SALAD—FETTICUS, or LAMB'S LETTUCE

This small salad is used during the Winter and Spring months as a substitute for lettuce, and is also cooked and used like Spinach. Sow the seed in shallow drills about one foot apart, during August and September. Prices postpaid—Pkt. 3c., oz. 6c., 2 oz. 10c., $\frac{1}{4}$ lb. 18c., $\frac{1}{2}$ lb. 30c., lb. 55c.

Buckbee's Famous "Full of Life"

LAWN GRASS SEED

*Especially Prepared for
Fall Planting*

Buckbee's "Full of Life" Lawn Grass Seed will form a close, thick turf in a few weeks' time, with no tendency to stool or grow in clumps. It roots deeply and withstands severe droughts without turning brown, maintaining its beautiful deep rich green color throughout the season.

Buckbee's "World's Fair" Prize Lawn Grass

Has no Equal. Makes the Most Beautiful Lawn. Easy to Grow. Awarded the Great Columbian Prize at Chicago World's Fair, 1893. Adds to its Tremendous Popularity as the Years Come and Go.

This Famous Prize-winning Lawn Grass is made up of a most evenly balanced combination of native and foreign fine-leaved, deep-rooting grasses that interweave and flourish in different soils and climates, showing each its best strength at seasons different from the others, and thus keeping the lawn vigorous and green from winter's end to winter's next advent.

This mixture is used exclusively on the Famous Del Monte Tennis and Croquet Grounds in California, the celebrated Alhambra Grounds in Asheville, N. C., and thousands of the most prominent places in the country. My lowest prices for New Crop "FULL OF LIFE" Seed. Postpaid, $\frac{1}{2}$ lb., 18c.; 1 lb., 32c. By Express or Freight at purchaser's expense, 5 lbs., 98c.; 10 lbs., \$1.92; 15 lbs., \$2.84; 25 lbs., \$4.69; 50 lbs., \$9.27; 100 lbs., \$17.93.

Buckbee's Velvet Green Mixture Is a careful selection of finer grasses which naturally thrive under the shade of trees or buildings. Especially suitable for light sandy soil. My lowest prices for New Crop "FULL OF LIFE" Seed. Postpaid, $\frac{1}{2}$ lb. 17c.; 1 lb. 31c. By Express or Freight at buyer's expense, 5 lbs. 94c.; 10 lbs. \$1.85; 15 lbs. \$2.77; 25 lbs. \$4.46; 50 lbs. \$8.69; 100 lbs. \$16.96.

Buckbee's "New Dixie" Lawn Grass Is specially prepared for the South and contains all the best grasses that are by nature adapted for hot dry situations. Bermuda Grass is frequently used in the South but it remains green only in the summer months turning brown in the Winter; but by using this mixture and with some care and attention an all-the-year lawn can be maintained in the Southern States. My lowest prices for New Crop "FULL OF LIFE" Seed. Postpaid, $\frac{1}{2}$ lb. 16c.; 1 lb. 30c. By Express or Freight at buyer's expense, 5 lbs. 89c.; 10 lbs. \$1.77; 15 lbs. \$2.64; 25 lbs. \$4.29; 50 lbs. \$8.51; 100 lbs. \$14.93.

Buckbee's Kentucky Blue Grass. Specially Grown for Me "In Old Kentucky, Where the Meadow Grass is Blue." Many prefer this to a mixture of grasses, and the fact cannot be denied, that a lawn of Blue Grass only is magnificent; it takes longer, however, to get it established. Very desirable for wood lawns, pastures and especially excellent for winter pastures because of its thick, heavy growth. Owing to short crops, prices will rule a little higher. My lowest prices for New Crop "FULL OF LIFE" Seed. Postpaid, $\frac{1}{2}$ lb. 18c.; 1 lb. 32c. By Express or Freight at buyer's expense, 5 lbs. 98c.; 10 lbs. \$1.92.

Buckbee's Selected White Clover Is the best of the Clover family. Especially suitable to plant for pasture or to sow for lawns in connection with the Blue Grass. It produces a delightful, smooth and attractive surface; also makes excellent forage for bees. This choice variety, my lowest prices for New Crop "FULL OF LIFE" Seed—Postpaid, $\frac{1}{2}$ lb. 16c.; 1 lb. 30c. By Express or Freight at buyer's expense, 5 lbs. \$1.08; 10 lbs. \$1.94.

Buckbee's Fancy Red Top. Well cleaned, makes a good permanent grass and produces luxuriant growth on almost any soil. This is a great variety, and you should send your orders for it early, as it usually sells rapidly. My lowest prices for New Crop "FULL OF LIFE" Seed. Postpaid, $\frac{1}{2}$ lb. 14c.; 1 lb. 26c. By Express or Freight at buyer's expense, 5 lbs. 75c.; 10 lbs. \$1.47.

Buckbee's Extra Special Lawn Fertilizer. Economical, wonderfully beneficial. Makes the lawn strong and keeps it healthy. My lowest prices—Postpaid, 1 lb. 20c. By Freight or Express at buyer's expense, 5 lbs. 30c.; 10 lbs. 50c.; 25 lbs. \$1.00; 50 lbs. \$1.50; 100 lbs. \$2.75.

Special Quotations. I shall be pleased to quote special prices to golf clubs, institutions, parks and others who require Lawn Grass and Clover Seeds in large quantities.

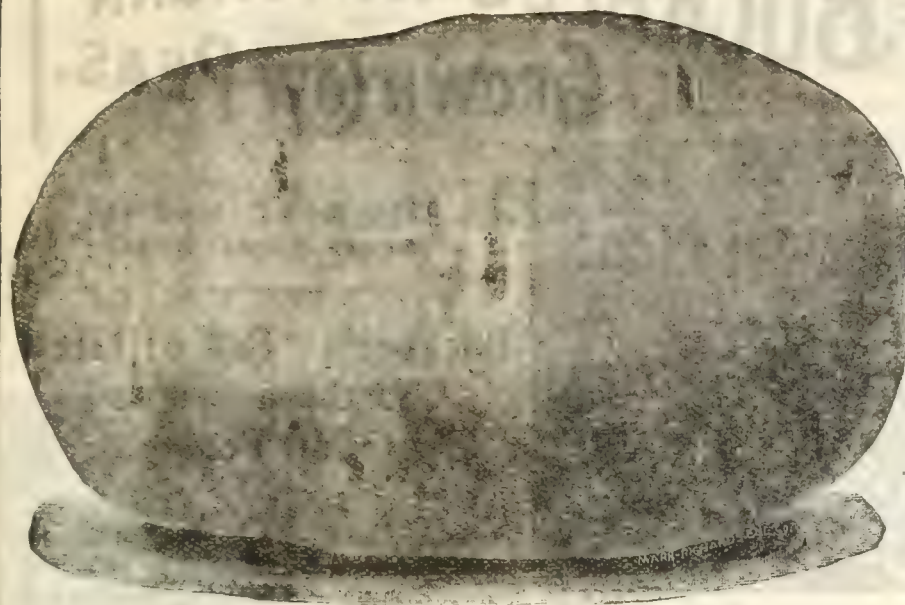

Buckbee's Great Grass Seed Specialties. Great care should be exercised in the selection of Grass Seed. The various varieties which I offer on this page are used and endorsed by thousands of the best authorities on grasses. There is nothing handsomer than a beautiful lawn—there is nothing more certain to produce a beautiful green, grassy carpet than Buckbee's Grass Seed Specialties.

Quantities to Use.

- 1-lb. Package for 350 square feet.
- 5-lb. Package for 1750 square feet.
- 10-lb. Bag for 3500 square feet.
- 15-lb. Bag for 5250 square feet.
- 25-lb. Bag for one-fourth acre.
- 50-lb. Bag for one-half acre.
- 100-lb. Bag for one acre.

MRS. WILEY CHEW, Bremen, Ind., writes Feb. 25th, 1908, as follows:—Received our World's Fair Lawn Grass Seed all O. K. and was well pleased with it. I did not know a pound of seed would help out a lawn so well. Ours is the envy of our neighbors.

BUCKBEE'S "FULL OF LIFE" NORTHERN GROWN PEDIGREED STOCK SEED POTATOES

IMPROVED EARLY OHIO.

Improved Early Ohio. This is without doubt the most popular early Potato in the country, and there is a greater demand for it than for any other early. The potatoes we offer are smooth, clean, and free from prongs and scab—growing stronger and more vigorous, maturing in a shorter time and yielding much more than home grown Seed. You have also the satisfaction of knowing that your **Improved Early Ohios** are **PURE**. Choicest Pedigreed Stock Seed.

Prices postpaid—1 lb. 25c., 3 lbs. 70c. By Express or Freight at buyer's expense— $\frac{1}{4}$ bu. 50c., $\frac{1}{2}$ bu. 80c., 1 bu. \$1.35, $2\frac{1}{2}$ bu. \$3.18.

Pure Early Rose. The good old favorite, which continues in great popularity. A prolific yielder, sure cropper and popular market potato. Every farmer and gardener knows the good Early Rose and nothing need be said in its favor. The strain we offer is the purest and best that can be put on the market. Choicest Pedigreed Stock Seed.

Prices postpaid—1 lb. 25c., 3 lbs. 60c. By Express or Freight at buyer's expense— $\frac{1}{4}$ bu. 50c., $\frac{1}{2}$ bu. 80c., 1 bu. \$1.35, $2\frac{1}{2}$ bu. \$3.18.

Rural New Yorker Number Two. The standard white market Potato and largely planted for a profitable main crop all over the country. Tubers very uniform in size and almost every-one marketable. Known as (dusty) Rural. Choicest Pedigreed Stock Seed.

Prices postpaid—1 lb. 25c., 3 lbs. 65c. By Express or Freight at buyer's expense— $\frac{1}{4}$ bu. 50c., $\frac{1}{2}$ bu. 80c., 1 bu. \$1.35, $2\frac{1}{2}$ bu. \$3.18.

Carman Number Three. One of the most popular of the Carman group of Potatoes. **CARMAN NO. THREE** grows to the largest size of any of the main crop sorts. Choicest Pedigreed Stock Seed.

Prices postpaid—1 lb. 25c., 3 lbs. 60c. By Express or Freight at buyer's expense— $\frac{1}{4}$ bu. 50c., $\frac{1}{2}$ bu. 80c., 1 bu. \$1.35, $2\frac{1}{2}$ bu. \$3.18.

Early Six Weeks. Forty-five days is three days longer than six weeks, which is the record our stock of **Early Six Weeks** holds on our Rockford Seed Farms, and tested with other samples of Six Weeks Potatoes proves more vigorous and productive. Choicest Pedigreed Stock Seed.

Prices postpaid—1 lb. 25c., 3 lbs. 70c. By Express or Freight at buyer's expense— $\frac{1}{4}$ bu. 50c., $\frac{1}{2}$ bu. 80c., 1 bu. \$1.35, $2\frac{1}{2}$ bu. \$3.18.

There is no question but a change of Seed will greatly increase your crop. Do not plant your old stock. Buy Buckbee's "FULL OF LIFE" Northern Grown Pedigreed Stock and get best results. Get your orders in early and avoid delay.

Many of our older customers will doubtless remember our handling Seed Potatoes a few years ago, but for lack of proper storage facilities and thinking we were not giving our customers' orders that careful and painstaking attention which is characteristic of our business, concluded to discontinue that department until we were in the best possible shape to properly conduct that part of the business. I can now furnish Potatoes that will give unbounded satisfaction to the most critical grower. Not only that but the progressive farmer of today wants to have his Seed Potatoes in his own cellar in the Fall ready to plant in the Spring, when he is ready, without waiting for favorable shipping weather. In this respect he not only buys at much **Lower Prices** in the Fall but his Seed Potatoes are there when wanted. We reserve the privilege of shipping potatoes in barrels or heavy potato sacks holding 150 lbs.

Buckbee's Extra Early Rockford. (See Painting from Nature outside Back Cover). A new Extra Early variety of great promise. Makes an extremely quick growth and considering its extra Earliness is a wonderful heavy yielder. Is of a very handsome appearance with pinkish tinged skin and white flesh.

Prices postpaid—1 lb. 38c., 3 lbs. 99c. By Express or Freight at buyer's expense— $\frac{1}{4}$ bu. 91c., $\frac{1}{2}$ bu. \$1.37, 1 bu. (60 lbs.) \$2.46, $2\frac{1}{2}$ bu. \$4.69.

Pride of the South. This fine Potato has been generally tested and proved to be a splendid variety both in yield and earliness; in shape it is similar to Bliss Triumph being nearly round, flesh white, quality of the best. Choicest Pedigreed Stock Seed.

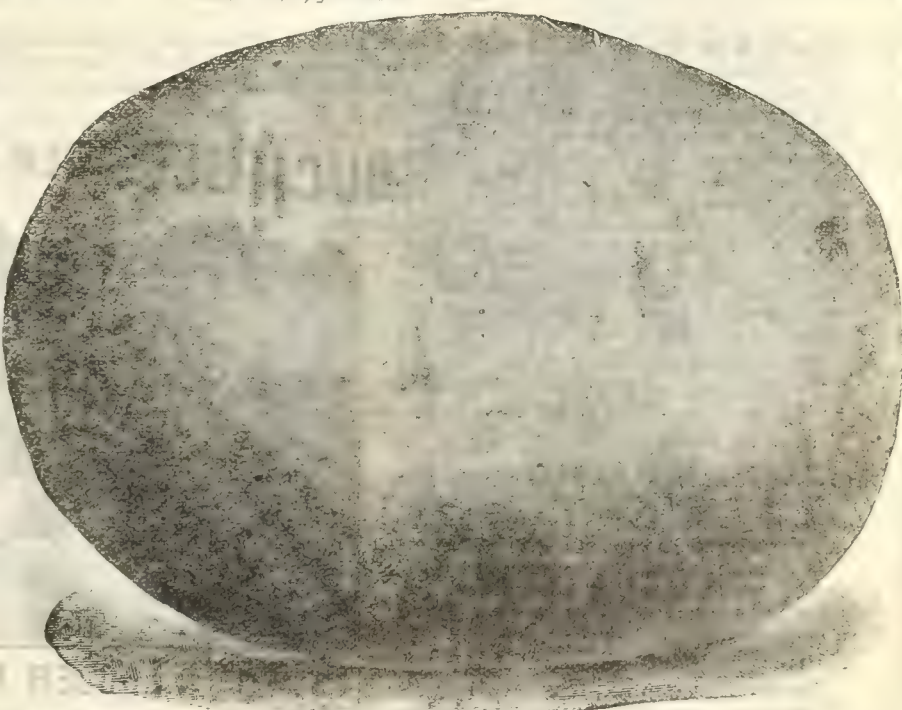

Prices postpaid—1 lb. 30c., 3 lb. 75c. By Express or Freight at buyer's expense— $\frac{1}{4}$ bu. 55c., $\frac{1}{2}$ bu. 85c., 1 bu. \$1.50, $2\frac{1}{2}$ bu. \$3.49.

Irish Cobbler. A chunky, white netted early Potato of splendid quality; flesh cream white; a splendid yielder and specially suited to dry climates on account of its deep roots. Choicest Pedigreed Stock Seed.

Prices postpaid—1 lb. 25c., 3 lbs. 60c. By Express or Freight at buyer's expense— $\frac{1}{4}$ bu. 50c., $\frac{1}{2}$ bu. 80c., 1 bu. \$1.35, $2\frac{1}{2}$ bu. \$3.18.

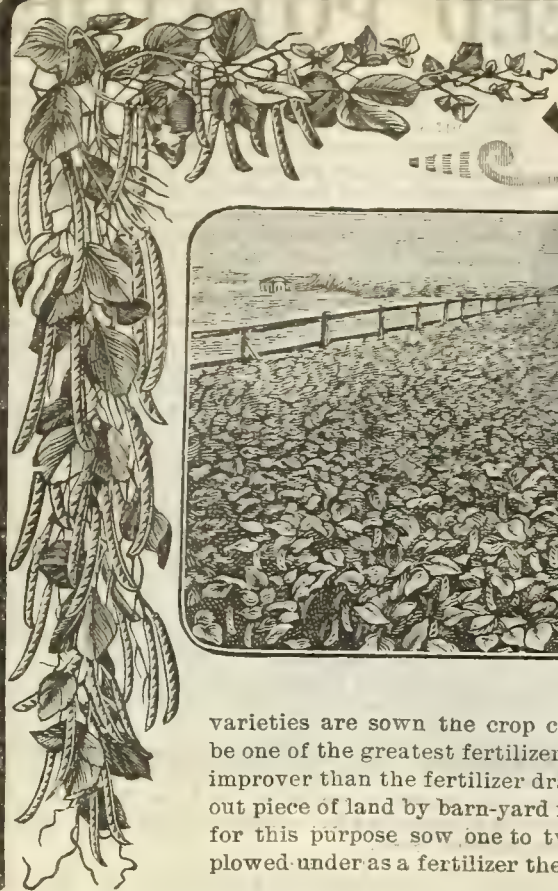

Bliss' Triumph. One of the earliest of all varieties and is the leading early Potato all through the South. The tubers present a handsome appearance being nearly round, smooth, medium in size, reddish pink. Choicest Pedigreed Stock Seed.

Prices postpaid—1 lb. 25c., 3 lbs. 60c. By Express or Freight at buyer's expense— $\frac{1}{4}$ bu. 55c., $\frac{1}{2}$ bu. 85c., 1 bu. \$1.40, $2\frac{1}{2}$ bu. \$3.33.

PRIDE OF THE SOUTH.

A Bushel of Potatoes Weigh 60 Pounds.

BUCKBEE'S NORTHERN GROWN COW PEAS.

THE BEST KNOWN
SOIL ENRICHER

Buckbee's "Full of Life" Northern Grown Cow Peas

These enrich the land until it becomes a veritable gold mine. The Cow Pea was until very recently supposed to be suited only to Southern conditions. Now it has been demonstrated that where suitable

varieties are sown the crop can be grown with entire success in the North. The Cow Pea has proved to be one of the greatest fertilizers of the age; it is richer in fertilizing matter, more lasting, a greater soil improver than the fertilizer drawn from the barn-yard. It will take longer to enrich a thoroughly worn out piece of land by barn-yard manure than by sowing plenty of Cow Peas and plowing them under; and for this purpose sow one to two bushels per acre with a grain drill in drills one foot apart. When plowed under as a fertilizer the plowing should be done when the plants are in full bloom.

Cow Peas, Improved Whippoorwill

—Northern grown and acclimated, a favorite early bunch growing variety, and one of the best and most popular sorts for all climates.

Prices postpaid—20c. per lb.

By Freight or Express at Buyer's Expense— $\frac{1}{8}$ bu. 40c.; $\frac{1}{4}$ bu. 75c.; $\frac{1}{2}$ bu. \$1.40; 1 bu. \$2.75.

Cow Peas, Buckbee's Extra Early

Prolific — Choicest Northern Grown. Admirably suited to any climate or to any soil; very early and a wonderful yielder.

Prices postpaid—25c. per lb.

By Freight or Express at Buyer's Expense— $\frac{1}{8}$ bu. 45c.; $\frac{1}{4}$ bu. 85c.; $\frac{1}{2}$ bu. \$1.60; 1 bu. \$3.00.

Cow Peas, New Era — Choicest

Northern Grown. This new variety will do well under any conditions.

Prices postpaid—25c. per lb.

By Freight or Express at Buyer's Expense— $\frac{1}{8}$ bu. 60c.; $\frac{1}{4}$ bu. \$1.00; $\frac{1}{2}$ bu. \$1.80; 1 bu. \$3.50.

FIELD PEAS

Buckbee's New Early Snowflake Field Peas—Where the winters are not too severe, and in the Southern States these can be sown up to November and December, and covered deeply, come up early in the Spring and grow off rapidly as soon as the weather opens up. They usually make a splendid yield which can be fed green; or they can be admirably cured for hay or dry forage; they also make a good soil improver when turned under like cow peas or clover, but their greatest value is as a forage crop. Sown with Oats gives them a decided advantage as the Oats help to hold the Peas off the ground enabling them to make a better growth, and as both mature together they make a splendid combination of feed, greatly relished and very nutritious for all farm stock.

Prices postpaid—25c. per lb.
By Freight or Express at Buyer's Expense— $\frac{1}{8}$ bu. 35c.; $\frac{1}{4}$ bu. 60c.; $\frac{1}{2}$ bu. \$1.00; 1 bu. \$1.75.

Improved Canada Field Peas—Until the introduction of Buckbee's Snowflake, Canada Field Peas were wide and favorably known and in fact even today in many localities they are a general favorite; while they are not as early or prolific as the Snowflake still they are a good general all purpose Pea.

Prices postpaid—20c. per lb.

By Freight or Express at Buyer's Expense— $\frac{1}{8}$ bu. 25c.; $\frac{1}{4}$ bu. 45c.; $\frac{1}{2}$ bu. 80c.; 1 bu. \$1.50.

BUCKBEE'S NEW EARLY SNOWFLAKE FIELD PEAS

15 TONS FODDER PER ACRE 60 DAYS FROM PLANTING

Buckbee's "Full of Life" WINTER RYE

PERFECTLY HARDY :: LUXURIANT CROPPER :: EXCELLENT FODDER

Buckbee's "Full of Life" Giant Winter Rye. This crop is used all over the country for Fall, Winter and Spring pasturage, early green food, and for green manuring, as well as for grain. It is very hardy and will grow on poorer land than any other grain crops. It is a good Spring soiling crop giving the earliest bite of green stuff and makes a fair quality of hay if cut in bloom or before it is fully headed out. Used for a grain crop its straw makes the best of bedding for cattle and horses and if carefully threshed sells at high prices for collar making and other manufacturing purposes. It is also an excellent green manuring crop for turning under in the early Spring. It is very extensively grown and succeeds well throughout the South. Rye can be very satisfactorily sown at the last working of corn, or it can be sown by itself from July to November. Sow at the rate of $1\frac{1}{2}$ bushels per acre.

Prices postpaid—Per lb. 25c.

By Freight or Express at Buyer's Expense— $\frac{1}{8}$ bu. 35c., $\frac{1}{4}$ bu. 50c., $\frac{1}{2}$ bu. 80c., 1 bu. (56 lbs.) \$1.35.

Buckbee's "Full of Life" Winter Barley. This is a very desirable grain for growing in the South where it is profitably raised for Fall, Winter and Spring grazing; or it may be cut before it heads out as a hay crop. In many sections where it is difficult to grow Timothy and other regular Grasses for Hay the use of Grain crops such as Barley, Rye, Wheat and Oats is very desirable. They all make most nutritious feed and cure up in first class shape to take the place of hay. As Barley stools well out it really makes better Fall, Winter and Spring grazing than either Rye or Wheat. It is so easily grown and succeeds so well throughout the South that it should be much more largely grown than at present. It can be seeded down at the last working of Corn, and as it prevents the washing of soils by Winter rains it is highly prized. Sow $1\frac{1}{2}$ to 2 bushels per acre.

Prices postpaid—per lb. 25c.

By Freight or Express at Buyer's Expense— $\frac{1}{8}$ bu. 40c., $\frac{1}{4}$ bu. 55c., $\frac{1}{2}$ bu. 85c., 1 bu. (48 lbs.) \$1.50.

Soy Beans—Evans' Early Yellow. These should be raised on every farm either as a grazing crop or a fodder crop to feed green. The grain is the RICHEST KNOWN VEGETABLE SUBSTANCE. It produces crops of twenty to thirty bushels per acre and is as easily grown as other Beans. The vines are busy and vigorous and entirely self-supporting. For pasturing or feeding as green fodder it is very valuable and nearly equal to Clover for fertilizing. Thousands are already growing Soy Beans, and in five years they will be as universally grown as Corn. They can be sown broad-cast or drilled at the rate of $1\frac{1}{2}$ bushels per acre; but our experience has been that the most satisfactory results are obtained by planting in rows.

Prices postpaid—25c. per lb.

By Freight or Express at Buyer's Expense— $\frac{1}{8}$ bu. 40c., $\frac{1}{4}$ bu. 75c., $\frac{1}{2}$ bu. \$1.40, 1 bu. (50 lbs.) \$2.75.

Velvet Beans. Nature's Great Soil Restorer. The Velvet Bean is a green manuring and foliage plant that is creating a great sensation in the Southern States where it is disputing for favor with the Cow Peas. The vines grow to a length of from ten to thirty feet and are said to cure in less time than the Cow Pea and to make an equally valuable hay. In two months the under leaves commence to drop and by Fall the mulch is often six to eight inches deep, making it one of the greatest soil improvers known. As fast as these leaves fall they are replaced by new growth, so close and dense as to thoroughly exclude any obnoxious weeds or grasses as well as Johnson or Bermuda Grass. Plant at the rate of $\frac{1}{2}$ bushels to the acre in rows four to five feet apart, dropping two or three Beans one foot apart in the row.

Prices postpaid—25c. per lb.

By Freight or Express at Buyer's Expense— $\frac{1}{8}$ bu. 65c., $\frac{1}{4}$ bu. \$1.15, $\frac{1}{2}$ bu. \$2.00, 1 bu. (56 lbs.) \$3.75.

Speltz, or Emmer. The Valuable New Grain from Russia. Speltz has now been grown in the United States in a large way for several years and each succeeding season not only emphasizes its value but sees its production increasing to an enormous extent. The berry is of the color, texture and hardness of "No. 1 Hard" Spring Wheat, but about twice as long and with pointed ends. Those who have not grown Speltz should not let another season go by without giving it an important place on the farm. The grain grows tall like Rye and matures as early as Barley and each year when tested by the side of each it has yielded twice as much per acre as Oats and three bushels to one of Barley; and it is much better feed for stock than either. It yields from forty to eighty bushels to the acre and from four to six tons of straw hay. Speltz can be sown in the Fall and stand the Winter better than Oats, and the Texas farmer writes that he finished sowing Speltz in the middle of November and during the coldest spell last Winter, although it seemed to be a little damaged on the top it come out all right again. Do not let it stand until it gets too ripe before cutting as any grain that yields well shells easily. Stock of all kinds as well as poultry eat it greedily and flourish on it. Plant about two bushels or 80 lbs. per acre, and cultivate or plow the same as Oats or Wheat. There is no standard weight for Speltz; but the grain in the hull generally weighs about 40 lbs. per bushel, and we sell it at that weight.

Prices Postpaid—25c. per lb.

By Freight or Express at Buyer's Expense— $\frac{1}{8}$ bu. 35c., $\frac{1}{4}$ bu. 55c., $\frac{1}{2}$ bu. 85c., 1 bu. \$1.50.

SOY BEANS

Buckbee's "FULL OF LIFE" Re-Cleaned Grass Seed

Prices on All Farm Seeds Subject to Change Without Notice

PLEASE UNDERSTAND—If prices ARE LOWER the day your order is received, more seed will be added; IF HIGHER, the amount will be decreased. The Safest Way, If you require considerable amounts of Farm Seeds, will be to send me a list of your actual requirements, and I will be pleased to quote you LOWEST MARKET PRICES by return mail.

CRESTED DOG'S TAIL.

Bermuda Grass (*Cynodon Dactylon*.) This is a most valuable perennial pasturage grass all through the South and on rich soils produces good yields of hay; unsurpassed for lawns, forming a dense turf. Sow 8 lbs. per acre. Postpaid—lb. 56c.; 3 lbs. \$1.66. By express or freight at Buyer's expense—5 lbs. \$2.39; 10 lbs. \$4.77.

Creeping Bent Grass (*Agrostis Stolonifera*.) Somewhat resembles Red Top. Does best on wet marshy soils. (14 lbs. per bu.) Postpaid—lb. 34c.; 3 lbs. 99c. By express or freight at Buyer's expense— $\frac{1}{4}$ bu. 67c.; bu. \$2.48.

Crested Dog's Tail (*Cynosurus Cristatus*.) A fine dwarf growing evergreen grass; recommended for dry soils and situations; very hardy and does well on hill-sides. (14 lbs. per bu.) Postpaid—lb. 39c.; 3 lbs. \$1.16. By express or freight at Buyer's expense— $\frac{1}{4}$ bu. 89c.; bu. \$3.34.

English or Perennial Rye Grass (*Lolium Perenne*.) One of the best and most nutritious grasses for permanent meadows and pastures, endures close cropping and recovers quickly after cutting. Does best on strong rich soils. (14 lbs. per bu.) Postpaid—lb. 19c.; 3 lbs. 54c. By express or freight at Buyer's expense— $\frac{1}{4}$ bu. 93c.; bu. \$3.50.

Fowl Meadow Grass (*Poa Gerotina*.) Valuable grass for growing on low, wet lands that are occasionally overflowed. (12 lbs. per bu.) Postpaid—lb. 40c.; 3 lbs. \$1.10. By express or freight at Buyer's expense— $\frac{1}{4}$ bu. 93c.; bu. \$3.50.

Hard Fescue (*Festuca Duriuscula*.) A very useful grass and should be included in all sheep pastures; valuable in permanent mixtures for dry gravelly soils. (12 lbs. per bu.) Postpaid—lb. 21c.; 3 lb. 62c. By express or freight at Buyer's expense— $\frac{1}{4}$ bu. 38c.; bu. \$1.32.

Italian Rye Grass (*Lolium Italicum*.) Highly recommended for Fall seeding.

Very valuable grass yielding two to four cuttings per year of most nutritious hay. (14 lbs. per bu.) Postpaid—lb. 18c.; 3 lbs. 58c. By express or freight at Buyer's expense— $\frac{1}{4}$ bu. 38c.; bu. \$1.09.

Kentucky Blue Grass (*Poa Pratensis*.) Buckbee's Superior. An excellent pasturage and lawn grass; much relished by all kinds of stock and succeeds on a great variety of soils particularly if moist and rich. Sow either in Fall or Spring, using 2 to 3 bu. per acre, if sown by itself. Fancy cleaned seed. (14 lbs. per bu.) Postpaid—lb. 29c.; 3 lb. 86c. By express or freight at Buyer's expense— $\frac{1}{4}$ bu. 73c.; bu. \$2.69.

Meadow Fescue (*Festuca Pratensis*, or **ENGLISH BLUE GRASS**.) One of the best of our natural grasses. Is greedily eaten by all kinds of stock, is very fattening and makes excellent hay. Is very hardy and succeeds in almost all soils. Comes into use very early in the Spring and again late in the Fall. (14 lbs. per bu.) Postpaid—lb. 21c.; 3 lbs. 62c. By express or freight at Buyer's expense— $\frac{1}{4}$ bu. 41c.; bu. \$1.38.

Meadow Foxtail (*Alopecurus Pratensis*.) Closely resembles Timothy but is three to four weeks earlier. It thrives in all soils excepting dry sands or gravel and does best in strong, moist, rich soils. Is highly relished by all kinds of stock, and frequent mowings do not injure it. (10 lbs. per bu.) Postpaid—lb. 35c.; 3 lbs. \$1.00. By express or freight at Buyer's expense— $\frac{1}{4}$ bu. 64c.; bu. \$2.36.

Orchard Grass (*Dactylis Glomerata*.) One of the best and most reliable grasses, of exceptional value for permanent pasture and hay crops. It starts early in the Spring and continues well into the Winter. Should be cut when in bloom and if allowed to stand becomes hard and pithy. Does well on nearly all soils. (14 lbs. per bu.) Postpaid—lb. 24c.; 3 lbs. 71c. By express or freight at Buyer's expense— $\frac{1}{4}$ bu. 59c.; bu. \$2.17.

HARD FESCUE.

Red or Creeping Fescue (*Festuca Rubra*.) A valuable grass for growing on dry pastures, light soils and railroad embankments; of a creeping habit and the roots penetrate so deeply into the soil that it remains green long after other grasses have dried up. (14 lb. per bu.) Postpaid—lb. 30c.; 3 lb. 85c. By express or freight at Buyer's expense— $\frac{1}{4}$ bu. 67c.; bu. \$2.50.

Red Top or Herd's Grass (*Agrostis Vulgaris*.) Buckbee's Superior. Well-known and valuable pasture grass; also makes excellent hay. Thrives well on almost all soils but does best on moist lands. Should be included in all mixtures for seeding down wet or marsh lands. (14 lbs. per bu.) Fancy clean seed. Postpaid—lb. 21c.; 3 lb. 62c. By express or freight at Buyer's expense— $\frac{1}{4}$ bu. 41c.; bu. \$1.39.

ITALIAN RYE GRASS.

MEADOW FESCUE.

MEADOW FOXTAIL.

Buckbee's "Full of Life" Re-Cleaned Grass Seeds

ROUGH STALKED MEADOW GRASS.

Rough Stalked Meadow Grass (*Poa Trivialis*.) An excellent grass for deep moist meadows and stiff heavy clays. (14 lbs. per bu.) Postpaid—lb. 41c.; 3 lb. \$1.22. By express or freight at Buyer's expense— $\frac{1}{4}$ bu. \$1.09; bu. \$4.19.

Sheep's Fescue (*Festuca Ovina*.) This grass should form a large part of all mixtures intended for sheep grazing on high upland or dry pastures. It roots deeply and forms dense short turf of fine nutritive qualities and is not easily affected by drought. (12 lbs. per bu.) Postpaid—lb. 21c.; 3 lb. 62c. By express or freight at Buyer's expense— $\frac{1}{4}$ bu. 38c.; bu. \$1.32.

Sweet Vernal Grass, True Annual (*Anthoxanthum Odorum*.) Valuable on account of the rich perfume it imparts to the hay when drying. (14 lbs. per bu.) Postpaid—lb. 21c.; 3 lb. 62c. By express or freight at Buyer's expense— $\frac{1}{4}$ bu. 44c.; bu. \$1.54.

Tall Fescue (*Festuca Elatior*.) A tall-growing grass particularly adapted for strong clay and wet lands, stands over-flowing and should be in all mixtures intended for marshes and wet lands. It is much relished by stock and makes an excellent hay. (14 lbs. per bu.) Postpaid—lb. 35c.; 3 lb. \$1.00. By express or freight at Buyer's expense— $\frac{1}{4}$ bu. 96c.; bu. \$3.64.

Tall Meadow Oat Grass (*Avena Elatior*.) Very early and a luxuriant grower; produces a large quantity of early and late growth which allows it to be cut frequently. (14 lbs. per bu.) Postpaid—lb. 28c.; 3 lb. 83c. By express or freight at Buyer's expense— $\frac{1}{4}$ bu. 68c.; bu. \$2.52.

Water or Floating Meadow Grass (*Glyceria Fluitans*.) An invaluable grass for wet soils and marshes and lands which occasionally overflow. (14 lbs. per bu.) Postpaid—lb. 40c.; 3 lbs. \$1.10. By express or freight at Buyer's expense— $\frac{1}{4}$ bu. \$1.11; bu. \$4.25.

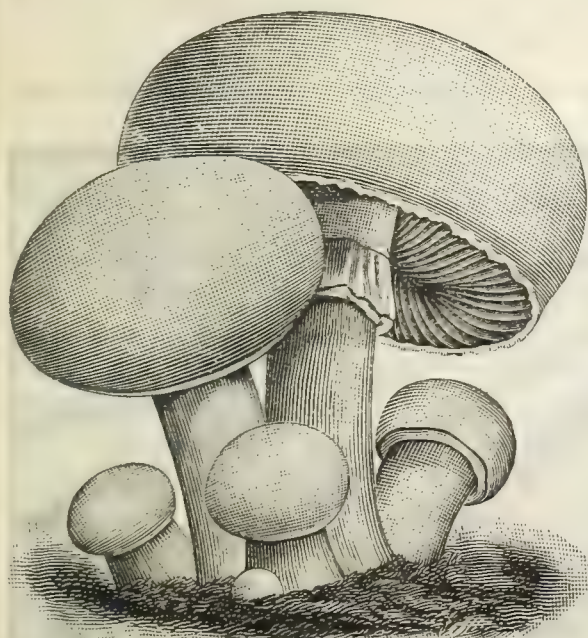

Wood Meadow Grass (*Poa Nemoralis*.) A variety growing naturally in shady places and moist, rich soils. The herbage is succulent and much relished by cattle; forms a close sod and should be sown in all shady places in lawn, etc. (14 lbs. per bu.) Postpaid—lb. 41c.; 3 lbs. \$1.24. By express or freight at Buyer's expense— $\frac{1}{4}$ bu. \$1.09; bu. \$4.17.

BUCKBEE'S SURE CROP MUSHROOMS

HIGH GRADE, PEDIGREED, VIRGIN SPAWN

GROWING MUSHROOMS IS NOT DIFFICULT

Get Reliable Spawn, Start Right and the Results are Certain and Profitable

BUCKBEE'S SURE CROP MUSHROOMS.

A Pound of Mushroom Spawn Will Plant 8 Square Feet of Prepared Bed

To those unfamiliar with the growing of **Mushrooms** the mere mention of the name seems to convey the idea that there is some mystery connected with it and that the process and equipment are so costly as to be out of reach of ordinary mortals. Never was there such a fallacy, and it is the "Professionals" and "Experts" who are to blame for putting such ridiculous and foolish notions into people's heads. Any one who starts right can grow **Mushrooms** successfully. He must know how to prepare the beds, where to locate them and how to take care of the crop. But the grower of Radishes or Melons must know that much about the crops he expects to raise. So that after all there is no more mystery or difficulty in successfully growing **Mushrooms** than there is in growing Radishes or Melons.

Buckbee's High Grade English Spawn. Comes in pressed bricks weighing a pound or more. Price, postpaid—lb. 25c.; 5 lbs. \$1.00. Not prepaid—lb. 15c.; 5 lbs. \$1.00; 25 lbs. \$2.25; 100 lbs. \$7.25.

Best French Spawn. Put up in boxes of two pounds each. Price, per box, prepaid, 90c. Not prepaid, 70c. The same loose, per lb., prepaid, 40c. Not prepaid, 30c.

Buckbee's Sure Crop Mushroom Spawn. Postpaid: lb. 33c.; 5 lbs. \$1.50. Not prepaid: lb. 23c.; 5 lbs. \$1.00; 25 lbs. \$4.00; 100 lbs. \$12.50.

I FURNISH EVERY BUYER OF MUSHROOM SPAWN WITH EXPLICIT DIRECTIONS FOR GROWING.
IF THEY ARE FOLLOWED THERE IS NOTHING SO CERTAIN AS BIG SUCCESS.

Buckbee's "Full of Life" Grass and Clover Seed Mixtures

Yield 50 to 100 per cent. more Hay and Grazing than sowing one or two Grasses or Clover alone

All authorities agree that for Pasture and Hay best results are obtained from the use of Grass Seeds IN MIXTURE. The advantage of sowing Grasses and Clover Seeds in mixtures has long been recognized and the practice is increasing to a very remarkable extent all over the country. The reasons are obvious: First—A number of species will insure a much denser growth than the same number of seeds of one or two species, and prove less exhausting to the soil, since they live to a great extent on different constituents. Second—Seasons that effect some Grasses adversely are favorable to other sorts; so that with Mixtures failure is practically impossible provided, of course, the seed is good. We have in the following Mixtures a combination of Grasses suitable for the various soils and uses for which they are recommended. In all of our Grass Mixtures we take great pains in selecting the very best seeds only. We pride ourselves in having the most up-to-date methods of thoroughly testing our seeds in our testing house, and every variety must show not only a high germination but must be of a strong and vigorous growth, while the quality and purity of the seeds are given our most careful consideration.

EXTRA GRASS AND CLOVER MIXTURES FOR MEADOWS

Can be Mowed for Hay and also Grazed

MIXTURE No. 1—For Light, Rich Soils

Tall Meadow Oat Grass Timothy
Kentucky Blue Grass Italian Rye Grass
Orchard Grass Alsike Clover
Meadow Foxtail Red Clover
English Blue Grass English Rye Grass

Sow $1\frac{1}{2}$ bu. to 2 bu. per acre.

Price by freight or express at Buyer's expense—\$1.74 per bu. (of 14 lbs.)

MIXTURE No. 2—For Rich, Moist Soils

Meadow Foxtail Creeping Bent
Meadow Fescue Alsike
Rough Stalked Meadow Red Top
Orchard Grass English Blue Grass
Crested Dog's Tail

Sow $1\frac{1}{2}$ to 2 bu. per acre.

Price, by freight or express at Buyer's expense—\$1.98 per bu. (of 14 lbs.)

MIXTURE No. 3—For Wet Soils

Creeping Bent Fowl Meadow
Tall Fescue Timothy
Red Top Alsike Clover
Rough Stalked Meadow Floating Meadow
White Clover

Sow $1\frac{1}{2}$ to 2 bu. per acre.

Price, by freight or express at Buyer's expense—\$1.97 per bu. (of 14 lbs.)

OUR EXTRA MIXTURES FOR PERMANENT PASTURE—Can be Mown

MIXTURE No. 4—For Rich, Dry Soils

Meadow Foxtail Blue Grass
Orchard Grass English Rye Grass
Sweet Vernal Italian Rye Grass
Meadow Fescue White Clover
Crested Dog's Tail Red Clover
Timothy Alsike Clover

Sow $1\frac{1}{2}$ to 2 bu. per acre.

Price, by freight or express at Buyer's expense—\$1.73 per bu. (of 14 lbs.)

MIXTURE No. 6—For Wet Soils

Creeping Bent Tall Fescue
Red Top Roughed Stalked Meadow
Floating Meadow Timothy
Alsike Fowl Meadow

Sow $1\frac{1}{2}$ to 2 bu. per acre.

Price, by freight or express at Buyer's expense—\$1.96 per bu. (of 14 lbs.)

MIXTURE No. 5—For Rich, Moist Soils

Meadow Foxtail Wood Meadow
Hard Fescue Red Top
Orchard Grass Crested Dog's Tail
English Rye Grass Tall Fescue
Italian Rye Grass Red Clover
Rough Stalked Meadow Alsike

Sow $1\frac{1}{2}$ to 2 bu. per acre.

Price, by freight or express at Buyer's expense—\$1.99 per bu. (of 14 lbs.)

MIXTURE No. 7—For Orchard and Shade

This Mixture contains sorts adapted for Orchards and Shady Places. An admirable permanent pasture Mixture, but will also yield large crops of Hay.

Sow $1\frac{1}{2}$ to 2 bu. per acre.

Price, by freight or express at Buyer's expense—\$1.95 per bu. (of 14 lbs.)

THE RESULT OF PLANTING **BUCKBEE'S GRASS SEED MIXTURES**

Buckbee's "Full of Life" OATS

FOR FALL PLANTING

Red Rust Proof Oats.

Improved Winter Turf Oats. This is undoubtedly one of the best all round Oats for planting in the Fall as they afford a valuable pasture the greater part of the Winter and early Spring, thus reducing the quantity of other necessary food. Their growth on any piece of land prevents washing and loss of much valuable plant food. They may be harvested early enough in the Spring for other crops to follow. The stubble of such a crop plowed in is of great value to the land. This variety spreads and stools out enormously, especially when grazed, and if stock be taken off by March will yield a large crop of grain. This is a very popular Oat in the South especially on the light sandy soils of the coast region. It is also preferred for low ground or in situations where other Oats are much inclined to rust. Prices, postpaid—Lb. 20c.; 3 lb. 50c. By express or freight at Buyer's expense— $\frac{1}{4}$ bu. 35c.; $\frac{1}{2}$ bu. 60c.; bu. \$1.10. In 5 bu. lots and over \$1.05 per bu.

Texas Red Rust-Proof Oats. A standard favorite not only in Texas from which it derives its name; but all through the Southern States. The Texas grown Oat is a very heavy berry, nearly every one has a distinctive beard. One peculiarity about it is that the color varies owing to the seasons. It should be planted on strong soil which should be broken deeply. Prices, postpaid—lb. 20c.; 3 lb. 50c. By express or freight at Buyer's expense— $\frac{1}{4}$ bu. 35c.; $\frac{1}{2}$ bu. 65c.; bu. \$1.20. In 5 bu. lots and over \$1.10 per bu.

Tennessee or Virginia Gray Winter Oats. This has proved immensely popular and satisfactory wherever it has been grown. While it is a standard variety in the above named States, and where it is claimed there is easily ten times as much grown as any other variety, yet it is not so well known or so largely grown in other large Southern States as it should be. We strongly recommend our farmers in the South to sow it more extensively, as for Fall seeding, with favorable weather conditions it will yield much better and make much more satisfactory crops, than other varieties usually sown in the South. When sown early and the roots thoroughly established in the soil, it is as hardy as Wheat and will stand as much cold as that crop. It makes a good growth before Winter sets in and furnishes excellent grazing during the late Fall and Winter and early Spring without injury to the grain crop afterwards. Its stooling propensities are remarkable and if the weather conditions are anyways favorable it soon spreads and covers the ground with a thick heavy growth. The yield of grain is large and from fifty to seventy bushels per acre can reasonably be expected on good soil; while on very rich land it has yielded over 100 bushels per acre. The grain is of a dark gray color with a distinct stripe and weighs heavier than the ordinary Oat. While it is better to sow this variety in August and September it is frequently seeded as late as the middle of November. Prices, postpaid—Lb. 20c.; 3 lb. 50c. By express or freight at Buyer's expense— $\frac{1}{4}$ bu. 35c.; $\frac{1}{2}$ bu. 60c.; bu. \$1.10. In 5 bu. lots and over \$1.05 per bu.

Appler Oats (The New Southern Winter Oat). Reports from certain sections would indicate that this is the earliest, heaviest and most prolific Winter Oat. It makes a strong growing straw with bunchy heads of heavy grain; and in the opinion of some enthusiasts is destined to supercede very largely the Tennessee or Virginia Gray Winter wherever it is grown. It is the most resistant variety to rust that is grown in the South. When grown in good land the grain is very large, red in color and will frequently weigh as much as 36 to 38 lbs. to the measured bushel. Fall is undoubtedly the best time to plant this variety, and all who have grown it pronounce it unquestionably the best and most reliable Winter Oats for the South. At harvest time a field of more than fifty acres of these Oats presented a magnificent sight and was pronounced by all who saw it one of the finest fields of Oats that was ever grown. We offer the true Appler Oat. Prices, postpaid—Lb. 20c.; 3 lb. 50c. By express or freight at Buyer's expense— $\frac{1}{4}$ bu. 35c.; $\frac{1}{2}$ bu. 65c.; bu. \$1.20. In 5 bu. lots and over \$1.10 per bu.

All the above Oats should be sown at the rate of $1\frac{1}{2}$ to 2 bu. per acre, and are sold at 32 lbs. per bu.

The following unsolicited testimonials were taken at random to fill this space and we have thousands of such from every State in the Union as well as from the Phillipine Islands, Canada, China, South America, Africa, Denmark, etc., etc.

MR. J. W. WINTER, Orange City, Volusia Co., Florida, writes January 11th, 1908: Mr. H. W. Buckbee, Sir—Find enclosed a money order for the following Seeds. Those I got so far have given good results and neighbors are delighted with my Peas and Cabbage. I send for several of them now as well as for myself.

MR. AUGUST C. HEISLER, Cape Girardeau, Mo., in sending his order writes as follows: Feb. 19th, 1908. I can highly recommend your Extra Early Large New Queen Cabbage; it is the best Cabbage that ever grew; its heads are large, sound and solid. Your Beefsteak Tomato is a fine variety. I had some Tomatoes as large as a saucer. BUCKBEE'S SEEDS ARE "FULL OF LIFE."

MR. W. W. PARTNEY, Woodbine, Cooke Co., Texas, writes Feb. 26th, 1908: I want to say I am well pleased with the results growing garden stuff from Buckbee's Seeds and I consider your Early Race Horse Cabbage the best, crispest, sweetest early Cabbage grown, and I have tried a great many kinds in 1907, but BUCKBEE'S RACE HORSE beats them all by ten days to two weeks—it is a world beater for early market and those who plant for market will make no mistake in growing it largely and to the exclusion of every other variety.

MRS. A. W. HUMPHREY, 95 Innis Ave., Columbus, Ohio, writes February 25th, 1908: Enclosed you will find my order for Seeds. I have used your Seeds for a number of years and have always found them just as represented.

BUCKBEE'S WONDERFUL DWARF BONANZA RAPE

THE BEST RAPE ON EARTH FOR CATTLE AND SHEEP Buckbee's "Full of Life" RAPE.

It has always been a wonder to us why Rape has not been sown far more extensively than it has been. There are millions of acres of good land that lie idle part or all of the year to run to weeds that can be sowed to this Rape and produce the finest feed imaginable and at the same time improve the fertility of the soil.

Buckbee's Wonderful Dwarf Bonanza Rape. Professor Shaw of the Minnesota Agricultural College says: "On fifty-four acres rape after Winter Rye had been removed, 537 Sheep and Lambs were fattened thereon; 18 Seers fed thereon for 59 days; and several acres were uneaten when Winter set in. Further one acre of Rape will pasture 10 to 16 lambs, 2 to 2½ months when Rye has preceded it. When sown alone it will pasture 36 head for two months. That the lowest average gain on lambs fed on Rape alone is 7 to 8 lbs. per month." There is a great need of Rape especially in the Fall of the year when the Corn has been harvested and just before the setting in of Winter. Farmers are obliged to depend solely on their pastures to feed their stock. Now after the pastures give out they must begin feeding their hay. Buckbee's Dwarf Bonanza Rape does away with all this and gives a luxuriant pasture and a tremendous yield during the months when it is so greatly needed. Sown in July, August, or early in September it makes large yielding nutritious succulent pasturage all through the Fall, Winter and early Spring. The fattening properties of Rape are said to be much better than those of clover, and it makes a first class crop either for sowing alone or for sowing with crimson clover, particularly where it is desired to graze the crop in the Fall and Winter. Dwarf Bonanza Rape is easily grown, perfectly hardy, and possesses remarkable fattening qualities. It does well sown with Oats. If the soil is rich and clean sow broad-cast; if not clean sow in drills and cultivate as for Corn. Rape is especially adapted for a catch crop, succeeding when from any cause the other crops have failed. When sown broad-cast use 5 lbs. and if in drills 2 lbs. to the acre.

Price postpaid—1 lb. 35c. By Express or Freight at buyer's expense—5 lbs. 74c., 10 lbs. \$1.14, 50 lbs. \$4.37, 100 lbs. \$8.19.

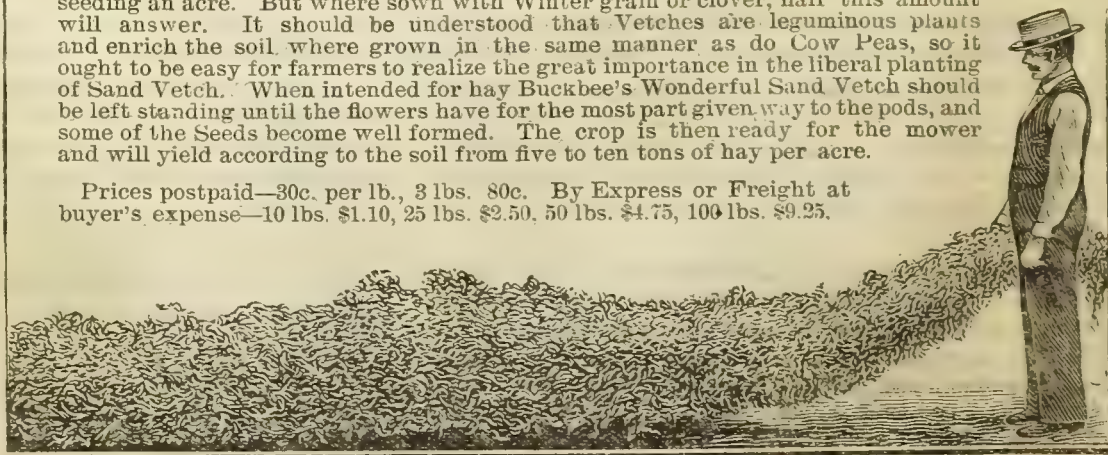

Dwarf Essex Rape. This variety also makes a splendid Fall, Winter and Spring pasturage. Is a standard variety and favorably known wherever planted. Tens of thousands of farmers have used Dwarf Essex Rape for years and years but the hundreds of unsolicited testimonials we have received regarding Buckbee's Dwarf Bonanza Rape would indicate that our new introduction is fast supplanting the good old Dwarf Essex Rape variety.

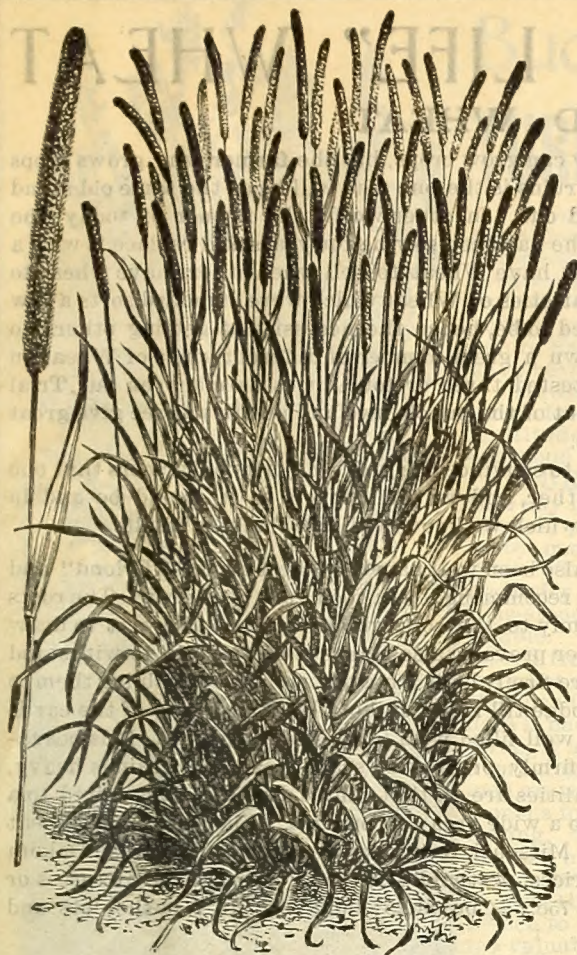

Prices of our True Dwarf Essex Rape postpaid—1 lb. 29c. By Express or Freight at buyer's expense—5 lbs. 57c., 10 lbs. 96c., 50 lbs. \$3.39, 100 lbs. \$6.44.

Buckbee's Great Sand Vetch. (*Vicia Villosa*). Also called Winter Vetch or Hairy Vetch. Several species of Vetches are grown but this is the best and may be planted in the Fall of the year with positive assurance of success. Hairy or Sand Vetch is the True Winter Vetch and takes the place in Winter that Cow Peas do in Summer. It is perfectly hardy in all parts of the country remaining green all Winter, and maturing fully four weeks earlier than scarlet clover. The proper time to sow is from August to November, depending, of course, upon the locality where the Seed is to be planted, and care should be taken to avoid hot dry weather. It is a great stooler. If sown in rows it will soon cover the ground as a complete net work furnishing a tremendous amount of luxuriant fodder. Every dairyman and stock breeder in the United States should have a field of it and if you try it once you will never be a season without it. If sown by itself for the production of hay or fertilizing the soil it should be prepared as though you were going to sow Wheat or Oats, and 30 to 40 lbs. should be used in seeding an acre. But where sown with Winter grain or clover, half this amount will answer. It should be understood that Vetches are leguminous plants and enrich the soil where grown in the same manner as do Cow Peas, so it ought to be easy for farmers to realize the great importance in the liberal planting of Sand Vetch. When intended for hay Buckbee's Wonderful Sand Vetch should be left standing until the flowers have for the most part given way to the pods, and some of the Seeds become well formed. The crop is then ready for the mower and will yield according to the soil from five to ten tons of hay per acre.

Prices postpaid—30c. per lb., 3 lbs. 80c. By Express or Freight at buyer's expense—10 lbs. \$1.10, 25 lbs. \$2.50, 50 lbs. \$4.75, 100 lbs. \$9.25.

TIMOTHY.

BUCKBEE'S "Full of Life" TIMOTHY

Timothy hay always commands the highest price and is considered the standard. The soil best adapted to Timothy is a rich loam and it does not seem to succeed very well on thin or sandy soil. The soil that is sown to Timothy should be thoroughly prepared before seeding. It can be sown either in the Spring or Fall. In the South the Fall of the year is unquestionably the best time to sow Timothy seed. Timothy can be sown alone or with red clover, and in either case on the right sort of land yields immensely. Sow 12 to 15 lbs. to the acre and cut when flowering. (45 lbs. per bu.) My special low prices for Fancy Re-cleaned Seed are: lb. 20c.; 3 lb. 50c. By express or freight at Buyer's expense— $\frac{1}{4}$ bu. 70c.; $\frac{1}{2}$ bu. \$1.30; bu. \$2.50.

CLOVERS

Medium Red or June Clover (*Trifolium Pratense*). My seed is carefully grown and selected for seed purposes. There is none better if as good. Makes heavy crops of green feed or hay and is a splendid improver of soil. Sow 10 to 14 lbs. per acre. (60 lbs. per bu.) Prices, postpaid—Lb. 30c.; 3 lbs. 85c. At Buyer's expense— $\frac{1}{4}$ bu. \$2.85; $\frac{1}{2}$ bu. \$5.60; bu. \$11.10.

Mammoth Red Clover (*Trifolium Pratense Perenne*). Often called English or Sapling Clover. A selection from above and different from it in that it is two or three weeks later and makes a much heavier growth. Valuable for hog pastures and for plowing under as a fertilizer. Sow 15 lbs. per acre. (60 lbs. per bu.) Prices, postpaid—Lb. 30c.; 3 lbs. 85c. At Buyer's expense— $\frac{1}{4}$ bu. \$2.90; $\frac{1}{2}$ bu. \$5.70; bu. \$11.35.

White Bokhara Clover (*Melilotus Alba*). Sometimes called Sweet Clover. The great Clover for bees. This is a perennial Clover, widely distributed over a large area of the United States. It is perfectly hardy and may be sown according to locality most any month in the year; in the South, October, November, also February and March are good months to sow. Sow 10 lbs. per acre. (60 lbs. per bu.) Postpaid—Lb. 35c.; 3 lb. \$1.00. At Buyer's expense— $\frac{1}{8}$ bu. \$1.85; $\frac{1}{4}$ bu. \$3.60; $\frac{1}{2}$ bu. \$7.10; bu. \$14.00.

White Clover (*Trifolium Repens*). Valuable Clover for sowing in lands intended for pasture. Will do well in almost all kinds of soil except where it is wet or moist. Sow 6 lbs. to the acre. (60 lbs. per bu.) Prices, postpaid—Lb. 30c.; 3 lb. 80c. At Buyer's expense—5 lb. \$1.05; 10 lbs. \$1.95.

Sand Lucerne (*Medicago Media*). Especially adapted to sandy soils; largely used in Europe. Sow 12 to 14 lbs. per acre. (60 lbs. per bu.) Prices, postpaid—Lb. 35c.; 3 lb. \$1.00. At Buyer's expense— $\frac{1}{8}$ bu. \$1.75; $\frac{1}{4}$ bu. \$3.25; $\frac{1}{2}$ bu. \$6.25; bu. \$12.00.

Yellow Trefoil (*Medicago Lupulina*). Allied to common Red Clover. Valuable for dry, sandy or poor soil. Sow 12 to 14 lbs. per acre. (60 lbs. per bu.) Postpaid—Lb. 30c.; 3 lb. 80c. At Buyer's expense— $\frac{1}{8}$ bu. \$1.25; $\frac{1}{4}$ bu. \$2.25; $\frac{1}{2}$ bu. \$4.00; bu. \$7.50.

BROMUS INERMIS

Acknowledged King of the Deserts and Dry Sandy Soils

Lots of Early Spring and Late Fall Feed, Besides Good Crop of Hay

This highly useful grass grows to a height of three feet, and sometimes five feet. A native of Hungary, it has done remarkably well in America, especially on dry, arid soils, where its drought-resisting qualities are shown to wonderful advantage. A hardy perennial, it is well adapted to cold climates and exposed situations. Produces satisfactory crops on land too poor for Timothy and other grasses. Tried widely, it has been endorsed everywhere, and is pronounced a great boon to farmers because

IT PAYS ON ANY GROUND.

The South Dakota Experiment Station, of Brookings, says: "This is the best grass that has yet been tried at this station. When properly sown it catches well, giving a good sod the first year; in favorable seasons a fair yield of hay may also be obtained. Up to the present the best results have been obtained by sowing plenty of seed on well-prepared ground as early as possible in the Spring. From two to two and one-half bushels should be sown to the acre, depending somewhat upon the season and condition of soil. The forage, though coarse, is of excellent quality, and under ordinary circumstances a large amount of early Spring and Fall feed may be obtained, in addition to a good yield of hay. Thus far the grass has endured drought perfectly, and has never winter-killed in the least. It does well sown with clover or with clover and timothy. Use twenty pounds to the acre if alone; if with alfalfa, fifteen pounds—they will grow well together. It may be sown in the Fall with Winter wheat, or in the Spring. Cut when first coming into bloom." A standard bushel weighs 14 lbs. Choicest Northern-grown stock seed, postpaid— $\frac{1}{4}$ lb. 15c.; lb. 25c. At Buyer's expense, $\frac{1}{8}$ bu. 50c.; $\frac{1}{4}$ bu. 75c.; $\frac{1}{2}$ bu. \$1.25; bu. \$2.00; 5 bu. or more \$1.75 per bu.

BROMUS INERMIS.

BUCKBEE'S "FULL OF LIFE" WHEAT

SEED WHEAT

Under favorable conditions anybody can grow crops, but the farmer who grows crops when the Winter destroys and drought ruins is the one who will be at the same old stand when others are gradually being pushed out. In other words the farmer of today who will discard the old varieties of Wheat he has been sowing for years and replace it with a first class article of sterling merit will have Wheat to sell when others have wheat to buy. This is absolutely true. Many varieties of Wheat which were standard sorts a few years ago are not so reliable as they used to be, hence the necessity of getting others to take their place. While we have grown a great number of different kinds of Wheat on our Rockford Seed Farms we have tested three or four times as many on our Trial Grounds and are glad to report that out of the bunch, two and possibly three give great promise of usefulness in the Wheat line.

It is very true, it will be impossible to convince the great majority of farmers that one variety of our Wheat is better than another, and we think this is as it should be and in this page we are offering the following which we know will give the best results.

Dakota Reliable. This Wheat has also been well named "The Farmers' Friend" and "The Millers' Choice" and we highly recommend it as a good variety to grow. The roots are largely developed and hold firmly to the soil, which fact also allows it to draw food from the soil should dry weather prevail; also makes it better able to withstand attacks from insects. The stalks are firmly built from the ground up enabling them to withstand storms and they do not lodge till ripe. Dakota Reliable is one of the earliest; heads are large, compact and well filled with large size red grains. It is beardless, with red chaff and holds grain firmly, preventing scattering. The grain is heavy, plump and sound and its milling qualities are all that can be desired. It is suited to a great variety of soils and adapted to a wide area of country. Where an early Wheat is required as in Kansas, Arkansas, Missouri, Kentucky, Tennessee, Virginia, Dakota Reliable is the Wheat to sow. Prices, postpaid—Lb. 25c.; 3 lb. 60c. By express or freight at Buyer's expense— $\frac{1}{4}$ bu. 75c.; $\frac{1}{2}$ bu. \$1.25; bu. \$2.00. In 5 bushel lots and over at \$1.90 per bushel.

Harvest King. A decidedly popular variety. Is very hardy; vigorous growth; great stooling propensities, and for productiveness and good milling qualities it has few equals. It is not liable to blight or rust; the straw is large and stiff and if blown down by a hard storm will not break but head and regain its upright position after the sun shines. Heads are smooth, large and compact and the grain is heavy. Prices, postpaid—Lb. 20c.; 3 lb. 50c. By express or freight at Buyer's expense— $\frac{1}{4}$ bu. 60c.; $\frac{1}{2}$ bu. \$1.00; bu. \$1.75. In 5 bushel lots and over, \$1.70 per bushel.

Red Wonder. A most valuable bearded variety and is adapted to a great many soils. It can be depended upon for an abundant yield even in unfavorable seasons. It grows a little above medium height; straw jointed and stocky. The straw is very strong at base of head which accounts in a great measure for its ability to withstand storms without lodging. It has large flinty grain and taking it altogether is an exceedingly handsome grain. Prices, postpaid—Lb. 20c.; 3 lb. 50c. By express or freight at Buyer's expense— $\frac{1}{4}$ bu. 50c.; $\frac{1}{2}$ bu. 90c.; bu. \$1.60. In 5 bu. lots and over, \$1.50 per bu.

SPRING VETCHES

(Vicia Sativa). Known also as Winter Vetch and Oregon Winter Vetch. This type of Vetch is much like Hairy Vetches in character of growth and used for the same purposes. It is not so hardy or resistant to cold weather, but in certain sections of the South where the Winters are mild it is used in preference to the Hairy Vetch. The seeds of Spring Vetches are much larger than the Hairy Vetch, not so round, being more flat and a lighter shade of color. They are planted both in the Fall and early Spring either by themselves or in connection with Winter grain or clovers. The same general directions given for Hairy Vetch will answer for Spring Vetches. Prices, postpaid—Lb. 20c.; 3 lbs. 50c. By express or freight at Buyer's expense—10 lb. 75c.; 25 lbs. \$1.60; 50 lbs. \$3.00; 100 lbs. \$5.00.

The following unsolicited testimonials were taken at random to fill this space, and we have thousands of such from every State in the Union as well as from the Philippine Islands, Canada, China, South America, Africa, Denmark, etc., etc.

MR. C. L. KNIGHT, 58th and Cleveland Ave., Kansas City, Mo., in sending his order April the 24th, 1908, writes as follows: The seeds purchased of you last year were exactly as represented and every seed grew. I had the best garden in this section. Many thanks for the new varieties sent with my order.

MR. VELNA CRISTY, Western Grove, Newton Co., Arkansas, writes April the 3d, 1908, as follows: I received my Grass Seeds all O. K. They are the finest I ever saw and everyone that sees them thinks so too, as they are so free from trash. Thank you for the many trial packages you sent me, all Seeds I have planted are up and doing fine. Buckbee's Seeds are true to name.

H. A. ZIMMERMAN, Mt. Ida, Montgomery Co., Ark., writes May 3d, 1908: I enclose Postoffice Order, also Order Sheet. In justice to yourself and the kind of Seed you furnish I wish to say I have bought Seed from a very large number of Seed houses throughout the United States and find your Seeds far superior to others. You may use this as a testimonial if you wish.

MRS. HENRIETTA A. W. BAYARD, 49 Walnut St., Huntington, Ind., in sending in her fifth order for the season on April the 25th, 1908, says: You have been prompt in sending my other orders, and I know where to send for good Seeds and plants. I have everything come in good growing condition. My last order was fine so now I come again for more Seeds.

Buckbee's "Full of Life" Alfalfa

(Medicago Sativa Var. Turkestanica.)

TURKESTAN ALFALFA

Perfectly Hardy. Withstands Heat, Drought and Cold.
Yields the Heaviest and Richest Crops of Fodder.
The Best Clover for Permanent Hay and Pasture.

After years of tireless research and practical experience in the raising of Alfalfa for the different purposes for which it is used it is little wonder we are looked to as an acknowledged authority on all points pertaining to this wonderful plant; and it is with the greatest pleasure and confidence that we now cheerfully and heartily give the benefit of our vast experience to those who desire reliable and unquestioned information. Thousands of articles have been written and countless numbers of lectures have been delivered before Farmers' Institutes and other influential organizations all of which undoubtedly have been the means of doing a great deal of good.

However, notwithstanding all that has been accomplished along these lines it still seems from the great number of inquiries we are daily receiving that not only has a vast multitude of planters yet to be reached, but that more or less mystery which appears to enshroud the Alfalfa seeding question must be dispelled without delay.

TURKESTAN ALFALFA will succeed and do well on any good loamy soil, or in fact any land that is sweet enough to produce good red clover will usually (though not always) produce a good crop of Alfalfa; however, if the land is not rolling so that the water can pass off readily, it must be well drained as a sub-soil, too wet, is fatal to the plant. To obtain good stands and good crops too much emphasis cannot be placed on the necessity of having the ground **THOROUGHLY** prepared. If you are not located in the lime-stone regions an application of two hundred pounds of lime to the acre is very desirable. The climate of Turkestan is not unlike that of our interior states being far removed from the ocean and surrounded by wide expanses of dry land. The Summers are very hot and long, and in many places the evaporation exceeds the quantity of moisture that has fallen during the year, and here it is that Alfalfa grows and flourishes. Not only does it endure extreme cold and drought but excellent crops of it have been raised on strongly alkaline soils. Sown alongside common Alfalfa the Turkestan made a top growth averaging eighteen inches in height with corresponding long root growth, while the common grew only a few inches high. August, September and October are the three best months for seeding Alfalfa, although, of course, it can be sown with good results in the Spring. The land should be prepared by either plowing or discing, making a good seed-bed and having it seem firm rather than too loose. Alfalfa should always be cut when just commencing to bloom, whether the plants are large or small. If the Seed is allowed to form the growth of the plant ceases. Alfalfa is usually sown broad-cast at the rate of fifteen to twenty pounds per acre. It should not be grazed during the first year, as it is too valuable a hay-producer to risk injury from stock. Turkestan Alfalfa ranks higher than Timothy hay in feeding value. Experiment stations place the feeding value of Alfalfa hay at twenty dollars per ton as against Timothy hay at twelve dollars per ton. Cut and cured for hay it is the greatest money-maker known, averaging over forty dollars per acre clear profit and can be cut three or four times in a season. Our seed is of the highest grade, Northern grown on new land, and is of strong and vigorous germination, and will conform to any Pure Seed Law both as to purity and germination.

Prices Postpaid—Pkt. 10c.; 1 lb. 40c.; 3 lbs. \$1.10.

At Buyer's Expense— $\frac{1}{8}$ bu. \$1.65; $\frac{1}{4}$ bu. \$3.00; $\frac{1}{2}$ bu. \$5.95; 1 bu. (of 60 lbs.) \$11.85.

ALFALFA OR LUCERNE (*Medicago Sativa*)

Until the introduction of Turkestan Alfalfa this is the variety that was in general use, and although on the whole it has given general satisfaction, once the Turkestan has been tried in any given locality very few would care to plant the old sort, and it is only a question of time when it will be entirely replaced by its new and more formidable opponent, and the difference in price cuts no figure compared with increased crops.

Prices for Northern Grown Seed on new land, Postpaid—Pkt. 10c.; 1 lb. 35c.; 3 lbs. \$1.00.

At Buyer's Expense— $\frac{1}{8}$ bu. \$1.45; $\frac{1}{4}$ bu. \$2.80; $\frac{1}{2}$ bu. \$5.55; 1 bu. (of 60 lbs.) \$10.90.

CRIMSON CLOVER (*Trifolium Incarnatum* or *Giant Incarnate*)

THIS FINE CLOVER is one of the most valuable Fall crops the farmer can put in as it will make the earliest green feed of any of the Clovers. It will yield under favorable conditions eight to ten tons of green food per acre or one and one-half to two and a half tons of hay, and is worth as a fertilizing crop twenty to twenty-five dollars per acre. It can be cut or turned under in time for other early Spring crops, and in warm climates four or five cuttings are made during the season. Its greatest value lies in its land improving qualities; experienced farmers stating that Corn following a Crimson Clover crop will be increased fully one-third in yield, and even where the crop of Crimson Clover is cut or grazed off it leaves the land in very much better condition, and considerably increases the yield of crops following it. Farmers should take every opportunity of sowing Crimson Clover on any vacant or uncultivated lands which they may have, or to follow potatoes, melons or other truck crops, as well as the last working of Corn or other cultivated crops, and many farmers who plant Cow Peas have recently been sowing Crimson Clover at the same time as they do their Peas with good results. When good stands are secured in this way it saves an extra preparation of the land and the Crimson Clover comes on after the Cow Pea crop is cut off. When Crimson Clover is sown by itself it is best to prepare the land some time previous to seeding, and then wait for a rain to fall on the prepared soil before sowing the seed. After the rain and as soon as the land is dry enough a light harrow should be run over the soil to break the crust. After sowing a light harrow should be run over the soil to cover the seed. If this plan is followed out it will almost invariably insure a good stand and good crop no matter what the weather may be afterwards.

Crimson Clover should be sown at the rate of fifteen to twenty pounds to the acre any time from July to early in October. The Seed we offer is Northern Grown on New Land and the best and cleanest that can be produced, showing a strong germination of 95 per cent. and 99 per cent. purity.

Prices Postpaid—Pkt. 10c.; 1 lb. 25c.; 3 lbs. 70c.

At Buyer's Expense— $\frac{1}{8}$ bu. 90c.; $\frac{1}{4}$ bu. \$1.70; $\frac{1}{2}$ bu. \$3.30; 1 bu. (of 60 lbs.) \$6.50.

Prices on all Clover and Field Seeds subject to change without notice.
